CHAIRMAN'S STATEMENT

THE KESMI OF TOMORROW IS A BROADER, MORE TECHNOLOGICALLY RELEVANT COMPANY, WELL POSITIONED TO PARTICIPATE IN THE NEXT GENERATION OF SEMICONDUCTOR GROWTH.

EXPANDING INTO AI GPUS, ADVANCED POWER MODULES AND GAN POWER DEVICES

EXTENDING TESTING CAPABILITIES FROM WAFER AND DEVICE LEVEL THROUGH TO SYSTEM LEVEL

PURSUING NEW OPPORTUNITIES WITH DETERMINATION AND FINANCIAL DISCIPLINE

CHAIRMAN'S STATEMENT

DEAR SHAREHOLDERS,

FY2026 marked an important turning point for KESMI. The transformation efforts undertaken across the Group contributed to our return to profitability, while new opportunities in artificial intelligence ("AI") and advanced power applications, together with the extension of our testing capabilities from wafer and package level to System-Level Testing ("SLT"), are opening new avenues for growth.

With a stronger foundation and a broader technology platform, KESMI is entering an exciting new phase of its development.

REBOUNDED TO PROFITABILITY

The Group recorded revenue of RM223 million for FY2026, an increase of 6% from RM211 million in the preceding year. More significantly, the Group delivered a strong turnaround in profitability, recording a net profit of RM9.5 million compared with a net loss of RM8.2 million in FY2025.

The improved performance reflected higher business activity and more cost-efficient operational performance. During the year, the Group also monetised underperforming assets while continuing to invest heavily in capabilities to support customers' evolving requirements.

AI — A NEW GROWTH PILLAR

We are taking our established strength in automotive semiconductor reliability and applying it to a new generation of opportunities created by AI.

As AI drives increasingly advanced semiconductor devices operating under demanding power and thermal conditions, burn-in and testing are becoming more important than ever before. This positions us to expand into AI graphics processing units ("GPUs"), advanced power modules and gallium nitride ("GaN") power devices, while continuing to grow our established automotive semiconductor business.

EXTENDING OUR TESTING CAPABILITIES

Our transformation extends beyond broadening the range of semiconductor applications we serve. We are also expanding our testing capabilities to better support our customers.

Last year, we shared our plans to broaden our capabilities into wafer-level and SLT. These capabilities are now forming an important part of the direction in which we are developing our testing business.

As semiconductor technology advances, several semiconductor components are increasingly brought together to form sophisticated modules. SLT evaluates the complete module as an integrated system, helping to verify that its components work reliably together under conditions that closely represent actual operating conditions. This extends our traditional burn-in and reliability capabilities and enables KESMI to participate in a broader spectrum of semiconductor testing.

Our transformation therefore has two dimensions — expanding the applications we serve and extending our testing capabilities from wafer and device level through to system level.

AN EVOLVING SEMICONDUCTOR LANDSCAPE

AI, electrification and the growing need for efficient power management are reshaping the semiconductor landscape. New applications are pushing the boundaries of semiconductor performance and, with them, raising the importance of reliability. For KESMI, this evolution is creating new opportunities for burn-in and testing, the heart of our business.

LOOKING AHEAD

We enter FY2027 with renewed confidence. The financial turnaround achieved in FY2026 provides a stronger foundation, while the transformation of our business is opening new avenues for growth.

Our immediate focus is on converting these opportunities into sustainable growth. While these new areas will take time to develop and scale, we will pursue them with determination and financial discipline. The KESMI of tomorrow is a broader, more technologically relevant company, well positioned to participate in the next generation of semiconductor growth. With our transformation well underway, we are entering an exciting new chapter in KESMI's development.

DIVIDENDS

The Board has declared a second interim dividend of 4.5 sen per share. Together with the first interim dividend of 6 sen per share, this brings the total dividend for FY2026 to 10.5 sen per share, reflecting the Group's return to profitability while maintaining a prudent approach to capital management and investment in the business.

APPRECIATION

On behalf of the Board, I wish to express our sincere appreciation to our management team and all our employees for their dedication, commitment and perseverance throughout FY2026. The improvement in our performance reflects their sustained efforts and contributions across the Group.

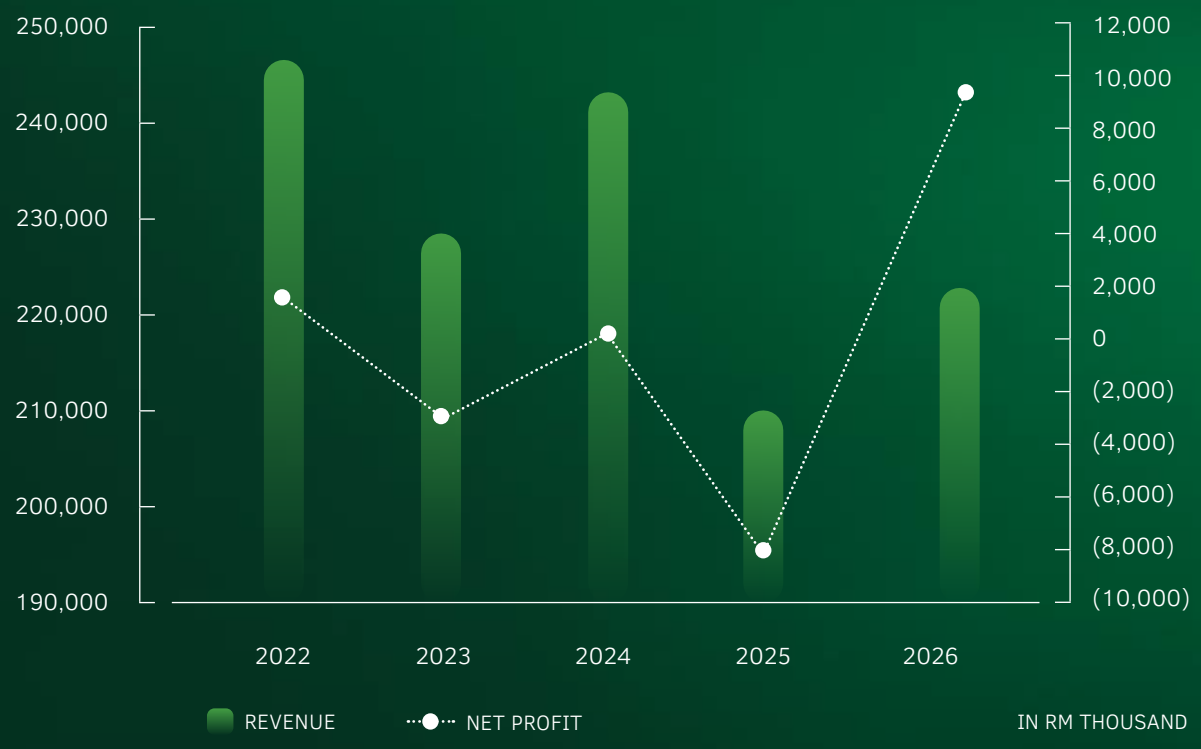

We also extend our gratitude to our customers, suppliers and business partners for their continued trust and collaboration, and to our shareholders for their confidence and support.

SAMUEL LIM SYN SOO
Executive Chairman & Chief Executive Officer
22 September 2026

MANAGEMENT DISCUSSION AND ANALYSIS

5-YEAR FINANCIAL HIGHLIGHTS

Financial Year Ended 31 July (RM '000)	2022	2023	2024	2025	2026
Revenue	246,736	228,283	243,025	210,546	222,783
Profit/(Loss) Before Tax	4,232	(2,218)	3,299	(7,468)	12,873
Net Profit/(Loss) Attributable To Owners of the Company	1,666	(3,130)	188	(8,185)	9,453
Total Equity Attributable To Owners of the Company	362,358	354,745	352,677	339,169	344,119
Basic Earnings/(Loss) Per Share (sen)	3.9	(7.3)	0.4	(19.0)	22.0
Dividend Per Share (sen)	7.5	6.0	7.5	6.0	10.5

MANAGEMENT DISCUSSION AND ANALYSIS

OVERVIEW OF THE GROUP

KESM Industries Berhad ("KESMI") began operations in 1978 with its first burn-in facility in Kepong, Selangor Darul Ehsan. As the business grew, KESMI relocated to the Sungei Way Free Industrial Zone in Petaling Jaya, where it continues to operate today.

In 1983, KESMI established KESP Sdn. Bhd. in the Bayan Lepas Free Industrial Zone, Penang, strengthening the Group's burn-in capabilities and establishing a presence in one of Malaysia's key semiconductor hubs.

Since then, KESMI has grown to become the world's largest independent provider of burn-in and test services. Listed on Bursa Malaysia Securities Berhad since 1994, the Group has built a strong track record serving leading semiconductor manufacturers with reliable, high-quality burn-in and test solutions.

KESMI further extended its footprint with the establishment of KESM Industries (Tianjin) Co., Ltd. in 2007, strengthening its ability to support customers in China. In 2021, the Group expanded its manufacturing presence to Malacca.

Today, KESMI supports many of the world's leading automotive semiconductor manufacturers, backed by a skilled workforce of approximately 1,500 employees across four strategic locations.

OUR BUSINESS IS RELIABILITY

KESMI is the world's largest independent provider of burn-in and test services to the semiconductor industry. As an independent service provider, the Group helps semiconductor manufacturers verify the reliability and performance of their devices before they enter the market.

Burn-in and testing are important processes in semiconductor manufacturing. During burn-in, devices are subjected to controlled stress conditions to identify early-life failures and screen out weak or unreliable devices before shipment.

Following burn-in, devices undergo functional and electrical testing to verify that they meet specified performance requirements. These processes help manufacturers validate product quality and reliability while reducing the risk of device failures in the field.

Through these specialised services, KESMI supports semiconductor devices used across automotive, industrial, computing, consumer and emerging AI-related applications.

THE GROUP'S STRATEGY

KESMI's strategy is centred on building upon its established expertise in burn-in and test to support a broader range of semiconductor testing requirements.

The Group continues to broaden its capabilities across the semiconductor testing value chain, combining its burn-in and final-test expertise with complementary testing capabilities, supported by its hardware and software competencies. This enables KESMI to support customers across a wider range of semiconductor devices and applications as their testing requirements evolve.

At the same time, KESMI is applying its expertise to areas where semiconductor performance and reliability requirements are increasing. These include AI and power-related applications, while automotive semiconductors remain an established and important part of the Group's business.

The strategy is supported by continued investment in technical capabilities, equipment and workforce development, together with close collaboration with customers. Through these efforts, KESMI aims to strengthen its capabilities across wafers, Known Good Die, modules and semiconductor packages while maintaining a disciplined approach to long-term growth.

REVIEW OF FINANCIAL RESULTS

The information in this management discussion and analysis should be read in conjunction with the Company's consolidated financial statements and notes related thereto.

The Group's revenue improved by 6% or RM12.2 million, from RM210.5 million in the preceding year, to RM222.8 million for the current financial year ended 31 July 2026. This was primarily attributable to increased demand for our services in processing AI-related chips.

Interest income was lower by 14% or RM1.0 million, following lower placement of fixed deposits at lower interest rates.

Other income increased by RM9.9 million, due to increase in gain on disposal of machinery and test equipment and assets held for sale by RM6.8 million, compensation of RM1.2 million for unfulfilled minimum orders, income of RM1.0 million arising from accelerated deliveries, increase in rental income by RM0.3 million and higher gain on disposal of spares by RM0.2 million.

Consumables used increased by 22% or RM3.8 million, to support higher revenue.

Employee benefits expense increased by 2% or RM1.3 million, primarily driven by higher variable compensation.

Depreciation of property, plant and equipment was higher by 7% or RM3.2 million, as more machinery and test equipment were commissioned for use in the production.

Finance costs decreased by 37% or RM1.0 million, following repayments of bank loans.

Other expenses decreased by 8% or RM6.5 million, mainly attributable to reduction in utilities of RM4.1 million, reversal of impairment on trade receivables of RM0.8 million from an impairment on trade receivables of RM0.8 million and decrease in fair value loss on investment securities of RM3.1 million. These reductions were partially offset by increase in equipment rental expense of RM1.7 million, as well as higher net foreign exchange loss by RM0.2 million.

Consequently, the Group reported a profit before tax of RM12.9 million in the current financial year, from a loss before tax of RM7.5 million in the preceding year.

REVIEW OF FINANCIAL POSITION, LIQUIDITY AND CAPITAL RESOURCES

Property, plant and equipment increased by 21% or RM27.7 million, from RM133.8 million as at 31 July 2025 to RM161.5 million as at 31 July 2026. The increase was primarily due to net additions of RM76.2 million, offset by depreciation charge of RM48.6 million.

Total trade and other receivables increased by 24% or RM10.6 million, from RM44.0 million to RM54.6 million, mainly due to higher revenue in the reporting quarter under review as compared to the previous fourth quarter ended 31 July 2025, as well as sale proceeds receivable of RM2.0 million arising from the disposal of certain machinery and test equipment.

Prepayments increased by RM4.0 million, from RM1.3 million to RM5.2 million, mainly attributable to higher down payments for procurement of machinery and test equipment.

Investment securities were lower by 55% or RM5.9 million, from RM10.6 million to RM4.8 million, as a result of net disposals of investment securities of RM5.6 million and net fair value loss on investment securities of RM0.3 million.

Tax recoverable decreased by 93% or RM5.3 million, from RM5.7 million to RM0.4 million, primarily due to tax refunds received during the current year.

Cash and short-term deposits rose by 3% or RM7.2 million, from RM210.1 million to RM217.4 million. This represented the net cash generated from operating activities that was partly used to fund capital expenditure and repay loans and borrowings.

Total trade and other payables were higher by 94% or RM27.0 million, from RM28.7 million to RM55.8 million, largely due to higher payables for purchases of machinery and test equipment, dividend payable, as well as higher accrued operating expenses and sundry payables.

Total loans and borrowings increased by 14% or RM5.0 million, from RM36.0 million to RM41.0 million, following net increase in lease liabilities of RM4.9 million.

Income tax payable increased by RM1.5 million, due to additional tax provision made during the current year.

Deferred tax liabilities decreased by 43% or RM2.1 million, from RM5.0 million to RM2.9 million, as a result of lower taxable temporary differences, arising from the differences in depreciation for tax purposes.

OPERATIONS REVIEW

KESMI continued to strengthen its burn-in and test operations in FY2026, supporting semiconductor manufacturers across automotive, AI/data centre, industrial, internet of things ("IoT") and other applications.

Business activity improved during the year following the softer market conditions experienced in FY2025. Automotive semiconductors remained a core part of KESMI's operations, with the Group securing new business for IC drivers, power amplifiers and microcontrollers.

The Group also expanded its business across a broader range of devices, including power management ICs, power modules, timing devices and battery chargers. These devices support applications spanning AI/data centres, automotive, IoT and battery systems, reflecting the growing breadth of KESMI's business.

In higher-power applications, KESMI added new business for AI GPU power modules and GaN power devices. The Group also continued its customer engagement for wafer probing, further broadening its capabilities across the semiconductor testing value chain.

Operational efficiency and financial discipline remained important priorities throughout FY2026. KESMI continued to manage its resources prudently, monetize underperforming assets while strengthening its capabilities to support existing and new customer requirements. Together with improved business activity, these efforts contributed to the Group's return to profitability.

MANAGEMENT DISCUSSION AND ANALYSIS

During FY2026, KESMI achieved ISO 45001 Occupational Health and Safety Management System certification, strengthening the Group's approach to identifying and managing workplace health and safety risks. The certification reflects KESMI's continued commitment to providing a safe and healthy working environment for its employees and supporting responsible, sustainable operations.

Sustainability remained an integral part of KESMI's operations and long-term strategy. In FY2026, the Group achieved a 3-star FTSE4Good ESG rating.

Looking ahead, KESMI will continue to build on its established automotive semiconductor business while pursuing opportunities in AI power and advanced power applications. The Group will also continue to develop its testing capabilities in line with customer requirements.

RISKS

The semiconductor industry continues to operate in a complex environment, with changes in global trade conditions and cross-border technology controls creating uncertainty across semiconductor supply chains. These developments may affect supply chain conditions and investment decisions across international markets.

At the same time, the increasing allocation of foundry capacity towards AI-related products may result in fluctuations in loading, production schedules and delivery requirements. Disruptions to energy supplies may further contribute to inflationary and operating cost pressures.

Growth also remains uneven across semiconductor end markets. While investment in AI infrastructure is driving strong demand for memory, AI accelerators and networking semiconductors, the increasing concentration of industry growth around AI creates greater exposure to changes in the pace of infrastructure investment. A slowdown or delay in AI-related investment could therefore affect semiconductor demand.

Automotive remains a key market for KESMI, with semiconductor demand influenced by vehicle production, the pace of electrification and changing market conditions across regions. Changes in vehicle demand and the pace of electrification may therefore influence semiconductor demand across the automotive market.

Rapid technological change presents a further risk. As semiconductor devices become more complex and power requirements increase, testing requirements continue to evolve. For KESMI, this requires careful alignment of investments in equipment, technical capabilities and workforce skills with evolving customer requirements and the pace of market adoption.

Against this backdrop, KESMI will continue to manage its resources prudently, maintain operational discipline and strengthen its technical and workforce capabilities while responding to changes in customer and market requirements.

PROSPECTS AND OUTLOOK

KESMI enters FY2027 from a stronger position following its return to profitability in FY2026. While semiconductor demand remains uneven across end markets, developments in AI infrastructure and automotive electronics continue to create opportunities in areas relevant to the Group's burn-in and test expertise.

The semiconductor industry is being shaped increasingly by investment in AI infrastructure. According to Gartner, worldwide semiconductor revenue is forecast to reach approximately USD1.56 trillion in 2026, driven by strong demand for memory, AI accelerators and networking semiconductors. For KESMI, increasing computing and power requirements are creating opportunities across power management and higher-power semiconductor applications, building on the Group's burn-in business for AI GPU power modules. Continued investments in quality systems, together with improvements in operational execution and productivity, will support the Group in addressing the increasing complexity and performance requirements of AI-related semiconductor devices.

Automotive remains an important market for KESMI as electrification and increasingly sophisticated vehicle electronics continue to reshape semiconductor requirements. According to Gartner, the global automotive semiconductor market is forecast to reach approximately USD150 billion by 2034, presenting longer-term opportunities for the Group to build on its established automotive semiconductor business.

Looking ahead, KESMI will focus on opportunities where its established burn-in and test expertise can address evolving customer requirements. The Group will remain selective in its investments, strengthen its technical capabilities and maintain operational discipline as it works towards sustainable long-term growth.

DIVIDEND POLICY

KESMI does not have a stated dividend policy. However, we have a track record of paying a proportion of our sustainable earnings as dividends. Such payments are dependent on a number of factors, such as earnings, cash requirements, capital commitments, general economic and industry environments which are reviewed and considered by the Board.

BOARD OF DIRECTORS

MR SAMUEL LIM SYN SOO
Aged 72, Male, Singaporean
Executive Chairman and Chief Executive Officer

Mr Samuel Lim has been on the Board since 6 September 1986 and was last re-elected on 11 January 2024.

Mr Lim is Founder, Executive Chairman and Chief Executive Officer of the Company and Sunright Limited in Singapore, a company listed on the Mainboard of the Singapore Exchange Securities Trading Limited. He led the Company to become the world's largest independent provider of burn-in and testing services.

A fifty year veteran of the local semiconductor industry, he has been credited with 3 joint patents for testing of devices.

He holds a Diploma in Industrial Engineering (Canada). Prior to the establishing of KESM Industries Berhad, Mr Lim held senior positions including engineering, manufacturing and marketing in U.S. multinational companies based in Asia and USA.

Mr Lim also sits on the Board of several other private companies in Singapore, Malaysia, Philippines and USA.

Mr Lim's holdings in the securities of the Company are as follows: -

	Direct Holdings	Indirect Holdings
Ordinary Shares	Nil	20,825,000 (Deemed interest by virtue of his substantial interest in Sunright Limited)

MR KENNETH TAN TEOH KHOON
Aged 69, Male, Singaporean
Executive Director

Mr Kenneth Tan was first appointed to the Board on 20 January 1992 and was last re-elected on 15 January 2025.

Mr Tan is responsible for the Group's strategic direction, corporate affairs, investor relations and oversees the financial management of the Group.

Prior to joining the Group in 1987, he worked in an international accounting firm, a major property group in Singapore and subsequently in a diversified multinational group in the manufacturing and packaging industries.

Mr Tan is currently an executive director of Sunright Limited and also sits on the Boards of several other private limited companies in Singapore, Malaysia, China, Philippines and USA.

Mr Tan holds a Bachelor of Accountancy degree from the National University of Singapore and is a Fellow Member of the Institute of Singapore Chartered Accountants.

BOARD OF DIRECTORS

MR KUA CHOH LEANG
Aged 62, Male, Malaysian
Senior Independent
Non-Executive Director

Mr Kua was first appointed to the Board on 1 May 2023 and was last re-elected on 14 January 2026. He is the Senior Independent Director and Chairman of the Audit Committee and Nominating Committee.

Mr Kua began his career in 1984 with Ernst & Young, Malaysia, holding various positions and was a partner from 2009 till his retirement in 2019. His 35 years of experience saw him auditing and providing business advisory to many companies in various industries.

He currently sits on the Board of BGMC International Ltd, a company listed on the stock exchange of Hong Kong.

Mr Kua is a member of Malaysian Institute of Certified Public Accountants and Malaysian Institute of Accountants.

MS LIM MEE ING
Aged 75, Female, Singaporean
Non-Independent
Non-Executive Director

Ms Lim was first appointed to the Board on 19 February 1990 and was last re-elected on 15 January 2025. She is also a member of the Audit Committee and Nominating Committee.

Ms Lim holds a Diploma from the Institute of Bankers, and has more than 18 years of working experience in the banking profession before her retirement in 1990. From 1973 to 1990, she worked with the Singapore Branch of Barclays Bank PLC in various senior positions. Prior to her exit, she was responsible for marketing the global securities and custodian services of the bank. Ms Lim was also a director of Barclays Bank (S) Nominees Pte Ltd from September 1982 to March 1990. She was a member of the Committee on Securities Industry of the Association of Banks in Singapore from September 1987 to March 1990.

DATO' DR. SUHAZIMAH BINTI DZAZALI
Aged 63, Female, Malaysian
Independent Non-Executive Director

Dato' Dr. Suhazimah was first appointed to the Board on 1 May 2023 and was last re-elected on 14 January 2026. She is a member of the Audit Committee and Nominating Committee.

Dato' Dr. Suhazimah has over 35 years of working experience in public services related to Information and Communications Technology ("ICT"). She held senior and top management positions throughout her career, notably her position as Deputy Director-General (ICT) which carries the responsibility of the Government Chief Information Officer (GCIO) in the Malaysian Administrative Modernization and Management Planning Unit (MAMPU) at the Prime Minister's Department from 2014 and retired from public service in October 2020.

Dato' Dr. Suhazimah currently sits on the Board of Pertama Digital Berhad, a Main Market Listed Company. She is also a Director of Cahya Suria Services Sdn. Bhd.

Dato' Dr. Suhazimah graduated with a Master of Science and a Bachelor of Science in Computer Science from Northrop University, California, USA, as well as a Doctorate in Information Security Management from University of Malaya. She obtained the Certified Disaster Recovery Professional qualification from the EC Council, USA, in 2010. In 2013, she received the Special Award on Cyber Security Professional of the Year, from CSM-ACE 2013, coordinated by MOSTI, Cyber Security Malaysia and National Security Council.

KEY SENIOR MANAGEMENT

MR SAMUEL LIM SYN SOO, aged 72, male, Singaporean, Executive Chairman and Chief Executive Officer.

His profile is set out on page 8 of this annual report.

MR KENNETH TAN TEOH KHOON, aged 69, male, Singaporean, Executive Director.

His profile is set out on page 8 of this annual report.

MR LIM CHEE SENG, aged 63, male, Malaysian, was appointed Chief Operating Officer of the Group in February 2025.

Mr Lim joined the Group in 1991 as Plant Manager, overseeing its burn-in services operations. Throughout his tenure, he has been instrumental in transforming and expanding the Group's service capabilities from semiconductor burn-in to testing services, while playing a key leadership role in establishing and growing its operations across Malaysia and China.

With over three decades of experience in semiconductor operations and business development, Mr Lim brings extensive industry knowledge and operational leadership to the Group. As Chief Operating Officer, he is responsible for the overall performance and strategic direction of the Group's operations, driving operational excellence, strengthening technological capabilities and spearheading business expansion initiatives to enhance competitiveness and support sustainable long-term growth.

Prior to joining the Group, Mr Lim served as Operations Manager of a liquid crystal display manufacturing company.

He holds a Bachelor of Science in Physics from University of Malaya.

Mr Lim does not have:

(i) any directorship in public companies and listed corporations;

(ii) any family relationship with any Director and/or major shareholder of the Company;

(iii) any conflict of interest with the Company or its subsidiaries; and

(iv) any conviction of offences (excluding traffic offences, if any) within the past five years and there were no public sanctions or penalties imposed by the relevant regulatory bodies during the financial year ended 31 July 2026.

OTHER INFORMATION ON DIRECTORS

1. FAMILY RELATIONSHIP

None of the Directors has any family relationship with other Directors and/or substantial shareholders of the Company except for Ms Lim Mee Ing, who is the spouse of Mr Samuel Lim Syn Soo.

2. CONFLICT OF INTEREST

The Group has entered into recurrent related party transactions with parties in which certain Directors of the Company, namely Samuel Lim Syn Soo, Kenneth Tan Teoh Khoon and Lim Mee Ing have direct or indirect interest in these parties. Please refer to the disclosures under Note 23(i) in the accompanying financial statements and in the Circular to Shareholders dated 26 October 2026 which is despatched together with this Annual Report. Save as disclosed, none of the other Directors have any conflict of interest with the Company or its subsidiaries.

3. CONVICTION OF OFFENCES

None of the Directors has been:

(i) convicted of any offences within the past five years (other than traffic offence); or

(ii) imposed with any public sanction or penalty by the relevant regulatory bodies during FY2026.

4. DETAILS OF ATTENDANCE AT BOARD MEETINGS HELD IN FY2026

Name of Directors	No. of Meetings Attended	Percentage
Mr Samuel Lim Syn Soo	5 out of 5	100
Mr Kenneth Tan Teoh Khoon	5 out of 5	100
Ms Lim Mee Ing	5 out of 5	100

ADDITIONAL COMPLIANCE INFORMATION

1. UTILISATION OF PROCEEDS RAISED FROM ANY CORPORATE PROPOSAL

There were no proceeds raised from corporate proposal in FY2026.

2. AUDIT AND NON-AUDIT FEES

The amount of audit and non-audit fees incurred for services rendered to the Group and the Company by the External Auditors is disclosed in Note 8 of the audited financial statements included in this Annual Report. The non-audit fees mainly paid or payable to member firms of Ernst & Young PLT, were for the guidance on sustainability reporting.

3. MATERIAL CONTRACTS

There were no material contracts entered into by the Company and its subsidiaries involving Directors' and major shareholders' interests, either still subsisting at the end of the FY2026 or entered into since the end of the previous financial year.

4. DISCLOSURE OF FINANCIAL DATA FOR SHARIAH SCREENING

Pursuant to Paragraph 9.25A of the Main Market Listing Requirements, below are the financial data that are relevant for purpose of Shariah screening by the Shariah Advisory Council of the Securities Commission Malaysia. These include financial data on Shariah non-permissible income arising from the Group's business activities and interest-based financial position.

(a) Group Total Income and Total Assets

	Group	
Total Income	**2026 RM'000**	**2025 RM'000**
Revenue	222,783	210,546
Interest/Finance income	5,758	6,730
Dividend income	307	393
Other income	12,645	2,770

SUSTAINABILITY REPORT

ABOUT KESM INDUSTRIES BERHAD

[GRI 2-1, 2-6]

Headquartered in Malaysia with operating facilities across Asia, KESM Industries Berhad and its subsidiaries ("KESMI" or the "Group") offer high-quality burn-in and testing to the semiconductor industry. Listed on the Main Market of Bursa Malaysia Securities Berhad, KESMI provides exceptional service excellence to our customers.

Primarily involved in assuring the reliability and functionality of integrated circuits by eliminating defects that occur during semiconductor manufacturing process, KESMI offers seamless and complete burn-in and test solutions for semiconductor manufacturers. KESMI provides innovative and value-adding solutions to our customer products whilst our customers focus on their core competencies. We also adopt internationally recognised certifications and quality standards in our manufacturing processes, thus providing equivalent outcomes required by our customers end markets.

ABOUT THE REPORT

[GRI 2-2, 2-3]

Our ninth annual Sustainability Report covers the sustainability policies and practices of KESMI entities in Malaysia[1] and China[2] for the period from 1 August 2025 to 31 July 2026 ("FY2026"). Where applicable, historical performance data is also included for comparative purposes.

This report has been prepared with reference to the Global Reporting Initiative ("GRI") Standards 2021. The GRI Sustainability Reporting Standards have been considered most suitable for KESMI's sustainability reporting framework as the standards are recognised globally and are the most widely adopted global standards for sustainability reporting.

This year, through a phased approach, KESMI is disclosing its fourth Task Force on Climate-related Financial Disclosures ("TCFD") Report to embrace the TCFD recommendations and better manage climate risks and opportunities.

This report has further taken reference from the International Financial Reporting Standards ("IFRS") Sustainability Disclosure Standards shaped by the International Sustainability Standards Board ("ISSB"). In FY2025, KESMI had conducted a gap analysis to identify the areas for alignment for reporting against IFRS S1 and S2 climate-related disclosures. This year, we continue to close the identified gaps to improve alignment against ISSB Standards, this includes expansion of Scope 3 Categories. Moving forward, this will allow us to strive towards compliance with the ISSB Standards in future reporting years, in line with regulatory requirements.

STATEMENT OF ASSURANCE

[GRI 2-5]

Assurance undertaken

In strengthening the credibility of the Sustainability Report, selected aspects/parts of this Sustainability Report for the period from 1 August 2025 to 31 July 2026 have been subjected to an internal review by an outsourced internal auditor and have been approved by KESMI's Audit Committee.

[1] KESM Industries Berhad, KESP Sdn. Bhd. and KESM Test (M) Sdn. Bhd.
[2] KESM Industries (Tianjin) Co., Ltd

Subject matter

The subject matters covered by the internal review include the following indicators:

Sustainability matters	Indicators
Anti-corruption	• Total number and percentage of employees who have received trainings and communicated on anti-corruption by employee category • Total number of business partners who have communicated on anti-corruption policies
Supply chain management	• Proportion of spending on local suppliers
Economic performance	• Economic value generated, distributed and retained
Labour practices and standards	• Total and average hours of training by gender and employee category
Energy management	• Total energy consumption
Emissions management	• Scope 1 and 2 emissions in tonnes of CO2e • Scope 3 emissions in tonnes of CO2e – Category 1 (Purchase of Goods and Services), Category 2 (Capital Goods), Category 4 (Upstream Transportation) and Category 9 (Downstream Transportation)

Scope

The boundary of the internal review includes all companies within the Group's operational control.

External assurance has not been sought for this report. However, KESMI will consider seeking external assurance for its sustainability report as its sustainability reporting process matures over time. We welcome feedback that would help improve our sustainability efforts. Please direct any feedback to sustainability@sunright.com.

OUR SUSTAINABILITY COMMITMENT AND GOVERNANCE

[GRI 2-12, 2-13, 2-14, 2-16, 2-17, 2-22]

KESMI is firmly committed to sustainability, a commitment that guides our business. This dedication to sustainability is integrated throughout all levels of the Group, influencing both our business conduct and our responses to the evolving risks and opportunities in the semiconductor and electronics manufacturing industry.

Our established sustainability governance structure helps facilitate the management and oversight of this agenda. The Board and Executive Directors of KESMI are responsible for reviewing and approving KESMI's direction for sustainability policy and programmes, and ensuring that sustainability is embedded into the strategic direction of the Group and its operations. To achieve this, the Board continuously maintains an effective governance framework for sustainability within the Group.

The Board has formed a sustainability committee, comprising the Group Controller and Chief Operating Officer, to drive and implement the sustainability policies and practices of KESMI, champion sustainability KPIs, monitor its sustainability-related performance and eventually provide an annual update to the Board for review and appraisal.

To ensure effective integration of sustainability across the Group, the Board is committed to reviewing and assessing material information, enhancing their knowledge and ability to provide quality and professional reviews, and ensuring that sustainability risks and opportunities are incorporated into KESMI's strategic directions. Likewise, senior management is guided by sustainability KPIs benchmarked against industry practices, considering economic, environmental, social and governance-related risks and opportunities, where applicable. In addition, climate-related risks and opportunities along with relevant sustainability metrics such as Scope 1 and 2 emissions are supported by the relevant departments and reported to the Board annually. Further, these departments receive in-house training as needed whenever new sustainability metrics are introduced.

KESMI recognises that it is of utmost importance for board members to have sufficient understanding and knowledge of sustainability issues to effectively discharge the above duties and carry out their role of sustainability governance. Directors attend sustainability-related trainings to equip themselves with knowledge on enhanced sustainability reporting requirements and sustainability matters such as corporate sustainability, climate risks and human rights. These ongoing trainings help widen their sustainability knowledge and keep abreast with the latest regulatory developments and any emerging topics.

SUSTAINABILITY REPORT

STAKEHOLDER ENGAGEMENT

[GRI 2-29]

KESMI values the relationships we have built with our key stakeholders. We recognise the need to understand their concerns and expectations. Using various platforms, we continue to maintain regular engagement with stakeholders, especially those who are identified to cause significant impacts or those who could potentially be significantly affected by KESMI's operations.

Table 1: KESMI's approach towards stakeholder engagement

	Purpose of engagement	Key areas of concern	Engagement platforms	Frequency of engagement
SHAREHOLDERS				
	• Provide regular and timely updates about KESMI's performance to enable key shareholders to make informed investment decisions.	• KESMI's financial health and industry reputation • Sustainability performance	• Press releases • Announcements • Media conference • Annual report • Annual general meeting • Analyst/investor meetings	• Periodic • Quarterly • As necessary • Annual • Annual • As necessary
CUSTOMERS				
	• Maintain international certifications and standards to ensure the quality, safety and efficiency of products, services and systems (e.g. ISO 9001:2015 certification, ISO 14001:2015 certification, IATF 16949:2016 certification, ISO 27001: 2022 certification, ISO45001: 2018 certification)	• Service quality • Timely delivery	• Industry events • Customer satisfaction surveys and scorecards • Customer visits to our plants	• Frequent • Periodic • As necessary
EMPLOYEES AND OUTSOURCED WORKERS				
	• Implement non-discriminatory Human Resources ("HR") policies	• Fair employment and well-being • Occupational health and safety	• Electronic updates and newsletters	• Periodic
	• Provide deserving remuneration, welfare and benefits		• Annual performance appraisals • Company events and staff bonding sessions	• Annual • Periodic
	• Provide relevant trainings (safety and job specific)	• Training and development	• Trainings	• Periodic

	Purpose of engagement	Key areas of concern	Engagement platforms	Frequency of engagement
CONTRACTORS AND SUPPLIERS				
	• Conduct fair suppliers' screening process	• Business opportunities	• Project tenders	• As necessary
	• Conduct regular suppliers' evaluation process	• Feedback on performance	• Suppliers' evaluation meetings	• Periodic
REGULATORS				
	• Keeping abreast with the latest regulatory requirements	• Compliance to regulatory requirements	• Statutory reporting • On-site inspections	• Periodic • As necessary
LOCAL COMMUNITY				
	• Participate in Corporate Social Responsibility ("CSR") activities	• CSR initiatives	• CSR programmes	• Periodic
	• Provide employment opportunities through our business	• Employment opportunities	• Teaming with local technical institutions for job training and internship opportunities	• Annual

MATERIALITY ASSESSMENT

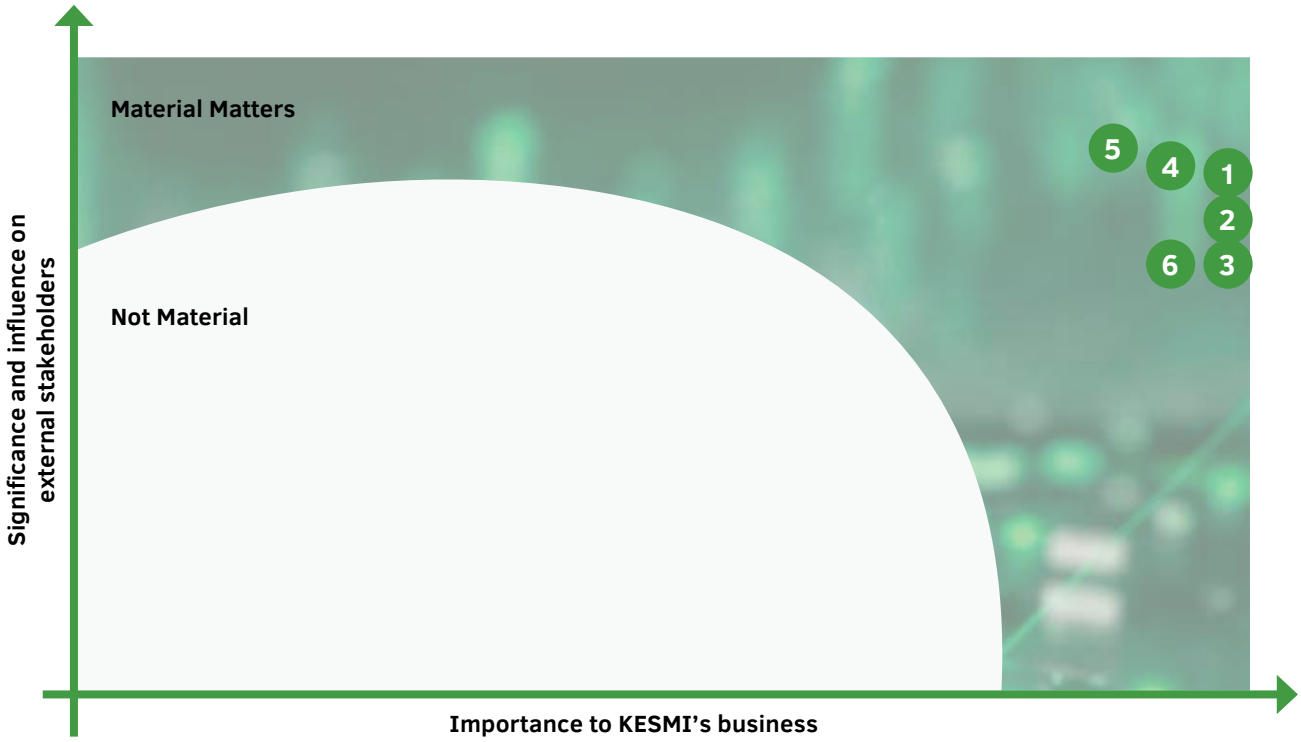

[GRI 3-1, 3-2]

On an annual basis, KESMI reviews the material matters to ensure their continued relevance amidst global and industry's environmental, social and governance ("ESG") trends. In FY2026, the Board has determined that all material matters continue to be relevant to the business. KESMI also remains conscious of potential sustainability matters that may be of investor concern due to their significant environmental and social impacts. For matters currently not deemed material to KESMI, we have existing management systems and internal controls that enable us to carry out our ongoing commitment to enhancing our ESG impacts and reducing environmental footprint where practicable.

Figure 1: KESMI's Materiality Assessment Process

1	**Identification** A preliminary list of potential sustainability matters was identified through review of KESMI's business strategy, market landscape, regulatory requirements and leading sustainability practices.
2	**Prioritisation** Through an unbiased and anonymous voting exercise, these sustainability matters were prioritised based on the significance of the impact of each issue, considering both the perspectives of internal and external stakeholders.
3	**Validation** The results of the exercise were mapped into a materiality matrix, which was approved by the Board.
4	**Assessment/Review** In FY2026, a review of the material matters was conducted. It was concluded that the existing six identified material matters remained relevant for reporting. KESMI will continue to conduct annual reviews of its material matters to ensure that it continues to consider critical sustainability matters relevant to its business across the years.

Figure 2: KESMI's Sustainability Matters and Corresponding GRI Topics

	Material Matters	Description	Corresponding GRI
1	Corporate governance and business ethics	Adherence to responsible business practices in terms of anti-corruption and corporate governance	GRI 205: Anti-corruption
2	Regulatory compliance	Compliance with all regulatory requirements, including environmental, labour, health and safety regulations	GRI 2-27: Compliance with Laws and Regulations
3	Economic performance	Sustaining economic growth through responsible supply chain management and contribution of economic value	GRI 201: Economic Performance GRI 204: Procurement Practices
4	Energy and carbon footprint	Efficient use of energy to minimise carbon footprint from our operations	GRI 302: Energy GRI 305: Emissions
5	Occupational health and safety	Protecting the physical and mental well-being of all employees and workers	GRI 403: Occupational Health and Safety
6	Fair employment practices	Equal opportunities and treatment for all employees and workers	GRI 401: Employment GRI 404: Training and Education GRI 405: Diversity and Equal Opportunity GRI 406: Non-discrimination

SUSTAINABILITY REPORT

UPHOLDING CORPORATE GOVERNANCE AND BUILDING AN ETHICAL CULTURE

[GRI 3-3, 2-23, 2-24, 205-1, 205-2, 205-3]

Prioritising ethical conduct and strong corporate governance practices not only establishes long-term partnerships and confidence among stakeholders such as investors, customers and employees, but also contributes to environmental protection and social development.

Conversely, inadequate corporate governance and ethical failures can result in reputational harm, legal ramifications and harmful effects on the environment and society. Pursuing ethical excellence is critical for KESMI to be a responsible corporate citizen and positively contribute to the larger global community.

KESMI understands that the long-term success and growth are directly tied to its integrity and the ethical foundations of its business. We integrate our values and ethical beliefs throughout our value chain and our operations. To our reputation as well as the trust earned from our stakeholders, KESMI implements a zero-tolerance policy for any form of unethical business practices, including fraud, bribery and corruption.

Our Code of Conduct (the "Code") contains the business policies that govern our approach to ethics, outlined within it are our values, principles and expectations. The Code takes reference from the Responsible Business Alliance ("RBA") Code of Conduct and has been approved by the Board. It also undergoes regular review by the management to ensure that the policies within remain relevant and aligned with our ethical principles. More information on our governance approach with regards to the Code can be found in our Corporate Governance Overview Statement.

In FY2026, a total of 700 (97%) employees received training and communications on anti-corruption policies across Malaysia and China. Separately, all employees will receive communication on anti-corruption policies upon joining the company.

Responsible Business Alliance Code of Conduct

The RBA Code of Conduct is a set of globally-recognised social, environmental and ethical industry standards. These standards ensure employees are provided fair working conditions where they are treated with respect and dignity, while business operations are conducted in an environmentally and ethically responsible manner.

As the Code is designed to be a total supply chain initiative, at a minimum, KESMI shall require its next tier suppliers to implement the Code.

Management will monitor and review the Code on a regular basis to ensure its continued applicability and effectiveness.

Table 2: KESMI's policies relating to Business Ethics and Anti-corruption

Name of Policy	Policy Description
Whistle-Blower Policy 	KESMI has in place a Whistle-Blower policy, which applies to all directors and employees as well as third parties such as suppliers, contractors, sub-contractors and agents. This policy, alongside internal controls, operating procedures and governance policies intended to detect and prevent or deter improper conduct, is intended to encourage employees to report any potential improprieties (e.g. wrongdoing or misconduct) as well as protect their identity. The objectives of the policy are as follows: • To encourage employees to confidently raise genuine concerns about possible improprieties • Provide ways for employees to raise concerns and receive feedback on any actions taken as a result • Reassure employees that they will be protected from possible reprisals or victimisation
Grievance Handling Policy 	The Grievance Handling Policy and the accompanying grievance mechanism procedure were formulated to strengthen industrial efficiency and stability in performance. They ensure that grievances are handled at the lowest corporate level possible. Grievances can include any violations or threats on fair and humane treatment such as prohibition of sexual harassment, abuse (mental, physical or verbal), coercion, corporal punishment etc.
Business Ethics Policy 	KESMI's Business Ethics Policy ensures our integrity and reliability as an organisation. To minimise conflicts of interest or coercion of any kind from external sources, our employees are prohibited from associating with illegal cartel activities, illicit price-fixing, deception and undesirable social behaviour as well as from dealing with customers or vendors that offer rebates, commissions and other forms of illegal remuneration. Employees are required to fully disclose any circumstances likely to give rise to conflicts of interest and disallowed from giving or accepting any gifts, which might improperly influence the normal business relationship with any supplier or customer. All company business dealings are based on 'fair deal' basis. All employees shall impress upon business partners on the high business ethics and refrain from providing or accepting bribes and kickbacks.
Purchasing Policy 	The Purchasing Policy sets clear guidelines on maintaining ethical relations with vendors and suppliers while acting with integrity throughout all procedures related to the purchasing activities of the company.

Table 3: Number of active employees and business partners who received communication and training on anti-corruption policies by employee category and region

FY2026		Employee Category		
		Direct Labour	Exempt/ Non-Exempt	Manager

Malaysia	46	112	25
China	86	87	93

All directors representing the governance body of KESMI have received communications on the organisation's anti-corruption policies and attend ad-hoc trainings as and when deemed necessary.

Our operations in Malaysia and China have been assessed for risks related to corruption. During the year, there were no cases of corruption brought against KESMI or its employees, a record we have consistently maintained to date and will continue to uphold.

Focus Area	Perpetual Target	FY2026 Performance
Ethical Business Conduct	0 confirmed cases of corruption within KESMI	Achieved

DATA PRIVACY AND SECURITY

[GRI 418-1]

In an era where technology is continually evolving and enhancing our workplace dynamics, fostering efficient and effective collaboration, it is paramount that we, at KESMI, steadfastly tackle the escalating threats and potential risks posed by cyber-attacks. KESMI is committed to protecting the private information and personal data of our customers, suppliers and employees.

Our cybersecurity measures are carefully designed to ensure legal and appropriate sharing of information. We treat all data with extreme care, ensuring its confidentiality and upholding its integrity at all times.

The following outlines the key controls for safeguarding data privacy:

- Protect our technology resources and assets with encryption, firewalls and antivirus software.
- Sign non-disclosure agreements between KESMI and its contractors, suppliers and customers.
- Regularly communicate to all employees to reinforce their understanding and foster consistent compliance with the Personal Data Protection Act in Malaysia and the Personal Information Protection Law in China.

With regard to customer privacy and data protection, there were no fines or complaints received from outside parties or regulatory bodies. We have no record of instances concerning data breaches or complaints received from external stakeholders.

[3] Business partners include customers, suppliers and contractors.

[4] Key business partners include the ten most significant customers, suppliers and contractors in each respective KESMI entities in Malaysia and China.

ENSURING STRICT COMPLIANCE WITH APPLICABLE LAWS AND REGULATIONS

[GRI 3-3, 2-27]

Ensuring compliance with all relevant laws and regulations is a key priority for KESMI. We respect the laws of all the countries in which we operate, including relevant environmental and socio-economic regulations. Compliance with the laws and regulations is inextricably linked with the long-term success of KESMI's business, as it encourages stakeholder and investor trust, while also reflecting the long-term integrity and viability of our operations. Nonetheless, the failure to comply with the respective ESG regulations could also lead to negative consequences, including legal and financial penalties, environmental harm to ecosystems and potential worker exploitation compromising human rights and ethical principles.

To maintain high standards of compliance, our policies are regularly reviewed and updated in response to changes in regulatory requirements. In addition, all employees are required to uphold the behavioural standards outlined in the Code, reinforcing our commitment to ethical and lawful conduct across the organisation.

Focus Area	Perpetual Target	FY2026 Performance
Regulatory Compliance	0 confirmed cases[5] of non-compliance with environmental laws and regulations	Achieved
	0 confirmed cases of non-compliance with socio-economic laws and regulations	Achieved

Managing Supply Chains Responsibly

[GRI 2-6, 204-1]

KESMI's Purchasing Policy and Procedures govern the screening, selection and management of our suppliers. Our robust Three-Step Supply Chain Management Process outlines the necessary steps for the sourcing and selection of new items, delivery follow-up, receiving, to inspection of goods and payments.

Figure 3: Purchasing Policy and Procedures

Purchasing Policy	
	
Vendor Qualification Procedure	**Purchasing Procedure**
Recognising that our suppliers exert significant influence on our supply chain, KESMI adheres to stringent criteria in selecting environmentally and economically accountable suppliers as laid out in our Vendor Qualification Procedure. This comprehensive procedure is an integral component of KESMI's Three-Step Supply Chain Management Process.	KESMI's Purchasing Procedure acts as an overall check-and-balance on all purchasing activities associated with our supply chain. The provisions of this policy encompass guidelines, procedures and the scope of all purchases.

[5] Confirmed cases refer to reported cases that have material impact to the operations of KESMI.

Figure 4: KESMI's Supply Chain Management Process

1 Internal Requisition ("IR")

The first step of our Supply Chain Management Process is the IR process, which is facilitated by an online system maintaining a clear audit trail of all requisition cases. Once the IR is raised, an approval process is triggered before vendor sourcing commences and a Purchase Order is raised.

2 Supplier Selection/Vendor Qualification Procedure

KESMI adheres to stringent supplier selection criteria to manage our supply chain impacts on the economy, society and environment.

The suppliers need to acknowledge and accept KESMI's Supplier Code of Conduct before engagement. The following aspects are covered in the Code:

i. Compliance with all applicable laws and regulations
ii. Prevention of, and intolerance for, corruption and all forms of bribery
iii. Prohibition of child labour
iv. Safeguarding the health and safety of employees
v. Upholding of human rights

Our suppliers are also expected to eliminate the use of conflict minerals to achieve 100% conflict-free mineral sourcing. They are also responsible for performing due diligence on their supply chain as appropriate to ensure compliance.

All suppliers are required to conform to the ISO 9001:2015 standard for quality management systems, or higher quality management systems.

3 Supplier Evaluation

Our suppliers are regularly assessed to allow KESMI to improve or maintain our quality of services and drive customer satisfaction. Where a supplier's performance is unsatisfactory, feedback is provided to help them identify any scope for improvement. Should the supplier continue to be negligent in improving their performance, we may take stern actions, including the suspension of contracts.

One of the main ways for us to improve risk management and operating efficiency is the local sourcing of products and services. As such, local sourcing has become one of the pillars of our sustainability strategy. Obtaining products locally allows us to support economies, while also meeting our environmental and social objectives by minimising our carbon footprint.

As part of our sustainability efforts, KESMI has consistently ensured that at least 50% of its purchases are sourced locally. In FY2026, 91% of our procurement spending was used to purchase supplies locally in Malaysia and China, where we operate.

Focus Area	Perpetual Target	FY2026 Performance
Responsible Supply Chain Management	At least 50% of all purchases are sourced locally[6]	Achieved

[6] Local purchases refer to purchases made (except for production machineries) from locally registered companies, which supply trade and non-trade goods and services.

SUSTAINING ECONOMIC PERFORMANCE

[GRI 3-3]

Ensuring a strong economic performance can positively impact the wider economy through the creation of job opportunities, stimulating industry growth, improving livelihoods of local communities and contributes to overall economic development. It can also lead to increased investments in research and development, fostering technological advancements and innovations in the sector. At the same time, it is important to also strive for responsible economic growth as too much emphasis on the financial performance may jeopardise employee rights or safety potentially resulting in human rights violations, or prioritising economic advantages over environmental considerations may result in environmental harm if not committed to sustainable practices.

Contributing Direct Economic Value

[GRI 201-1]

In FY2026, KESMI recorded revenue of approximately RM223 million, representing an increase of RM12 million or 6%, compared to RM211 million in the previous financial year. The net economic value generated of RM10 million was mainly due to greater investment in property, plant and equipment to support the growing demand for the Group's services. Nonetheless, global economic conditions remained challenging during the financial year, with cost pressures continuing to affect businesses across various sectors. In particular, increases in consumables, logistics and other operating costs continued to impact business operations.

Against this challenging environment, the Group continued to improve on operational stability and prudent asset optimisation to mitigate the impact of rising cost. At the same time, KESMI remained focused on strengthening its capabilities to support customers in growth areas while ensuring effective and sustainable allocation of resources.

Table 4: Economic Value Generated, Distributed and Retained from FY2024 to FY2026

	FY2024	FY2025	FY2026
Economic Value Generated (RM'million)			
Revenue	243	211	223
Other income from financial investments	11	9	13
Sales of assets	4	2	8
Economic Value Distributed (RM'million)			
Operating costs[7]	(123)	(111)	(146)
Employee wages and benefits	(95)	(83)	(84)
Payments to providers of capital	(7)	(6)	(4)
Payments to governments	(3)	(3)	-
Economic Value Retained (RM'million)			
Net Economic Value Generated	30	19	10
For further details on our economic performance, please refer to the following sections in our Annual Report: Financial Statements, Chairman's Statement and Management Discussion and Analysis.			

Community Investment

KESMI is committed to fostering social development and providing support to local communities. Our community investment initiatives include various contributions, donations and CSR programmes, all aimed at supporting and uplifting underserved communities. This approach not only reinforces our commitment to social responsibility but also strengthens our community relations and aligns with our overall business objectives.

[7] Operating costs include cash payments made outside the organisation for consumables, purchase of property, plant and equipment and other expenses.

SUSTAINABILITY REPORT

In FY2026, KESMI contributed RM11,000 towards community initiatives and this investment has positively impacted 150 individuals, demonstrating our commitment to supporting the well-being and development of local communities. Through these efforts, KESMI seeks to create shared value and contribute to sustainable development in the communities where we operate.

Below is a summary of our contributions for our CSR activities in FY2026.

Melaka River Cleaning Initiative

On 9 May 2026, a total of 30 employees participated in this meaningful program to clean the river. Through their active involvement, the employees contributed their time and effort to improve the cleanliness of the river and promote environmental awareness within the community. The programme also encouraged teamwork and strengthened employees' commitment to environmental sustainability and corporate social responsibility.

Charity Fun Run & Masquerade Walk – HOPE Bolathon organised by HOPE Worldwide Malaysia

On 28 June 2026, 30 employees participated in the Charity Fun Run organised by HOPE Worldwide Malaysia to raise funds for its Health & Well-Being Programs. These programs provide medical support and improve access to healthcare services for underprivileged and underserved communities across Malaysia.

The initiative also supports community outreach activities and programs aimed at enhancing the quality of life of vulnerable groups.

Corporate Cup Football Matches – HOPE Bolathon organised by HOPE Worldwide Malaysia

On the same day, 10 employees participated in the football match held as part of HOPE Bolathon, promoting teamwork, employee engagement and a healthy lifestyle.

DEVELOP AN ENGAGED WORKFORCE AND FAIR WORKPLACE

KESMI's Board Profile
[GRI 405-1]

KESMI recognises that diversity in an organisation is a strength. The varied backgrounds of our employees afford them many different viewpoints, allowing them to bring new perspectives and viewpoints to our company. We also recognise that diversity has to be implemented at all levels, including at the highest level of governance: the Board as well as Senior Management.

Figure 5: KESMI's Board Composition

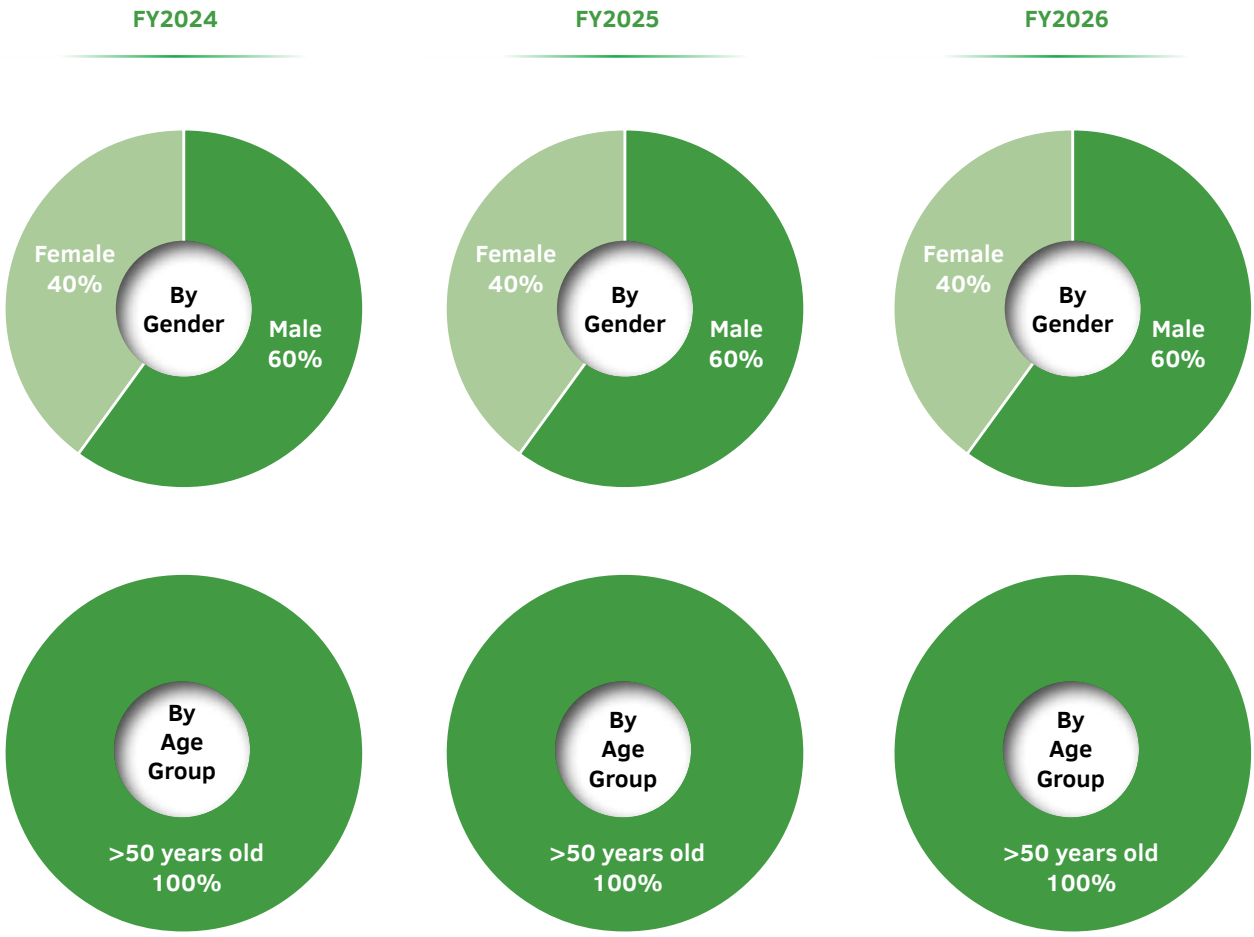

Figure 6: KESMI's Senior Management Composition

For more information on board diversity and composition, please refer to our Corporate Governance Overview Statement.

KESMI's Employee and Worker Profile
[GRI 2-7, 2-8, 401-1, 405-1]

In FY2026, KESMI's workforce comprised 718 employees and 735 workers across Malaysia and China, reflecting a 1% increase and 16% decrease from FY2025 respectively to optimise workforce deployment across departments to meet operational requirements effectively.

KESMI remains committed to developing our employees to their fullest potential and we employ most of our employees on permanent contracts and the majority of them are employed full-time. KESMI also places strong emphasis on maintaining diversity and inclusivity in our workforce, and ensuring fair gender representation in our workforce through a well-balanced ratio of male and female employees.

The following charts show our employee demographics by gender and region, as well as our worker demographics supporting KESMI's business activities.

Figure 7: KESMI's Employee Demographics by Gender and Region

Figure 8: KESMI's Worker Demographics

In FY2026, we hired a total of 232 new employees, with a turnover of 228 employees. Given the ongoing uncertainty in the employment landscape, we continue to monitor market trends closely.

Figure 9: Total Number of New Hires by Gender, Age Group and Region

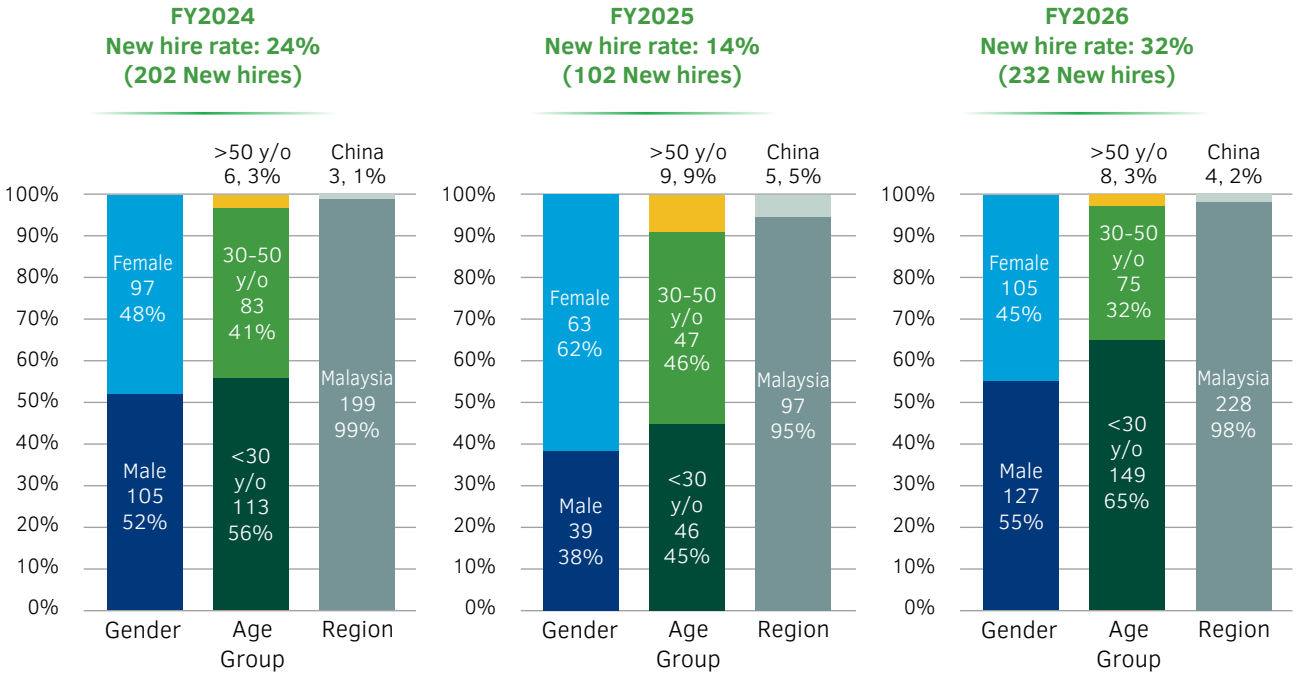

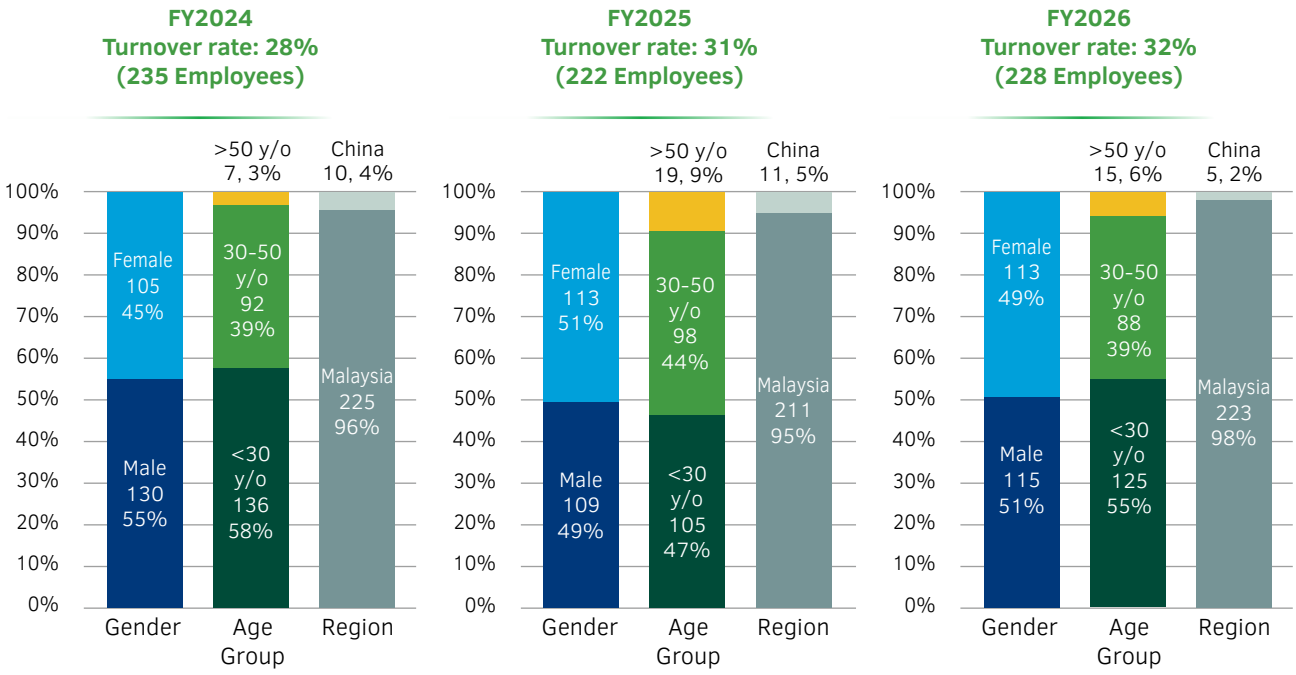

Figure 10: Total Number of Turnover by Gender, Age Group and Region

Fair Employment Practices
[GRI 3-3, 2-23, 2-24, 2-25, 2-26, 406-1]

Prioritising fair and equitable treatment, equal opportunities, competitive wages and fostering a positive work environment can result in a more engaged and productive workforce while contributing to societal development and a positive company reputation. Conversely, unfair employment practices such as labour exploitation or discrimination may result in workforce dissatisfaction, legal and reputational risks and violations of human rights. KESMI believes that fair employment practices are essential for the well-being of employees, the success of the company, and its positive contributions to the broader society.

KESMI acknowledges that our greatest asset is our human capital. Our employees and workers possess an accumulated pool of knowledge that is invaluable to us. As such, it is imperative for us to ensure good relations with our workforce. We strive to gather feedback from, and understand the needs of our employees, allowing us to develop measures and policies to ensure their continued physical and mental well-being. These policies are readily available and accessible to all employees in our organisation-wide shared folders.

KESMI also makes no compromise on fairness within our organisation. All decisions on advancement and compensation are made purely based on merit. We have zero tolerance for any instances of preferential treatment, and we take strong action in the case of any such occurrence.

Table 8: KESMI's policies on fair employment and well-being of employees and workers

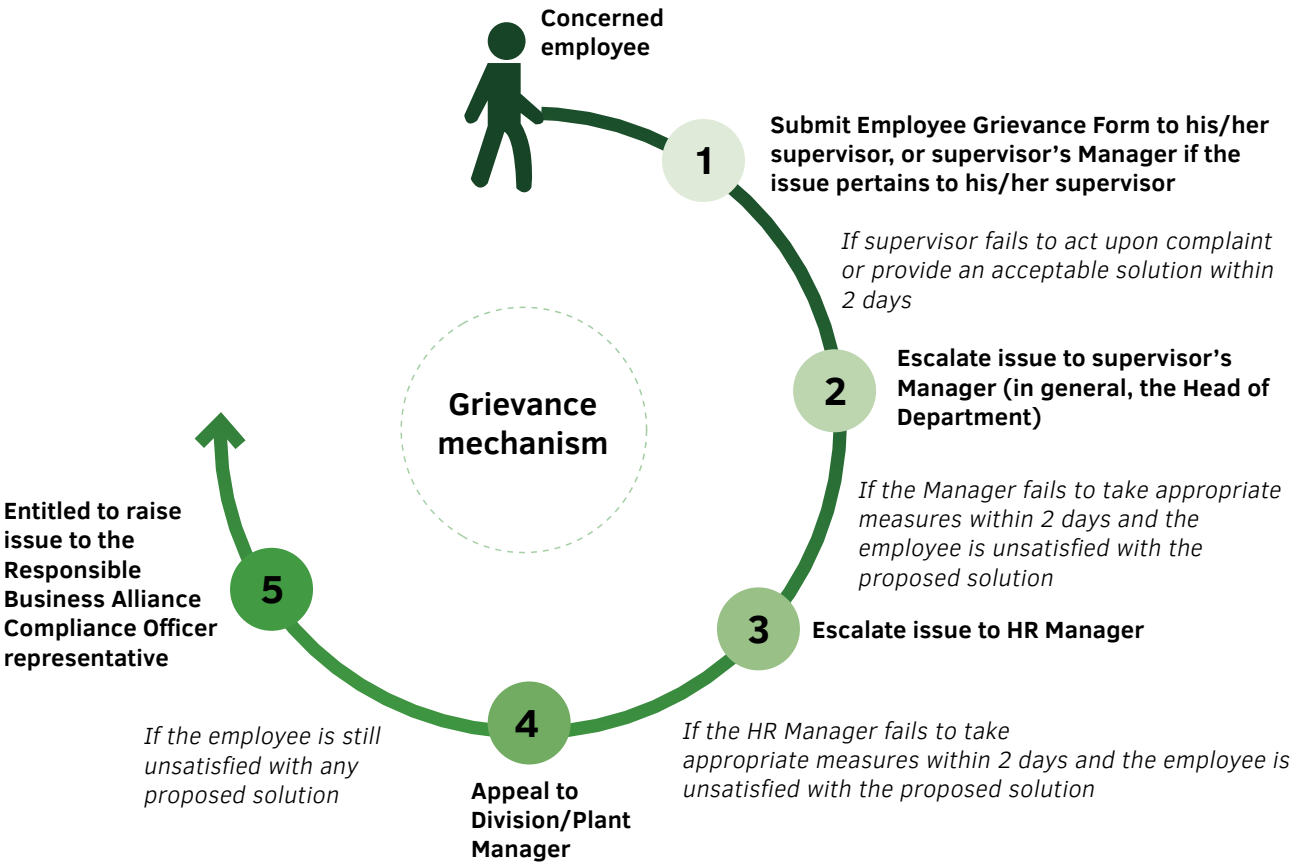

Name of Policy	Policy Description
Recruitment and Selection Policy	KESMI's hiring practices are merit-based and non-discriminatory. Our recruitment policy covers the terms and conditions of the recruitment process, selection and placement of all qualified applicants as well as current employees. We do not condone any form of discrimination and race, colour, religion, gender, age, sexual orientation, gender identity and expression, ethnicity or national origin, covered veteran status, protected genetic information, disability, pregnancy, political affiliation, union membership and marital status.
Grievance Procedures/ Mechanism	In line with our commitment to understand employee concerns, all our employees are encouraged to voice their concerns through the feedback channels provided. KESMI also has in place a standardised grievance reporting mechanism that allows workers to report their grievances without fear of reprisal or retaliation. This mechanism covers both our employees and foreign workers, who are able to submit their concerns in their native language, and the HR department will seek the assistance of a translator for investigation and provision of solutions. Overall, this ensures that the case will be investigated promptly by our dedicated HR team that is specialised to deal with such matters.
Labour and Human Rights Standards	Our commitment to ensure proper labour and human rights practices is in line with our CSR goals. We acknowledge the importance of ensuring a safe, conducive and healthy environment for our employees, customers, vendors and shareholders as part of our strategy and operating initiatives. We value the diversity of our workforce, freedom of expression and feedback provided by our employees. If employees have safety concerns regarding their work environment or they feel their workspace is not conducive for daily work and productivity, they are encouraged to immediately voice their concerns to their supervisor. KESMI has zero tolerance for racism, verbal abuse, discrimination and derogatory remarks. Our policy also firmly opposes child labour and forced labour with these principles embedded in our Code. KESMI prohibits all forms of forced labor including bonded labor, slave labor and prison labor. We also prohibit child labor, defined as employing anyone under the age of 15, below the age required to complete compulsory education, or under the country's minimum legal working age, whichever is highest. We expect the highest ethical standards from all our employees and will not hesitate to suspend, dismiss or report rogue employees to the relevant authorities. This policy is also available in Mandarin Chinese for the ease of understanding and benefit of employees at our China facility. In FY2026, there were no substantiated complaints concerning human rights violations.

Name of Policy	Policy Description
Benefits Policy	We show appreciation to our employees by providing competitive pay, a healthy work-life balance and benefits. Our comprehensive benefits policy that is allotted to all our employees covers medical benefits, public holidays, service awards, annual salary review, gifts on occasions, etc.

KESMI's fair employment practices extend throughout our operations, meaning we also practise fairness in our dealings with our outsourced workers. We conduct quarterly audits on any contractor that provides large numbers of outsourced workers to our operations; audits include a review of worker pay slips to ensure timely and fair compensation. Monthly audits are also conducted on the accommodations furnished to our foreign workers by external vendors, and audit reports will be provided to KESMI upon request. No significant findings have been raised from these audits to date.

As part of our commitment to build a culture of ongoing feedback in KESMI, the HR department conducts regular dialogue sessions to receive any grievances, concerns and feedback raised by our employees and workers. Furthermore, as part of our formalised employee grievance mechanism (see Figure 11) employees who feel unfairly treated or are experiencing any workplace discrimination to approach their supervisor or use our HR feedback channel, and these issues may be escalated as needed in order to ensure that they are fully resolved.

Figure 11: KESMI's Employee Grievance Mechanism

In FY2026, no substantiated complaints were received from our employees regarding unfair or discriminatory employment practices within KESMI.

Employee Engagement and Training
[GRI 404-1]

To improve employee welfare and well-being, KESMI has introduced measures and activities to demonstrate appreciation to our staff. Creating positive experiences at the workplace is likely to have a positive impact on employee productivity, work quality and retention.

We continue to implement the "perfect attendance incentive" programme, whereby any employee in the production area with a perfect attendance record are entered into a lucky draw for cash prizes and other rewards.

It is also important to us that our employees are allowed to upskill themselves and remain relevant. In FY2026, our employees underwent an average of 35 hours of training covering topics that develop their soft skills as well as technical topics on equipment and machinery safety, purchasing management and knowledge on the various ISO standards. The breakdown of the training hours can be found below.

Table 9: Breakdown of training hours by gender and employee category

	FY2024		FY2025		FY2026	
	Total training hours	Average training hours	Total training hours	Average training hours	Total training hours	Average training hours
By Gender						
Male	16,751	33.5	12,121	28.2	14,952	33.8
Female	12,216	36.6	9,320	32.8	10,508	38.1
By Employee Category						
Direct Labour	8,279	37.6	4,435	27.0	5,374	35.6
Exempt/ Non-Exempt	19,084	34.0	14,584	29.3	17,601	33.9
Manager	1,605	30.3	2,422	46.6	2,485	51.8

Our Training Department continues to hold training sessions for our operators and technicians. Ensuring the quality of our staff also helps to ensure that they deliver quality services to our customers.

Figure 12: Failure Mode and Effects Analysis (FMEA) Training for employees

Focus Area	Perpetual Target	FY2026 Performance
Fair Employment Practices	0 complaints from employees to regulatory authorities pertaining to unfair or discriminatory employment practices	Achieved
Employee Engagement and Training	Maintain a minimum of 20 training hours per employee each year	Achieved

FOSTERING A SAFETY CULTURE

[GRI 3-3, 403-1, 403-2, 403-3, 403-4, 403-5, 403-6, 403-7, 403-9, 403-10]

Establishing effective management of occupational health and safety plays a pivotal role in promoting a safe and healthy working environment, thereby enhancing employee morale and job satisfaction. A safer workplace also decreases the danger of work-related accidents, lessens the likelihood of employee absenteeism and reduces turnover, resulting in a more stable and skilled staff, which can support the sector and company's economic growth. On the other hand, insufficient safety precautions could harm employees' health and well-being, raise the possibility of workplace accidents, and severely harm KESMI's reputation, affecting our ability to attract talent and do business.

KESMI has implemented a Health and Safety Policy, outlining our objectives and approach towards ensuring the health and well-being of our staff[8] in the workplace. This policy includes the procedures, guidelines and best practices that all employees and workers must adhere to in order to mitigate health and safety risks in the workplace. Our Occupational Health and Safety Management System ("OHSMS") which the Group, including its subsidiaries, are required to comply with, is developed with reference to local safety regulations and covers all our employees and workers in our operating locations. This system ensures that employees and workers are provided with necessary health and safety protections aligned with industry standards.

As part of our commitment to continuously strengthening our occupational health and safety practices, KESMI operates an OHSMS aligned with international standards and has obtained ISO 45001:2018 Occupational Health and Safety Management System certification. The OHSMS incorporates a risk-based approach, with processes to identify and assess occupational health and safety risks, monitor and review control measures and drive continuous improvement. This approach reinforces KESMI's commitment to maintaining a safe and healthy working environment while continuously strengthening risk management and enhancing our occupational health and safety performance across our operations over time.

Hazard Identification and Risk Assessment

Identifying and minimising hazards is a key part of our Health and Safety approach. Hazard identification is carried out through monthly safety walks, and any hazards identified along with any proposed mitigation measures, are then evaluated during the monthly safety meeting. KESMI's safety policies and guidelines contain a list of identified hazards, as well as steps and procedures for our staff, which when adhered to, minimise the risks posed to our staff. Some of the hazards identified include:

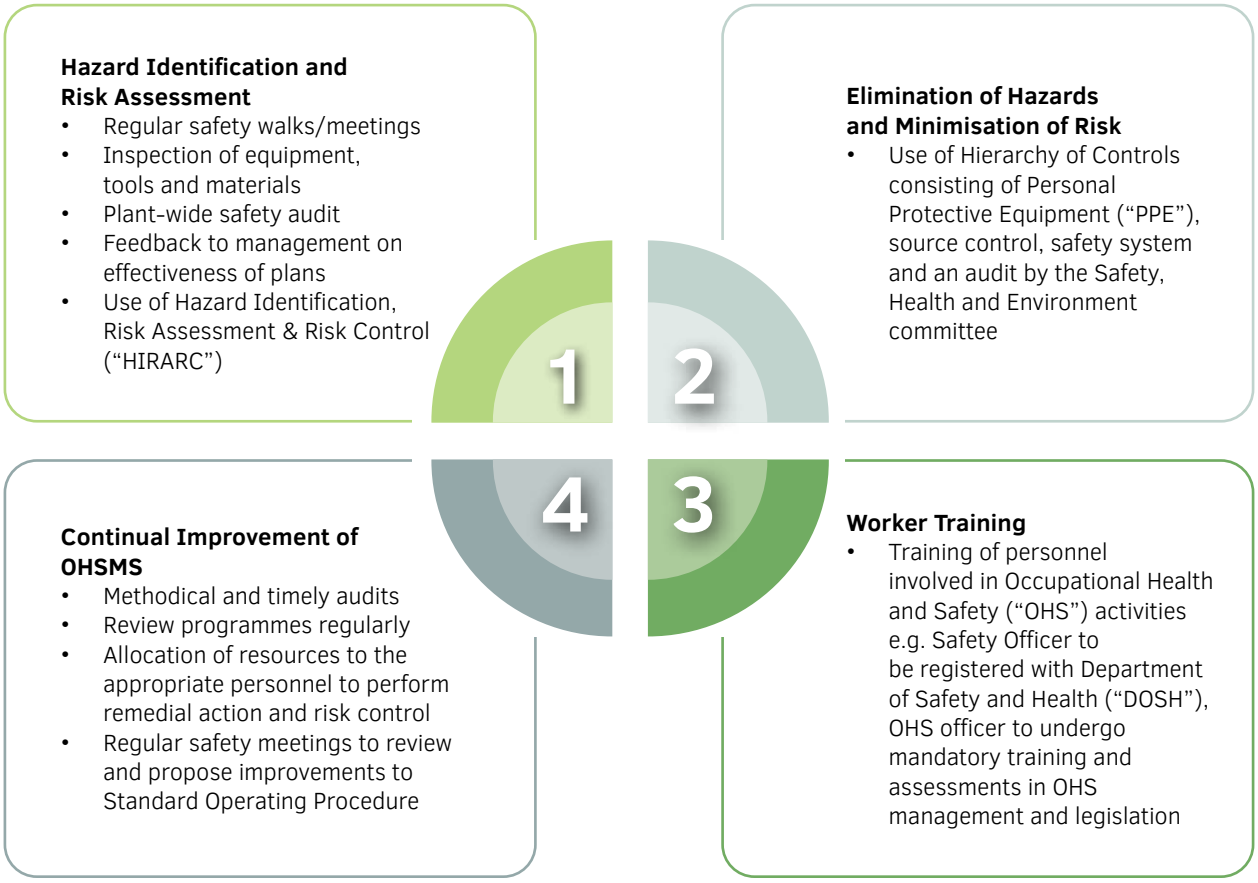

- Cuts from handling sharp blade edges
- Slips, trips or falls
- Fire risks
- Vehicles
- Slippery floors

Our safety personnel are regularly trained and updated with the latest safety practices to ensure that risks are properly identified and controlled. Operators are briefed by the Head Supervisor before every work shift, to stress the importance of adhering to safety protocols. This contributes to the overall effectiveness of the OHSMS, which is essential in safeguarding the health of our staff.

[8] Covering employees and workers.

Figure 13 elaborates on the systematic process established to identify and eliminate hazards, towards continued improvement of the OHSMS.

Figure 13: Process of Hazard Identification, Risk Assessment and Improvement of OHSMS

Incident Investigation

In line with our Health and Safety approach, KESMI has implemented a systematic process that enables quick identification and remediation of hazardous situations that occur. Operators who discover a work hazard or believe that they have been placed in an unsafe working environment, are required to immediately voice their concerns to their supervisor.

Supervisors are then expected to assess the situation and rectify potential safety issues before allowing their operators to resume work. Once the hazard has been dealt with, the Safety, Health and Environment ("SHE") committee will launch an investigation and generate a report of the incident. Follow-up actions will be taken by the relevant stakeholders.

KESMI's Code of Conduct protects any staff who report hazards from receiving backlash in any form. This encourages constant mindfulness around safety and safeguards the collective health and safety of our staff.

Occupational Health Services and Promotion of Worker Health

KESMI has identified several related potential occupational health hazards present in our operating sites. As a supplement to the mandatory physical health check-up for all new employees, we provide specific occupational health services for each employee role and the specific related hazards; annual medical check-ups for employees and workers handling chemicals, as well as annual audiometric check-ups for those working in high noise areas.

First aid treatment is provided for the affected personnel for any minor injuries that occur, and transportation to the nearest hospital is immediately arranged for more severe injuries. As part of our OHSMS, we engage only certified service providers who are required to comply with all international and national OHS standards and regulations. Bearing in mind that we operate in multiple jurisdictions, we have made the OHS readily available in several languages. We also engage our staff through surveys and rating systems that help us to evaluate the effectiveness of our OHSMS, which allows us to constantly improve the quality.

For the continued well-being of our staff, we provide services such as annual health screenings and consultations at company-approved clinics. Voluntary blood tests and indoor/outdoor activities are also organised for our staff with external providers during working hours. We collect feedback from our staff at the end of each activity so that we can gauge its success and find ways to improve our programmes for the following year.

Worker Participation and Training

The effectiveness of our OHS policies and programmes are enhanced by the active involvement of our staff. Our employees are provided with OHS training such as training for management staff, first aid and CPR training for designated workers, as well as safety training for all operations staff annually. For operators exposed to specific hazards (e.g. chemicals), they are given the appropriate hazard-specific trainings.

Figure 14: Fire training with Bomba (Fire and Rescue Academy of Malaysia)

Table 10: Breakdown of employees trained on health and safety standards

	FY2024	FY2025	FY2026
Malaysia	644	565	565
China	149	138	141
Total	**793**	**703**	**706**

A formal joint management-worker SHE committee has also been established to engage our workers in OHS consultation and communication process. The committee is involved in the development and regular review of the safety and health programmes, as well as in promoting safety awareness throughout the organisation.

Figure 15: Worker Participation, Consultation and Communication on OHS

Formal joint management-worker OHS committee

- Subcommittees include accident and fire prevention, first aid, publicity and safety audit
- Roles include chairman, consultant, supervisors, department heads, plant manager and members

Workers' involvement in OHSMS

- Committees and subcommittees made up of representatives from various departments and members drawn from all levels

Workers' access to OHS information

- OHS requirements discussed during safety training
- Incident reports are regularly updated and published to all employees

KESMI has taken proactive steps, guided by government-mandated advisories, to protect the health and well-being of our stakeholders and employees, implementing relevant measures to ensure a safe workplace for all.

In FY2026, KESMI recorded zero fatalities among employees and workers. One recordable injury was reported involving a non-executive employee who sustained an injury to her left foot while handling goods in a company vehicle after accidentally falling from a stool. Following the incident, corrective actions have been taken to reinforce safe handling practices and prevent similar incidents from recurring.

As detailed in our OHS policy, a root cause analysis is conducted for every incident to identify contributing factors and determine appropriate corrective and preventive actions. The findings are used to strengthen existing safety measures and support the continuous improvement of workplace safety practices.

Table 11: Breakdown of work-related injuries for all employees and workers

EMPLOYEES	**FY2024**		**FY2025**		**FY2026**	
Number of man-hours worked	1,810,634		1,532,580		1,534,786	
Number and rate of fatalities as a result of work-related injuries	-	-	-	-	-	-

Occupational Health and Safety	0 work-related fatalities and injuries	1 minor injury

PROTECTING THE ENVIRONMENT

Energy and Carbon Footprint
[GRI 3-3, 302-1, 302-3, 305-1, 305-2, 305-3, 305-4]

Efforts to prioritise energy efficiency and carbon reduction not only benefit the company through cost savings and regulatory compliance but also contribute to environmental conservation, climate change mitigation and sustainable development. However, the lack of adequate measures to manage our carbon footprint could result in environmental problems, including air pollution, which can also negatively impact local communities and human health.

KESMI acknowledges our responsibility towards the environment. Now more than ever, with the rising global spotlight on climate issues, we view it as crucial to ensure the environmental sustainability of our business. Our operations are guided by the Environmental Management System (certified to ISO 14001:2015) as well as other relevant local Energy Policies. Our Code of Conduct also codifies our expectations regarding certain environmental standards such as resource conservation, dealing with hazardous substances, wastewater and solid waste and air emissions.

In FY2026, total energy consumption comprised fuel consumption and electricity consumption, amounted to 253,373 GJ, increase of 4% from 243,108 GJ in FY2025. Of the total consumption, mobile combustion included mobile gasoline as the main fossil fuel used, along with a minimal amount of diesel and liquefied petroleum gas, accounting for 438 GJ in FY2026, an increase of 21% from the previous year due to increased consumption. The increase in electricity consumption by 4% to 252,935 GJ was primarily resulted from higher machine utilisation to support higher production level.

Figure 16: KESMI's Total Energy Consumption (GJ) and Intensity by revenue (GJ/RM'000)

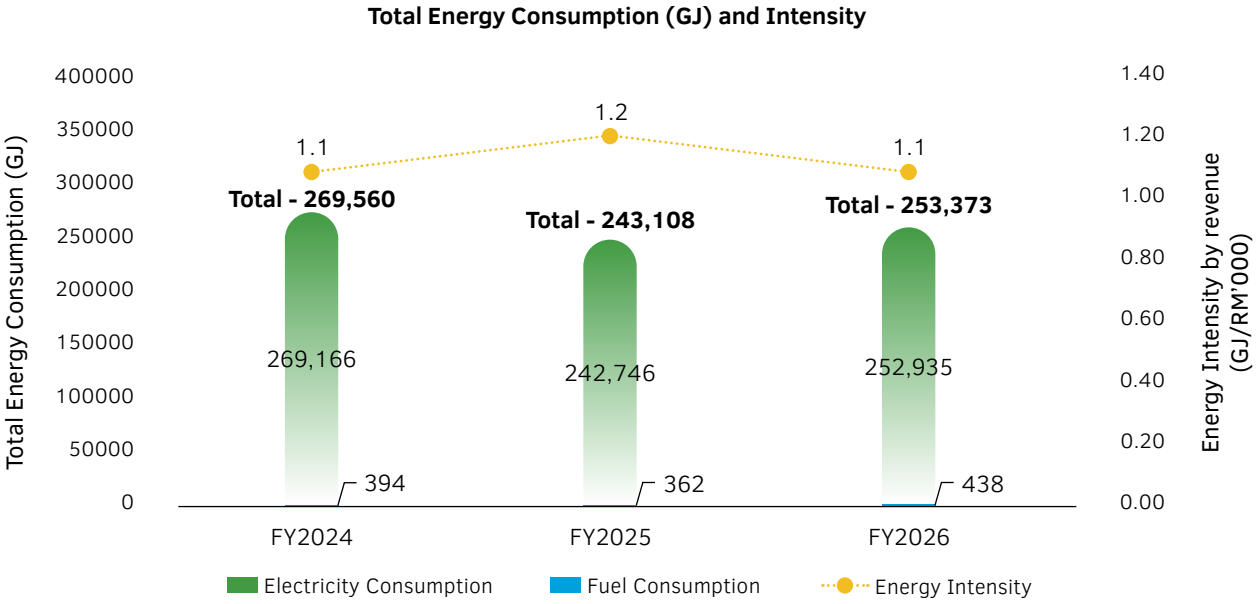

Figure 17: KESMI's Fuel Consumption from non-renewable sources

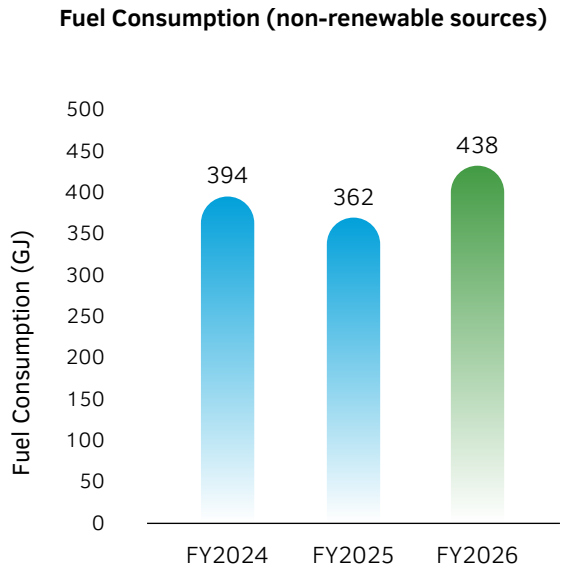

Figure 18: KESMI's Electricity Consumption

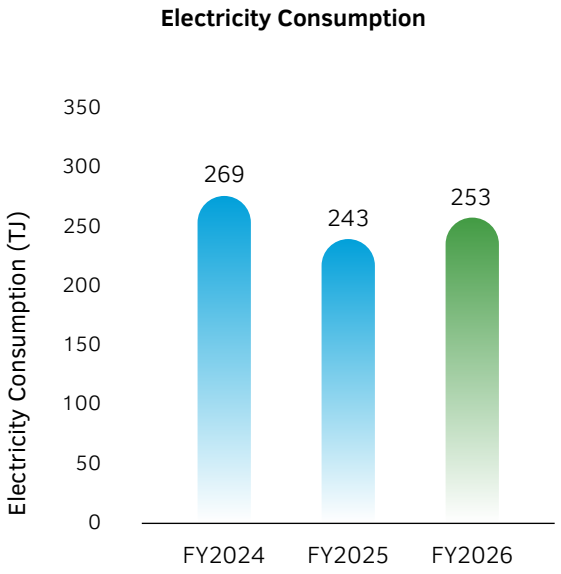

Figure 19: KESMI's Scope 1 Emissions[9] (tCO2e) and Scope 1 Intensity by revenue (tCO2e/RM'million)

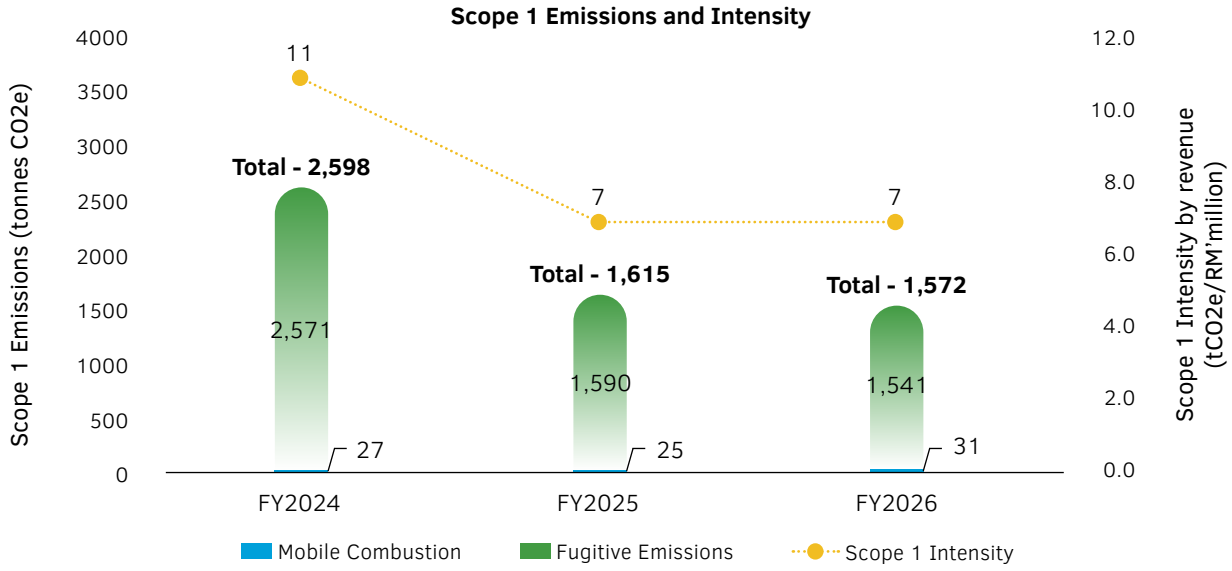

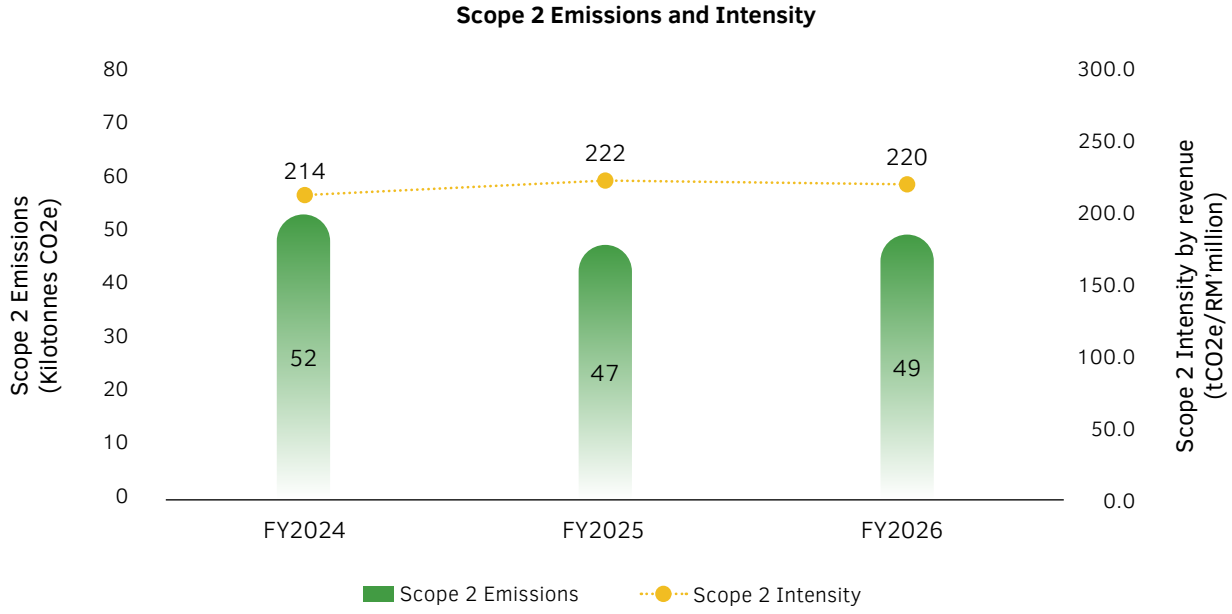

Figure 20: KESMI's Scope 2 (Indirect) Emissions (ktCO2e) and Scope 2 Intensity by revenue (tCO2e/RM'million)

[9] Scope 1 fugitive emissions are due to leakage of other greenhouse gas from residential and commercial air conditioning including heat pumps, and medium and large commercial refrigeration.

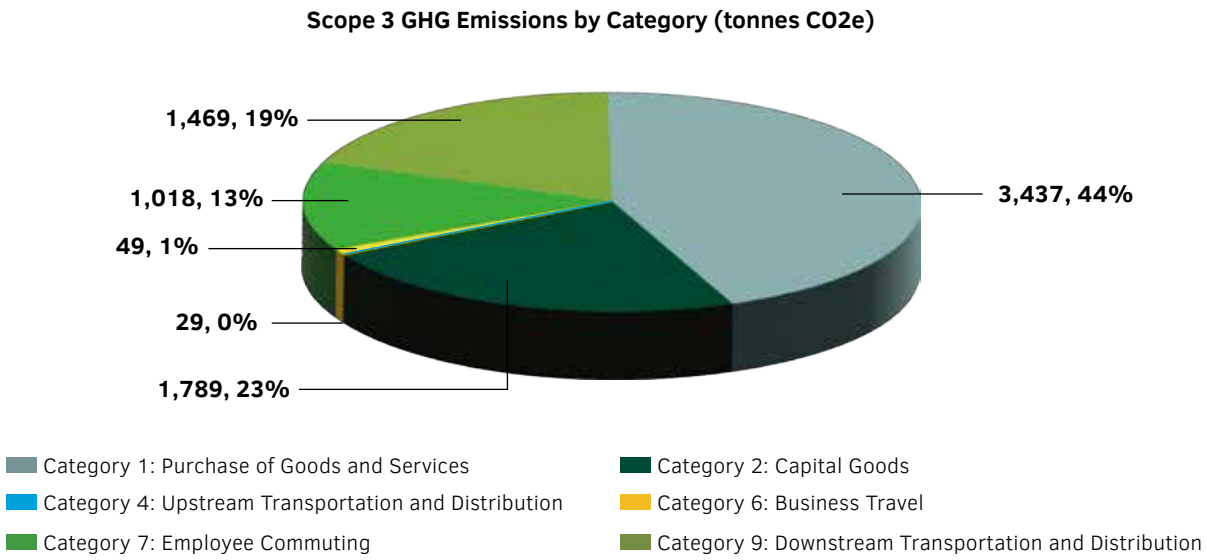

In FY2026, our Scope 1 emissions experienced a decline of 3%, bringing emissions down to 1,572 tonnes CO2e. The decrease was primarily driven by lower consumption of refrigerant gases. Scope 2 emissions increased by 4% to 49 kilotonnes CO2e, mainly due to higher production level and correspondingly, increase in electricity consumption across the operations. Furthermore, the intensity values remain stable, reflecting KESMI's continued efforts to maintain overall energy efficiency and operational productivity.

Our Scope 3 emissions encompass all indirect emissions resulting from both upstream and downstream activities within KESMI's value chain. By analysing these indirect value chain emissions, KESMI gains essential data that informs its decarbonisation efforts. This enables KESMI to identify the most significant emission sources within the value chain, prioritise areas for action, and develop targeted strategies for emission reduction.

KESMI had prioritised its Scope 3 inventorisation process by disclosing emissions under Category 1[10]: Purchase of Goods and Services, Category 2: Capital Goods[11], Category 6: Business Travel – Air and Road[12], and Category 7: Employee Commuting[13]. This year, KESMI further enhanced its GHG emissions inventory by expanding its Scope 3 emissions coverage to include two more categories, Category 4: Upstream Transportation and Distribution and Category 9: Downstream Transportation and Distribution. This expansion provides a more comprehensive assessment of KESMI's value chain emissions and strengthens the completeness of our greenhouse gas reporting. Category 4 covers emissions from third-party transportation and distribution services purchased by KESMI, including the transportation of purchased goods from suppliers to KESMI's operations and other inbound and outbound logistics activities. Category 9 covers emissions from the transportation and distribution of KESMI's products after they are sold, where these services are not purchased by KESMI. These emissions occur after products leave KESMI's operational control and reflect the downstream transportation impacts across the value chain.

The total Scope 3 emissions for FY2026 from these six categories amounted to 7,791 tonnes CO2e, as outlined in the pie chart below. Moving forward, KESMI will continue to develop mechanisms to track and disclose other relevant Scope 3 categories.

Figure 21: Breakdown of Scope 3 GHG emissions by category for FY2026

[10] Category 1 includes all upstream emissions from the production of goods and services purchased by KESMI, such as tooling, office supplies and outsourced services. These emissions occur throughout the supply chain, from extraction to delivery.

[11] Category 2 accounts for the emissions from the production of capital goods. This refers to long-term assets such as machinery and equipment which are used in KESMI's operations over several years.

[12] Category 6 includes emissions resulting from the combustion of fuels used for the transportation of KESMI's employees for business-related activities in aircraft and vehicles. Examples include business flights between countries for client meetings and the use of taxis or ride-hailing services for transportation to client meetings.

[13] Category 7 captures the emissions associated with employee commutes between their homes and their worksites, determined by the mode of travel and commuting distance.

Table 13: Breakdown of Scope 3 GHG emissions (tonnes CO2e) by category[14]

Scope 3 GHG Emissions (tonnes CO2e)	FY2024	FY2025	FY2026
Category 1: Purchase of Goods and Services	-	3,216	3,437
Category 2: Capital Goods	-	586	1,789
Category 4: Upstream transportation and distribution	-	-	29
Category 6: Business Travel	32	43	49
Category 7: Employee Commuting	1,077	1,028	1,018
Category 9: Downstream transportation and distribution	-	-	1,469
Total	**1,109**	**4,873**	**7,791**

KESMI will continue to closely monitor our energy consumption, perpetually nurturing of a culture of electricity conservation and the implementation of initiatives, aimed at reducing our environmental footprint.

Focus Area	Perpetual Target	FY2026 Performance
Energy Consumption	2% reduction in year-on-year electricity consumption	4% increase[15]

In addition to our commitment to reducing energy consumption, KESMI is actively exploring the potential of affordable renewable energy sources in the regions where we operate.

During the year, KESMI procured 1,740 MWh of renewable energy for one of our facilities in Malaysia through the Green Electricity Tariff program, an initiative by the Malaysian Government aimed at offering the choice of green electricity derived from renewable energy sources.

Installation of Solar-Powered Lightings at the Facility Compound

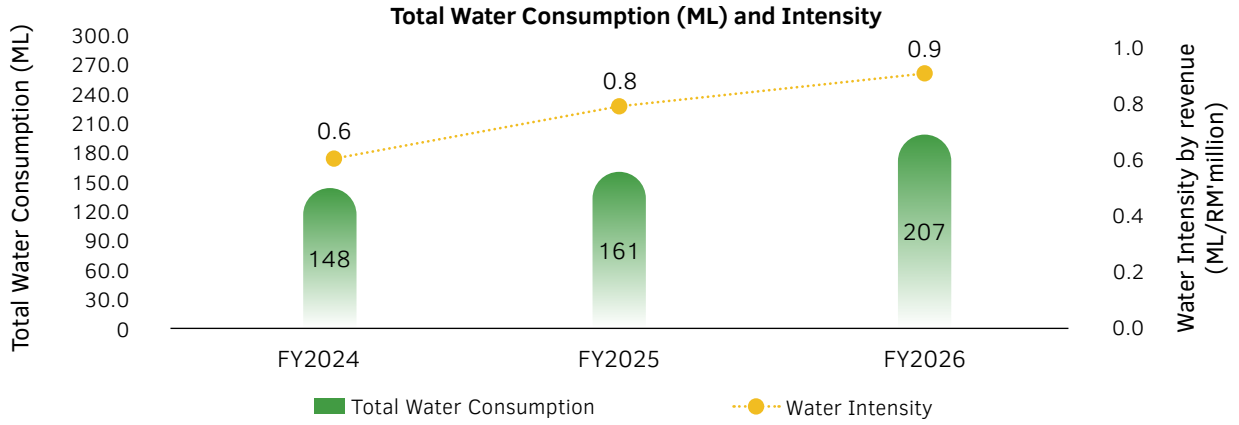

KESMI has recently installed 10 solar-powered lighting systems around the facility compound to utilise renewable energy and reduce reliance on grid electricity for outdoor lighting.

[14] Scope 3 emissions for Categories 1 and 2 are newly disclosed starting FY2025. In addition, Categories 4 and 9 are newly disclosed starting in FY2026. Hence, the Group is unable to obtain historical data due to data collection constraints from certain operations.

[15] The total energy consumption in FY2026 has been reduced by 23% since KESMI's first disclosure of total energy consumption in FY2018 being the base year.

Water Management
[GRI 303-1, 303-2, 303-5]

KESMI recognises the crucial relevance of water as a finite resource and the need to protect it for future generations. Our commitment to water management begins with the effective use of water in our operations and the promotion of a water-saving culture among our staff. We constantly monitor and analyse our water consumption in order to discover areas for improvement and to reduce our water impact.

The effluents discharged from our facilities typically include water used for cleaning and cooling. All of our facilities strictly adhere to the relevant local laws and regulations regarding effluent and wastewater discharge. We regularly send samples of the effluents discharged from our facilities to a third-party laboratory for testing. During the financial year, we fully complied with all local regulatory requirements in Malaysia[16] and China[17].

METHODOLOGY

This section details definitions, methodologies and data boundaries otherwise not already specified, applied to the sustainability performance data disclosed in our Sustainability Report. They are made with reference to GRI Standards Glossary 2021, internationally recognised standards and the reporting guidance set out in the respective GRI topic-specific disclosures. The GRI topic-specific disclosures covered are listed out in the GRI Content Index of this report.

Employee and Worker

Employee is defined as an individual who is in an employment relationship with the Group, according to its national law. KESMI's employee profile can be broadly broken down by employee level as defined below:

Direct Labour: Operators and inspectors
Exempt/Non-Exempt: Technicians and executives
Manager: All levels of managers including senior management and above
Senior Management: Head of Departments and above

Worker is defined as an individual whose work, or workplace, is controlled by the Group. KESMI's workers include outsourced operators and suppliers (including outsourced service providers), such as cleaners, who are directly involved in daily production activities.

[16] Malaysia's Standard B under Environmental Quality (Industrial Effluents) Regulations 2009
[17] China's Integrated Wastewater Discharge Standard (GB8978-1996)

Employee New Hire and Turnover

The rate of new hires takes the total number of new hires over the total number of employees as at 31 July 2026, expressed as a percentage. Likewise, the rate of turnover takes the total number of turnovers over the total number of employees as of 31 July 2026, expressed as a percentage.

Training

Average training hours per employee takes the total training hours for the financial year over the total number of employees recorded as of 31 July 2026.

Occupational Health and Safety

According to the International Labour Organisation, an occupational accident is an unexpected and unplanned occurrence, including acts of violence, arising out of or in connection with work which results in one or more workers incurring a personal injury, disease or death. The coverage for occupational accident cases includes employees and workers at all KESMI operations.

With reference to GRI 403: Occupational Health and Safety Standard, the different types of occupational accidents are defined as follows:

- High consequence work-related injuries are work-related injuries that result in a fatality or in an injury from which the worker cannot, does not, or is not expected to recover fully to pre-injury health status within 6 months.
- Work-related injury is an injury that results in any of the following: death, days away from work, hospitalisation, medical treatment beyond first aid, or loss of consciousness.
- Work-related ill-health indicates damage to health and includes diseases, illnesses and disorders.

Recordable work-related injury rates and recordable high consequence work-related injury rates are calculated based on 1,000,000 hours worked, using the formula of the total number of injuries divided by the number of hours worked multiplied by 1,000,000. Lost time injury rate accounts for incidents that resulted in at least one day of missed work calculated based on 1,000,000 hours worked. The number of hours worked refers to the total estimated working hours based on standard hours of work, taking into account entitlements to periods of paid leave of absence from work.

Non-compliance Incidents

Such incidents refer to non-compliance with social, economic and environmental laws and/or regulations applicable to the Group, brought through dispute resolution mechanisms and/or resulting in:

- Significant fines
- Non-monetary sanctions

Energy Consumption and Greenhouse Gas ("GHG") Emission Data

Energy consumption and GHG emissions data cover operations in Malaysia and China. The total energy consumption is expressed in joule ("J") or multiples while emissions are expressed in tonnes of carbon dioxide equivalent ("tonnes CO2e" or "tCO2e") or multiples for Scope 1 and 2 emissions respectively. The unit of measurement for total energy consumption in the report generated from Bursa Malaysia CSI Platform is expressed in megawatts, calculated by dividing gigajoules with 3.6.

For petrol, diesel and liquefied petroleum gas, CO2, methane ("CH4") and nitrous oxide ("N2O") were included in the GHG calculation. Default emissions factors were sourced from the 2006 IPCC Guidelines for National Greenhouse Gas Inventories while the global warming potential ("GWP") values were sourced from the 2020 IPCC Sixth Assessment Report ("AR6") for relevant gases disclosed.

The Electricity Grid Emissions Factors ("GEF") used in the calculation of Scope 2 emissions for FY2026, FY2025 and FY2024 have been obtained from the Institute for Global Environmental Strategies ("IGES") database, at the time of publication.

The following table details the GEF values (in kgCO2/kWh) used for the relevant geographies:

	FY2024	FY2025	FY2026	Source
Malaysia	0.6448	0.6448	0.6448	Institute for Global Environmental Strategies ("IGES") 2026 database, last updated for 2017
China	0.9714	0.9350	0.9531	Institute for Global Environmental Strategies ("IGES") 2026 database for China (North China Grid), last updated for 2024

KESMI commenced the process of developing its Scope 3 inventory in accordance with the GHG Protocol methodology since 2024 and the remaining Scope 3 categories are not disclosed due to current data availability. The definitions for the reported categories are:

- **Category 1 Purchase of Goods and Services:** Emissions from extraction, production and transportation of goods and services purchased or acquired by the reporting company during the reporting year excluding those accounted for in categories 2 to 8.
    - Methodologies used and assumptions made: Spend-based method. Purchases made by KESMI during the reporting year which are not covered in other Scope 3 categories. Each transaction was mapped to the corresponding North American Industry Classification System ("NAICS") code and its associated emission factor. The emission factor was further adjusted using compound inflation rate ("CIR") from 2022 to the current year.
    - Source of NAICS code and emission factors: Supply Chain Greenhouse Gas Emission Factors v1.3 by NAICS-6 (U.S. Environmental Protection Agency, 2022)
    - Source of inflation rate: Consumer Price Index (US Bureau of Labor Statistics, 2026)
- **Category 2 Capital Goods:** Emissions from extraction, production and transportation of capital goods purchased or acquired by the reporting company in the reporting year.
    - Methodologies used and assumptions made: Spend-based method. Capital goods purchased during the year were mapped to the corresponding NAICS code and its associated emission factor. The emission factor was further adjusted using CIR from 2022 to current year.
    - Source of NAICS code and emission factors: Supply Chain Greenhouse Gas Emission Factors v1.3 by NAICS-6 (U.S. Environmental Protection Agency, 2022)
    - Source of inflation rate: Consumer Price Index (US Bureau of Labor Statistics, 2026)
- **Category 4 Upstream Transportation and Distribution:** Emissions from transportation and distribution of products purchased during the reporting year, including transportation and distribution services purchased for inbound and outbound logistics.
    - Methodologies used and assumptions made: Spend-based method. Transportation and distribution of products purchased during the year were mapped to the corresponding NAICS code and its associated emission factor. The emission factor was further adjusted using CIR from 2022 to current year.
    - Source of NAICS code and emission factors: Supply Chain Greenhouse Gas Emission Factors v1.3 by NAICS-6 (U.S. Environmental Protection Agency, 2022)
    - Source of inflation rate: Consumer Price Index (US Bureau of Labor Statistics, 2026)

- **Category 6 Business Travel:** Emissions from the transportation of employees for business-related activities in vehicles owned or operated by third parties, such as aircraft, trains, buses and passenger cars.

    - Methodologies used and assumptions made: Distance-based method for air travel and Spend-based method for road travel.
    - Source of emission factors:
        - For air travel: UK Government GHG Conversion Factors for Company Reporting 2026 (UK Department for Energy Security and Net Zero, 2026)
        - For road travel: GHG Emission Factors Hub (U.S. Environmental Protection Agency, 2025)

- **Category 7 Employee Commuting:** Emissions from the transportation of employees between their homes and their worksites.

    - Methodologies used and assumptions made: Distance-based method. Distance travelled is assumed to be the distance between employees' homes and their worksites. Mode of transportation taken by employees is derived from an employee survey.
    - Source of emission factors: UK Government GHG Conversion Factors for Company Reporting 2026 (UK Department for Energy Security and Net Zero, 2026)

- **Category 9 Downstream Transportation and Distribution:** Emissions that occur during the reporting year from transportation and distribution of sold products in vehicles and facilities not owned or controlled by the reporting company, where the transportation and distribution costs are not paid or borne by the reporting company.

    - Methodologies used and assumptions made: Distance-based method. Distance travelled is assumed to be the distance between the destination of the sold product in vehicles and facilities not owned or controlled by the reporting company and the end consumer.
    - Source of GHG conversion factors: UK Government GHG Conversion Factors for Company Reporting 2026 (UK Department for Energy Security and Net Zero, 2026)

Energy and GHG Emission Intensity Ratios

Energy and GHG emission intensity ratios are expressed in tCO2e / revenue or multiples. The organisation-specific metric (the denominator) used was revenue. The type of energy included in the intensity ratio only includes fuel and electricity consumption within the organisation while the type of GHG emissions included in the intensity ratios only includes Scope 1 and 2 emissions.

Water Consumption

Water consumption data for KESMI covers our operations in Malaysia and China. The total water consumption is expressed in megalitres ("ML"), while water consumption intensity is measured in revenue or multiples.

TASKFORCE ON CLIMATE-RELATED FINANCIAL DISCLOSURES ("TCFD") CONTENT INDEX

KESMI extended efforts in environmental sustainability by addressing climate-related risks and opportunities in this year's Sustainability Report. We strive to update disclosures with reference to the TCFD recommendations through a phased approach.

TCFD Recommendations	Our Approach	Page Reference
Governance: **Disclose organisation's governance around climate-related risks and opportunities**		
Describe the Board's oversight of climate-related risks and opportunities	The Board, assisted by the Audit Committee ("AC") oversees the Group's risk management and internal control systems, while the business unit management identifies and assesses the material risks faced by the Group as well as the design, implementation and monitoring of suitable internal controls to manage and mitigate these risks. The Board recognises its obligation to maintain a sound risk management framework and internal control systems, which includes developing an adequate risk management and control framework and periodically reviewing its effectiveness, appropriateness and integrity. The Group has put in place a structure with formally defined lines of responsibility and delegation of authority. A process of hierarchical reporting has been established, which provides for a documented and auditable trail of accountability. The Group's internal control procedures also encompass a series of standard operating practice manuals and business process manuals, which serve as guidance for proper measures to be undertaken, and are subject to regular review, enhancement and improvement.	Our Sustainability Commitment and Governance (page 16) Corporate Governance Overview Statement (pages 68-77) Statement on Risk Management and Internal Control (pages 78-80)
Describe management's role in assessing and managing climate-related risks and opportunities		
Strategy: **Disclose the actual and potential impacts of climate-related risks and opportunities on the organisation's businesses, strategy and financial planning where such information is material**		
Describe the climate-related risks and opportunities the organisation has identified over the short, medium and long term	KESMI has begun conducting and incorporating climate scenario analysis into its climate reporting framework. For financial year ended 31 July 2026, the analysis focuses on two climate pathways: the Net Zero Emissions Scenario and the Business-as-Usual Scenario. These scenarios primarily reference the IPCC's Representative Concentration Pathways (RCPs) for physical risk assessment and the Shared Socioeconomic Pathways (SSPs) for transition risk assessment. The Net Zero and Business-as-Usual pathways were selected to provide KESMI with a comprehensive understanding of potential impacts, allowing the company to prepare for both best and worst-case outcomes related to physical and transition risks. The IPCC's RCPs and SSPs are globally recognised and widely used for mapping potential climate pathways and socioeconomic developments. Through this qualitative climate scenario analysis, KESMI aims to assess the company's resilience to climate change across the aforementioned time horizons, ensuring that it remains agile in addressing future climate challenges.	

<table>
<tr><th>TCFD Recommendations</th><th>Our Approach</th><th>Page Reference</th></tr>
<tr><td>Describe the impact of climate-related risks and opportunities on the organisation's businesses, strategy, and financial planning</td><td>
Summary of the climate scenario analysis parameters used:
<table>
<tr><th></th><th>Net Zero Scenario
Warming of 2°C or lower by the year 2100</th><th>Business-as-Usual
Warming of >4°C by the year 2100</th></tr>
<tr><td>Brief description of the scenarios</td><td>In this scenario, the world actively addresses climate change by drastically reducing greenhouse gas emissions. This is achieved through widespread adoption of renewable energy, increased energy efficiency and cutting-edge sustainable technologies. Countries collaborate to reach net zero emissions by the latter half of the century, ensuring a sustainable balance between the emissions produced and those removed from the atmosphere, leading to a more sustainable and climate-resilient world.</td><td>In this scenario, the world continues its current growth-focused path with a strong reliance on fossil fuels, leading to high greenhouse gas emissions. Technological progress and improvements in health and education occur, but these developments do not significantly reduce the environmental impact. This results in a sharp rise in atmospheric carbon dioxide levels, causing severe climate change with extreme weather, higher temperatures and widespread ecological disruption, posing serious challenges to life on Earth.</td></tr>
<tr><td>Climate scenarios used</td><td>• IPCC RCP 2.6
• IPCC SSP1-2.6</td><td>• IPCC RCP 8.5
• IPCC SSP5-8.5</td></tr>
<tr><td>Time horizons</td><td colspan="2">• Short-term: 2027. Selected to align with business planning cycles and near-term operational risks.
• Medium-term: 2030. Aligns with key regulatory and transition milestones, including national and sectoral decarbonisation targets.
• Long-term: 2050. Anchored to global net-zero goals and widely adopted by peers and industries as a standard horizon for strategic climate resilience</td></tr>
<tr><td>Countries</td><td colspan="2">Malaysia and China</td></tr>
</table>
</td><td></td></tr>
</table>

TCFD Recommendations	Our Approach	Page Reference

The table below highlights the climate-related risks and opportunities most material to KESMI. A phased approach will be adopted to disclose more details and quantifiable impacts on the identified climate-related risks, opportunities and relevant mitigation measures in subsequent reports.

Transition Risks

Transition risks are generally associated to the transition to a low-carbon economy, which might involve governmental changes, disruptive technological advances and changes in customer and investor preferences.

Risk Type	Risk Description	Potential Impacts	Time horizon & potential financial impact level across the climate scenario		Adaptation or Mitigation Measures	Risk Concentration in Business Model & Value Chain
			Net Zero	Business-as-Usual		
Policy and legal	Current and emerging climate-reporting regulations for listed firms	Increased resources and costs to implement processes to ensure compliance with climate-reporting regulations.	Medium term Long term	Medium term Long term	Continue to work closely with the stakeholders and consultants to keep abreast of all sustainability reporting developments and regulations	The concentration of this risk is in KESMI's operations in Malaysia and China, where increasing climate-related reporting and regulatory requirements are most likely to impact costs and compliance obligations, particularly being a company listed on the Main Market of Bursa Malaysia Securities Berhad.

Potential financial impact level:
Low Medium High

TCFD Recommendations	Our Approach	Page Reference

Risk Type	Risk Description	Potential Impacts	Time horizon & potential financial impact level across the climate scenario		Adaptation or Mitigation Measures	Risk Concentration in Business Model & Value Chain
			Net Zero	Business-as-Usual		
Reputation	Increasing stakeholder expectations in relation to climate change and emissions	Failure to meet the increasing stakeholder expectations in relation to climate change and emissions may pose a reputational risk, potentially leading to diminished investor confidence, reduced company valuations and challenges in retaining skilled workforce.	Medium term Long term	Medium term Long term	Engage key stakeholders, including customers and investors to understand and address their concerns to meet or exceed their ESG expectations.	This risk is concentrated on KESMI's customer, particularly multinational clients and investor relations where expectations for credible ESG performance and disclosure are highest.

Potential financial impact level:
Low Medium High

TCFD Recommendations	Our Approach	Page Reference

Physical Risks

Arising from the impact of weather events and widespread environmental changes, physical risks can include increased severity and variability of extreme weather events such as rising sea levels and changes in temperature and precipitation patterns.

Risk Type	Risk Description	Potential Impacts	Time horizon & potential financial impact level across the climate scenario		Adaptation or Mitigation Measures	Risk Concentration in Business Model & Value Chain
			Net Zero	Business-as-Usual		
Acute	Increased intensity and frequency of storms and floods	Physical damage or impairment of assets	Medium term	Medium term	Conduct regular maintenance and enhancement of infrastructure	This risk is concentrated in KESMI's facilities and supporting infrastructure in Malaysia and China, where extreme weather events such as storms and floods could damage assets and disrupt operations.
		Increased insurance costs	Long term	Long term	Review insurance coverage	
Chronic	Change in average temperature	Increased cooling demand for production facilities	Medium term	Medium term	Regular maintenance of air conditioning systems	This risk is concentrated in KESMI's operations in Malaysia and China, where higher average temperatures drive cooling demand for facilities.
			Long term	Long term	Explore additional measures to minimise heat absorption of buildings or more efficient air conditioning systems	

Potential financial impact level:

Low Medium High

Climate-related opportunities

KESMI acknowledges that with climate-related risks also come valuable opportunities. The company can capitalise on these opportunities by focusing on two key areas: energy efficiency and resource efficiency.

By implementing energy management systems and adopting energy-efficient technologies, KESMI can significantly cut operational costs due to lower energy use, while also reducing greenhouse gas (GHG) emissions.

Optimising the use of resources across the supply chain and within manufacturing processes can lead to emission reductions and heightened operational efficiency. Streamlining these processes using "Avoid-Reduce-Substitute" framework allows KESMI to decrease production costs and minimise waste, yielding better financial benefits.

TCFD Recommendations	Our Approach	Page Reference
Describe the resilience of the organisation's strategy, taking into consideration different climate-related scenarios, including a 2°C or lower scenario	Qualitative climate scenario analysis offers KESMI a wide-ranging view of how climate change could affect their operations, considering various assumptions and projections. Due to the lack of comprehensive local climate change projection databases, KESMI has utilised the latest findings from Singapore's Third National Climate Change Study which provides relevant climate change projections for the Southeast Asia region, to aid in our analysis. The study predicts an increase in rainfall on annual and seasonal timescales under all climate scenarios. The largest projected increase is associated with the Business-as-Usual Scenario which indicates that the average annual total rainfall within the Southeast Asia region is projected to increase by up to 13.4%. On the other hand, the Net Zero Emissions Scenario suggests that the annual total rainfall within the Southeast Asia region is projected to increase by up to 5.5%. Transition risks, like carbon pricing, also vary by scenario. In Asia, prices could jump by 2030 and again by 2050 in a Net Zero Emissions Scenario, affecting operational costs. In contrast, the Business-as-Usual Scenario foresees a slower rise in carbon pricing, with a minimal cost impact. As KESMI advances towards detailed assessment, we aim to gain a clearer understanding of their business resilience in the face of diverse climate scenarios.	
Risk management: **Describe how the organisation identifies, assesses and manages climate-related risks**		
Describe the organisation's processes for identifying and assessing climate-related risks	The Group has an Enterprise Risk Management ("ERM") framework that guides the identification, evaluation and management of significant risks faced by the Group in its current business environment including financial, operational, compliance and information technology risks. Based on the qualitative climate risk assessment conducted, identified climate-related issues were assessed based on the likelihood of occurrence and the severity of the potential impacts as guided by the Group's risk assessment matrix across the selected climate scenarios and time horizons. The prioritisation of risks also takes into account the Group's resources, objectives, risk tolerance, control policies and mitigation measures. The respective business units responsible for the identified climate-related issues are also engaged to monitor the register to assess and provide insights on the risk rating and impact on their operations and business. The risk register is updated every quarter to evaluate the relevance and adequacy of the identified risks and its accompanying adaptation and mitigation measures. As part of our phased implementation approach, KESMI strives to improve its identification and review process in the subsequent years to better account for potential implications from the evolving nature of external factors such as existing and emerging regulatory requirements related to climate change. KESMI recognises that working towards our sustainability goals will necessitate the development of sustainability competencies throughout our organisation. As a result, we will work towards introducing training and development programs for staff and Board members to build awareness on the topic of climate-related risks and to prepare business units on the management of this topic.	Statement on Risk Management and Internal Control (pages 78-80)
Describe the organisation's processes for managing climate-related risks		
Describe how processes for identifying, assessing and managing climate-related risks are integrated into the organisation's overall risk management		

TCFD Recommendations	Our Approach	Page Reference
Metrics and targets: **Disclose the metrics and targets used to assess and manage relevant climate-related risks and opportunities where such information is material**		
Disclose the metrics used by the organisation to assess climate-related risks and opportunities in line with its strategy and risk management process	In our Sustainability Report, we track, measure and report on our environmental performance, including energy consumption and intensity, GHG emissions and intensity (for total, Scope 1, Scope 2 and selected Scope 3 categories). Monitoring and reporting these metrics assist us in identifying areas with high climate-related risks, allowing us to direct our efforts in those areas.	Energy and Carbon Footprint (pages 41-45)
Disclose Scope 1, Scope 2, and if appropriate, Scope 3 greenhouse gas ("GHG") emissions, and the related risks	KESMI has measured and disclosed our Scope 1 and 2 emissions in total in this report. This year, KESMI further expanded its Scope 3 emissions coverage by disclosing emissions under Category 4: Upstream Transportation and Distribution and Category 9: Downstream Transportation and Distribution in addition to the existing Category 1: Purchase of Goods and Services, Category 2: Capital Goods, Category 6: Business Travel and Category 7: Employee Commuting.	
Describe the targets used by the organisation to manage climate related risks and opportunities and performance against targets	KESMI has set a perpetual target for electricity consumption to have 2% reduction in year-on-year electricity consumption. We will continue to monitor our performance and targets to evaluate if targets need to be reviewed whenever applicable and practicable.	

AUDIT COMMITTEE'S REPORT

The Audit Committee ("the Committee") is pleased to present its report for FY2026.

COMPOSITION

The Committee comprises the following directors:-

Chairman	:	Mr Kua Choh Leang	*Senior Independent Non-Executive Director*
Members	:	Dato' Dr. Suhazimah Binti Dzazali	*Independent Non-Executive Director*
		Ms Lim Mee Ing	*Non-Independent Non-Executive Director*

KEY FUNCTIONS AND RESPONSIBILITIES

The Committee has clear written Terms of Reference ("TOR") defining its functions, membership criteria, authority and rights, duties and responsibilities, operating procedures and decision-making process.

The TOR is available on the Company's website at www.kesmi.com.

MEETINGS AND ATTENDANCE

The Committee met four times during the year. Other Board members, corporate office staff and the Company Secretary attended the meetings upon invitation of the Committee. The representatives of the internal and external auditors were also present during deliberations which required their inputs and advice.

The meeting attendance record of the Committee members was as follows:

Name of Members	No. of Meetings attended
Mr Kua Choh Leang	4
Dato' Dr. Suhazimah Binti Dzazali	4
Ms Lim Mee Ing	4

SUMMARY OF THE WORK OF THE COMMITTEE

The Committee: -

Financial Reporting

1. reviewed with the external auditors their audit for the financial year ended 31 July 2025 ("FY2025") to ensure that the audited financial statements were prepared to give a true and fair view in compliance with applicable Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016; and discussed their audit findings and significant accounting and audit issues arising from their audit together with their recommendations and Management's responses; and considered Management's handling of impairment assessment, corrected or uncorrected misstatements and unadjusted audit differences;

2. was updated by the external auditors on areas relating to National Sustainability Reporting Framework (external assurance engagements performed in accordance with the standards as adopted by the Malaysian Institute of Accountants and proposed framework for sustainability assurance), financial reporting developments, tax updates on expansion of sales and service tax ("SST") scope, tax compliance focus by the Inland Revenue Board of Malaysia ("IRBM"), Compliance Verification Audit Programme by Royal Malaysian Customs Department, revised transfer pricing rules and guidelines, implementation of stamp duty self-assessment system in phases, latest Ministry of Finance and IRBM position on the stamping of employment contracts, mandatory submission of statutory documents to MBRS, and 2% tax on dividend income received by individuals, New Investment Incentive Framework (NIIF) introduced by the Government of Malaysia, review of tax incentives for venture capital industry, and updates on (i) e-Invoice implementation timeline, thresholds and interim relaxation period, and (ii) key changes to SST effective July 2025 and (iii) Stamp Duty Self-Assessment System effective January 2026 and penalty remission for offences under Section 72D;

3. reviewed and recommended the audited financial statements of the Company and of the Group for FY2025 to the Board for approval; and

4. reviewed the unaudited quarterly results of the Group and recommended to the Board for approval.

External Audit

1. reviewed the external auditors' report on the Statement on Risk Management and Internal Control in respect of FY2025 to ascertain that the disclosures are consistent with the Company's established systems of risk management and internal control prior to Board's approval;

2. assessed the independence, performance and competency of the external auditors;

3. considered Management's feedback on the service delivery of the external auditors and their audit fees and recommended their re-appointment to the Board; and

4. reviewed with the external auditors the audit plan for FY2026, focusing on the audit engagement team, areas of audit emphasis and impairment assessment, key audit matters, audit scoping and audit timeline.

Internal Audit

1. reviewed the internal audit plan and was satisfied that the internal auditors employed a systematic and reasonable methodology to select suitable audit areas and the corresponding group companies targeted for audit review;

2. reviewed and discussed the internal auditors' reports which highlighted the risk profiles and assessments, their recommendations, management responses and actions;

3. reviewed and discussed with the internal auditors on their follow-up audit on prior year's audits to ensure management had carried out the agreed actions timely;

4. enquired with the internal auditors and was satisfied that they did receive full information and co-operation from management during their audit reviews;

5. conducted annual assessment of the competency and effectiveness of the internal auditors and was satisfied that the audit team has the relevant qualifications, adequate expertise and experience to conduct the audit competently and they have also demonstrated to provide quality audit performance;

6. received the internal review report by the outsourced internal auditor regarding the identified GRI factors reporting made by the Company in its Sustainability Report for FY2025; and

7. reviewed the internal review plan by outsourced internal auditor on the identified GRI factors to be disclosed in the Company's Sustainability Report for FY2026.

AUDIT COMMITTEE'S REPORT

Related Party Transactions

1. reviewed the recurrent related party transactions ("RRPT") of the Group quarterly to:

   (i) ascertain that they were entered in accordance to the Company's established guidelines and procedures, and within the mandated limits, on normal commercial terms and were not detrimental to the interest of the Company and its minority shareholders; and

   (ii) monitored the aggregate value transacted to determine if the threshold had been breached to warrant immediate announcement to Bursa Securities;

2. recommended the aforesaid RRPT to the Board for ratification and approval; and

3. reviewed the Statement by Audit Committee in the Circular to Shareholders in relation to the:-

   (i) proposed renewal of the existing shareholders' mandate for RRPT of a revenue or trading nature; and

   (ii) proposed new shareholders' mandate for additional RRPT of a revenue or trading nature; and

   recommended to the Board to include it in the Circular.

Others

1. prepared the Committee's report in respect of FY2025 and presented it to the Board for approval and inclusion in the Annual Report 2025; and

2. assessed the conflict of interest declared by certain directors. Conflicted Directors are connected with the parties who have business dealings with the Company and its subsidiaries for purchase of equipment, provision of management service, renting of factory space and provision of test services that are undertaken on arm's length basis. The Company has and will continue to address this conflict of interest situation by seeking the approval from the shareholders for the Company to enter into the RRPT and the Conflicted Directors will abstain from all Board deliberations and voting on matters related to this.

SUMMARY OF THE WORK OF INTERNAL AUDIT FUNCTION

During the financial year under review, the internal auditors:

1. presented the internal audit plan for the Committee's approval at the second meeting of the Committee;

2. conducted audit review in accordance to the approved audit plan, which covered the following business processes or areas:-

   - Inventory and Spare Part Management
   - Human Resource Management
   - Procurement Control Management
   - Occupational Safety, Health and Environment

   and presented the audit reports to the Committee; and

3. carried out follow-up audit review on prior year's audits and presented the outcome of their review to the Committee.

The total cost incurred for the Group's internal audit function amounted to RM80,000.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

The Board of Directors ("the Board") is committed to ensuring that good corporate governance practices are observed throughout the Company and its subsidiaries ("the Group") as a fundamental part of discharging its responsibilities to protect and enhance shareholders' value and the financial performance of the Group.

The Board has subscribed to the principles and practices of good corporate governance practices (including the intended outcomes) as promulgated by the Malaysian Code on Corporate Governance 2021 ("MCCG") in leading and managing the business and affairs of the Group in an effective and responsible manner, whilst promoting business prosperity and corporate accountability with the ultimate objective of realising long-term shareholder value.

This Statement, prepared in compliance with the Main Market Listing Requirements ("MMLR") of Bursa Malaysia Securities Berhad ("Bursa Securities"), provides an overview of the corporate governance practices adopted by the Company in respect of FY2026. It is to be read together with the Corporate Governance Report 2026 ("CGR 2026") which provides the details on how the Company has applied each Practice as set out in the MCCG during the financial year. The CGR 2026 is available on the Company's website at URL http://kesmi.com/investor-relations/general-meetings/ as well as on Bursa Securities' website at www.bursamalaysia.com.

PRINCIPLE A – BOARD LEADERSHIP AND EFFECTIVENESS

I. Board Responsibilities

The Board has the overall duties and responsibilities in performing its fiduciary duties, exercising reasonable care, skill and diligence, setting the Group's strategic direction and ensuring that the Group was led and managed in an effective and responsible manner so that the objectives and goals are met.

The Board is guided by the Board Charter, policies and frameworks that set out its roles, responsibilities and matters requiring its review and approval. The Board is also supported by the Audit Committee ("AC") and Nominating Committee ("NC"), which assist the Board in providing independent oversight and ensuring that appropriate governance processes are maintained.

The Board Charter, which is available on the Company's website, sets out the roles and responsibilities of the Board, the individual Directors as well as the role of Senior Independent Director ("SID"). It is reviewed periodically to ensure it remains appropriate and aligned with applicable requirements and good governance practices.

The Board has established amongst others, the following policies, which are accessible at the Company's website, to affirm its commitment to practice the highest level of integrity and ethics:

(a) Anti-Bribery and Anti-Corruption Policy – provide guiding principles to employees and external parties on preventing and addressing bribery and corruption risks that may arise in the Group's business dealings and operations.

(b) Whistle-Blower Policy – provide guiding principles to employees and external parties on raising concerns in good faith and in confidence, relating to misconduct, violations and improper conduct, including the channels for reporting and protection against retaliation.

(c) Code of Conduct and Ethics – provide guiding principles to employees on maintaining high standards of integrity, fairness and ethical conduct in the workplace, business dealings and Group operations.

(d) Directors' Fit and Proper Policy – provide guiding principles and assessment criteria for evaluating the suitability, quality and character, integrity, competence, experience and commitment of individuals appointed or re-elected as Directors to discharge the responsibilities properly and effectively, in support of effective Board oversight and sound corporate governance.

The AC and NC each comprise three non-executive directors, with a majority being independent directors; and chaired by independent directors. The Board considers the composition of the Board Committees to provide an appropriate balance of experience, objectivity and independent judgement in the discharge of their respective responsibilities. These Board Committees operate within clearly defined Terms of Reference ("TOR"), which are available on the Company's website.

II. Board Leadership

The Board is led by its Executive Chairman ("Chairman"), who is responsible for instilling good corporate governance practices, leadership and effectiveness of the Board. To this end, the Chairman takes on the role of creating an environment that enables open, robust and effective discourse between the Board members, as well as between the Board and Senior Management, and with the stakeholders of the Company. He is supported by the Executive Director ("ED"), who is responsible for the execution of the decisions made by the Board and the day-to-day operations of the Group.

The positions of the Chairman and Chief Executive Officer ("CEO") are held by the same individual, Mr Samuel Lim. This is a departure from Practice 1.3 of the MCCG which recommends that the positions be held by different individuals.

The Board has taken the view that given the nature and size of the Group's businesses, it is in the best interests of the Company to vest both roles on the same individual. Mr Samuel Lim's deep knowledge of the products, experience of the business, wide contacts in the industry and visionary leadership provide strong and consistent leadership and facilitate effective planning and expeditious execution of the Group's business strategies.

Recognising the importance of appropriate checks and balances, a SID has been appointed to provide an alternative channel for shareholders, stakeholders and directors to raise concerns where it would be a conflict for the Chairman to deal with. In addition, the Chairman abstains from participating in deliberations and decision-making on matters where he has an actual or potential interest. The Board considers these safeguards, together with the presence of independent directors and independent Board Committee chairpersons, to provide appropriate checks and balances and to support objective and accountable decision-making.

The Chairman is not a member of any of the Board Committees and attends their meetings in practice to facilitate effective communication between the Board and respective Board Committees, as well as to maintain a comprehensive understanding of matters considered by the committees.

The Board Committees are of the view that his presence is beneficial in enabling them to draw on his knowledge and accumulated experience, and in facilitating more effective and productive deliberations. His presence in such meetings does not compromise Board Committees' ability to deliberate and make decisions independently and objectively. Considering Mr Samuel Lim's performance, professionalism and objectivity in discharging his responsibilities, the Board fully supports the retention of the combined roles of Chairman and CEO.

III. Board Administration

The Board meets on a scheduled basis at least five times a year to consider and approve matters including the quarterly and annual financial results, recurrent related party transactions, annual budgets, dividend, election of Directors and other matters specifically reserved for its decision. Due notice is given for all scheduled meetings. During the year under review, the Board also considered and approved matters through circular resolutions, with sufficient information provided to facilitate informed decision-making.

The Board is supported by a professionally qualified and experienced Company Secretary, who is a Fellow Member of the Malaysian Institute of Chartered Secretaries and Administrators, now known as the Chartered Governance Institute of Malaysia. All Directors have direct access to the advice and services of the Company Secretary.

As the 'governance gatekeeper', the Company Secretary plays an important role in supporting the proper functioning of the Board and is accountable to the Board on matters relating to its responsibilities. The Company Secretary assists the Chairman and chairmen of the Board Committees in developing meeting agendas, administers and records the minutes of Board, Board Committees and shareholders' meetings, advises on statutory, regulatory and corporate governance matters, facilitates Directors' training, and ensures effective information flow between Board members, the Board and its Committees, as well as between corporate management and the Directors.

All Directors have full and unrestricted access to timely information which is necessary for them to discharge their duties responsibly.

A Board meeting pack which contains the notice of meeting, the minutes of the previous meetings and relevant meetings papers comprising reports, financial statements and other information relating to the agendas, is circulated to the Board, and the Board Committees, a week or so prior to the meetings. In this manner, Directors are able to study and evaluate the matters to be discussed. Directors are also able to call for additional clarification and information to assist them in their decision-making.

IV. Governance of Sustainability

The Board maintains structural oversight over sustainability governance, including strategies, priorities and targets whilst Senior Management is responsible for operational execution. Stakeholders are informed of the Group's sustainability matters through the Sustainability Report included in this Annual Report. The Board also keeps itself apprised with sustainability developments through briefings provided by the Sustainability consultant.

V. Board Size, Composition and Diversity

The Board recognises the importance of having an appropriate mix of skills, experience, knowledge and independence to support effective decision-making. The NC assists the Board in reviewing the composition, balance, effectiveness and succession of the Board and in assessing the suitability and independence of directors. The Board periodically reviews its composition and effectiveness to ensure that it remains fit for purpose and capable of exercising objective and independent judgement in the best interests of the Group and its stakeholders.

The Company is led and managed, by an experienced Board, comprising members with a good mix of the necessary knowledge, skills and wide range of experiences relevant to the Group.

The Board comprises five directors, which the Board considers is optimal for the Board's effective and expedient decision-making. Three of the directors are non-executive, two of whom are independent directors ("IDs"). The IDs provide objective oversight and constructive challenge to management during Board deliberations. The profiles of each Director and other relevant information are set out in the "Board of Directors" and "Other Information on Directors" sections of this Annual Report.

Although the Board does not comprise at least half IDs as recommended by the MCCG, the Company is of the view that the effectiveness of the Board has not been compromised. The Board continues to discharge its responsibilities effectively, supported by the professional expertise, knowledge and experience of the Executive Chairman and ED, whose contributions have been instrumental in providing strong leadership and strategic direction to the Group. The Directors remain committed to discharging their fiduciary duties and acting in the best interests of the Company. The diverse perspectives and independent judgement brought by members of the Board have effectively contributed to the success of the Group. Where a Director has an interest in a particular matter, the Director will abstain from participating in the deliberation and decision-making process in keeping with applicable requirements and good corporate governance practices.

Pursuant to paragraph 1.01(h) of the MMLR, the NC and Board have, subsequent to the FY2025, conducted annual independence assessment of the IDs and concluded that they meet all the criteria of independence. Practice 5.3 of the MCCG states that the tenure of an ID should not exceed a term limit of nine years. As at 31 July 2026, none of the IDs have served more than nine years.

The Board Diversity Policy is incorporated into the Board Charter. In considering appointments to the Board, the NC and Board take into account various diversity factors, including, among others, ethnicity, gender and age. Notwithstanding these considerations, the final selection of Board candidates is based on merit, having regard to the criteria and requirements established by the Board.

The table below gives an overview of the current diversity of the Board:

Diversity in:						
Gender	Male	60%		Female		40%
Race/Ethnicity	Malay	20%		Chinese		80%
Nationality	Malaysian	40%		Foreigner		60%
Age Group	60 - 65 Years:	40%	66 - 70 Years: 20%		Above 70 Years:	40%
Core Competencies	Accounting, banking, business acumen, engineering, finance, general management, human resources, industry knowledge, legal, marketing, manufacturing, strategic development and information technology.					

VI. Appointment and Assessment of Directors and Senior Management

The NC assists the Board in identifying and assessing suitable candidates and making recommendation in accordance with the Board's policies on identification, selection and appointment of Director. Consideration is given to their character, integrity, competency, qualifications, experience, commitment and track record, as well as the overall balance of skills, knowledge, experience and diversity required at Board level.

For Senior Management who are not Directors, their appointments are delegated to the EDs who assess candidates based on the requirements of the respective roles, including their skills, qualification, character, experience and competencies. As part of the Company's succession planning and talent retention initiatives, suitable internal candidates are considered first, with external recruitment undertaken where necessary.

In accordance with the Company's Constitution, all Directors are subject to re-election by rotation at least once in every three years at the Annual General Meeting ("AGM"), while newly appointed directors shall hold office until the AGM following their appointment. The NC and the Board have evaluated the eligibility of the retiring Directors, namely Mr Samuel Lim Syn Soo and Mr Kenneth Tan Teoh Khoon (collectively "Retiring Directors") and nominated their re-election at the upcoming AGM.

Shareholders are provided with detailed information on the Retiring Directors via the Board of Directors' profile. The Board's statement relating to the reasons to support recommendation for their re-election are disclosed in the Explanatory Notes section of the Notice of AGM.

VII. Directors' Training – Continuing Education Programmes

The Directors recognise the importance of continuous training to broaden their perspectives and remain abreast of prevailing statutory and regulatory requirements. The Board considers that this is best supported through a combination of in-house and external training programmes relevant to the Directors' roles and responsibilities. During the year, the Directors received updates and briefings from Management, the Company Secretary and the external auditors, as appropriate, on governance, regulatory and industry developments, new and amended laws, regulatory requirements and changes to the accounting standards. These updates and briefings were provided from time to time in conjunction with the Board and Board Committee meetings to support the Directors in the effective discharge of their duties and responsibilities.

During FY2026, all the Directors attended the following in-house trainings:

Course Title	Dates
National Sustainability Reporting Framework (external assurance engagements performed in accordance with the standards as adopted by the Malaysian Institute of Accountants and proposed framework for sustainability assurance) Tax updates on expansion of sales tax and service tax ("SST") scope, tax compliance focus by the Inland Revenue Board of Malaysia ("IRBM"), Compliance Verification Audit Programme by Royal Malaysian Customs Department, revised transfer pricing rules and guidelines, implementation of stamp duty self-assessment system in phases, latest Ministry of Finance and IRBM position on the stamping of employment contracts, mandatory submission of statutory documents to MBRS, and 2% tax on dividend income received by individuals	18 September 2025
Bursa Malaysia's Main Market Listing Requirement in relation to (i) enhanced continuing disclosure requirements and exempted related party transaction; and (ii) revisions to the main market fees and charges	19 November 2025
Financial Reporting developments on amendments to MFRSs 7, 9, 10, 11, 18, 19, 101, 108, 121, 128, 136 and 137, as at 30 December 2025 New Investment Incentive Framework (NIIF) introduced by the Government of Malaysia, review of tax incentives for venture capital industry, and updates on (i) e-Invoice implementation timeline, thresholds and interim relaxation period, (ii) key changes to SST effective July 2025, and (iii) SDSAS effective January 2026 and penalty remission for offences under Section 72D Statement on Risk Management and Internal Control Guide 2025 and Goodwill Impairment Disclosure Guide for Listed Issuers dated 31 December 2025, issued by Bursa Securities, and Corporate Governance Monitor 2025 issued by Securities Commission Malaysia	10 March 2026
Amendments to Bursa Malaysia Securities Berhad Main Market Listing Requirements consequential to the revised Equity Guidelines dated 29 May 2026	16 July 2026

and some attended the following external trainings:

Course Title	Dates
Anti-Bribery and Anti-Corruption training	17 October 2025
MIA Webinar Series: Common Audit Deficiencies and Lessons from Regulatory Finding	12 to 13 November 2025
Securities Commission Malaysia's Audit Oversight Board's Conversation with Audit Committees	25 November 2025
MIA Webinar Series: Auditing Going Concern under ISA 570 – Red Flags, Risk Assessment & Reporting	1 December 2025
Improving Quality: Root Cause Analysis	5 December 2025
ISO 37001:2025 Anti-Bribery Management Systems Awareness	22 January 2026
AIPWP – AI for Productivity in the Workplace	16 to 17 July 2026

VIII. Board Committees

The Board is supported by two Board Committees, namely the AC and NC.

Both Board Committees comprise three non-executive directors, with a majority being IDs, and are chaired by IDs. The Board considers that this structure provides an appropriate level of independent oversight.

Audit Committee

The AC assists the Board in fulfilling its oversight responsibilities in relation to financial reporting, internal controls, internal and external audit, risk management and other matters within its TOR.

The composition, TOR and summary of activities of the AC are set out in the "Audit Committee's Report" section of this Annual Report.

Nominating Committee

The NC assists the Board in matters relating to Board composition, succession planning, appointment and re-election of directors, assessment of the effectiveness of the Board, Board Committees and individual directors, as well as such other matters as may be delegated to it by the Board.

The NC comprises the following directors:

Chairman	:	Kua Choh Leang	*Senior Independent Non-Executive Director*
Members	:	Dato' Dr. Suhazimah Binti Dzazali	*Independent Non-Executive Director*
		Ms Lim Mee Ing	*Non-Independent Non-Executive Director*

The NC is guided by clear written TOR, which sets out its functions, membership criteria, scope of duties and responsibilities, operating procedures and decision-making processes. The TOR is available on the Company's website.

The NC met once in FY2026, with full attendance by all the NC members. During the meeting, the NC:

- reviewed the NC report for FY2025 and presented it to the Board for approval;
- evaluated the eligibility of the retiring Directors and recommended to the Board the proposed resolutions for their re-election to be tabled at the forthcoming AGM;
- assessed and confirmed the independence of IDs; and
- conducted the requisite evaluations and assessments of the performance and effectiveness of the Board, the Board Committees and individual Directors, as well as the fitness and probity of the Directors.

The NC assesses the effectiveness of the Board, Board Committees and individual Directors based on, among other factors, the Board's structure and composition, diversity of skills and experience, roles and responsibilities, as well as the contribution, participation and effectiveness of individual Directors and Board Committees.

Based on the results of the assessments for FY2026, the NC was satisfied with the composition and overall effectiveness of the Board and Board Committees. The Board concurred with the NC's assessment that the Board is of an appropriate size and well balanced in terms of skills, experience, competencies, independence and diversity, and comprising Directors who meet the requisite fit and proper criteria, to enable the Board to discharge its responsibilities effectively and support the Company's current and future needs.

IX. Remuneration of Directors and Senior Management

The Company has not established a separate Remuneration Committee. Remuneration matters are considered and determined collectively by the Board. The Board considers this arrangement appropriate having regard to the Group's size, organisational structure and remuneration framework.

In carrying out its responsibilities, the Board is guided by the Remuneration Policy for Directors and Senior Management ("Remuneration Policy"), which is available on the Company's website. The Policy sets out the principles, policies and procedures for determining the remuneration of Directors and Senior Management of the Group.

The Board reviews the Remuneration Policy periodically to ensure that it remains appropriate, competitive and aligned with the Group's objectives of attracting, motivating and retaining Directors and Senior Management with the requisite skills, experience and expertise to support the effective management and sustainable performance of the Group.

In determining remuneration, the Board considers the responsibilities, performance, experience and contribution of the relevant directors and Senior Management, together with the Group's performance and prevailing market considerations. Directors who have an actual or potential conflict of interest do not participate in the relevant deliberations and decision-making.

Details of the Directors' remuneration for FY2026 are disclosed in the CGR 2026 under Practice 8.1. The Company does not disclose the remuneration of the top five Senior Management personnel individually in bands of RM50,000 as recommended under the MCCG. Instead, the Company discloses the aggregate total remuneration paid to them.

The Board views that aggregate disclosure provides meaningful transparency on the overall remuneration of Senior Management while balancing such transparency against considerations of confidentiality, commercial sensitivity and the attraction and retention of Senior Management personnel.

The Board considers that this approach provides an appropriate balance between transparency and the protection of legitimate business and employee interests, while achieving the intended outcome of providing stakeholders with meaningful information regarding Senior Management remuneration.

For FY2026, the aggregate total remuneration paid to the top five Senior Management personnel (who are not the ED) of the Group was about RM3.1 million.

PRINCIPLE B: EFFECTIVE AUDIT AND RISK MANAGEMENT

I. Audit Committee

The Board recognises the importance of maintaining a sound system of internal controls and an effective risk management framework to safeguard the Group's assets, support reliable financial reporting and manage risks arising from the Group's operations and business environment.

The AC is tasked by the Board to oversee the integrity of the Group's financial reporting process, the internal and external audit functions and the adequacy and effectiveness of the Group's internal controls, risk management and governance framework.

The AC comprises of three Non-Executive Directors, a majority of whom, including the chairman, are IDs. The AC is chaired by the SID, who is not the Chairman. The chairman of the AC is a Chartered Accountant and the other members possess the requisite skills, knowledge and experience to discharge their duties and responsibilities effectively. None of the members is a former partner of the Company's incumbent external auditors who is required to observe a cooling-off period of at least three years before being appointed as a member of the AC. The profiles of the AC members and details of the training programmes attended by them during FY2026 are set out in the "Board of Directors" and "Directors' Training – Continuing Education Programmes" sections of this Annual Report, respectively. A summary of the activities undertaken by the AC during FY2026 is set out in the "Audit Committee's Report" section of this Annual Report.

The Board had assessed the effectiveness of the AC in performing its duties pursuant to its TOR, and is satisfied that the AC continues to discharge its duties accordingly.

II. External Auditors

The Company is committed to maintaining a transparent and professional relationship with its external auditors and to ensuring the integrity and reliability of its financial reporting.

The AC maintains direct and unrestricted access to the external auditors.

The roles and responsibilities of the AC in relation to the external auditors are set out in the "Audit Committee's Report" section of this Annual Report.

The AC has established policies and procedures for the annual assessment of the suitability, objectivity and independence of the external auditors. In carrying out its assessment, the AC considers, among others, the competence, audit quality and resource capacity of the external auditors, the effectiveness and quality of the audit services rendered, independence and the level of non-audit fees rendered, as well as the safeguards in place to ensure that the provision of non-audit services does not compromise the objectivity and independence of the external auditors. As part of the assessment, the AC also obtained a written assurance from the external auditors, Ernst & Young PLT ("EY") confirming that EY has been independent throughout the conduct of the audit engagement in accordance with the relevant professional and regulatory requirements.

Subsequent to FY2026, the AC undertook its annual assessment of EY based on the established criteria and was satisfied that EY remains suitable, objective and independent in carrying out its audit responsibilities for the Company and the Group. Following the assessment, the AC recommended to the Board the re-appointment of EY as external auditors of the Company for the financial year ending 2027. The Board, having considered the AC's recommendation, is satisfied with the suitability, competency, performance, audit quality, resource capacity and independence of EY, and had recommended their re-appointment to the shareholders for approval at the forthcoming AGM.

III. Risk Management and Internal Control Framework

The Board acknowledges its overall responsibility for maintaining a sound risk management and internal control framework to safeguard the interests of the Company and its stakeholders. The AC supported the Board in overseeing the Group's risk management and internal control framework and regularly reviewing its adequacy, effectiveness and integrity.

Management is responsible for identifying, assessing and managing the material risks arising from the Group's business activities, as well as designing, implementing and monitoring appropriate internal controls to manage and mitigate the risks. The risk management and internal control framework encompasses, among others, organisational structure and reporting lines, strategic planning, risk management, financial management, operational control, regulatory and compliance controls. These measures are designed to safeguard shareholders' investments and the Group's assets, protect the customers' interests, and support the achievement of the Group's strategic and operational objectives.

Further details on the Group's risk management and internal control framework, including its key features and the processes adopted by the Board in reviewing its adequacy and effectiveness, are set out in the "Statement on Risk Management and Internal Control" section of this Annual Report.

IV. Internal Audit

The Board recognises the importance of maintaining a sound internal control environment as an integral component of good corporate governance. Accordingly, the Group's internal audit function is independently undertaken to provide an objective and systematic assessment of the adequacy and effectiveness of the Group's risk management, internal control and governance processes, with impartiality, professional competence and professional care.

The internal audit function of the Group was outsourced to Deloitte Malaysia Assurance Sdn Bhd ("Deloitte"). Deloitte has performed the necessary objectivity and independence checks, and confirmed to the AC that its engagement is free from any relationships or conflicts of interests that could impair its objectivity or independence. The key internal audit team comprises of three members i.e. consultant, engagement manager and engagement partner, who possess the appropriate qualifications, experience and expertise to discharge their respective responsibilities.

The internal auditors are responsible for, among others, developing the internal audit plan and determining the scope and frequency of internal audit reviews in consultation with, but independently of, Management; presenting the proposed internal audit plan and scope of reviews to the AC for consideration; conducting internal audit reviews in accordance with the approved plan; and reporting their findings, observations and recommendations to the AC, together with management's responses and agreed action plans, where applicable.

Details of the internal audit activities undertaken in respect of FY2026 are set out in the "Audit Committee's Report" and "Statement on Risk Management and Internal Control" sections of this Annual Report.

The AC's oversight of the internal audit function is also set out in the "Audit Committee's Report" section in this Annual Report.

V. Financial Reporting

The Board is responsible for ensuring that the financial statements of the Group and of the Company are properly drawn up in accordance with the applicable approved accounting standards in Malaysia, the requirements of the Companies Act 2016 and the applicable provisions of the MMLR, so as to give a true and fair view of the financial position of the Group and of the Company as at the end of the financial year, and of their financial performance and cash flows for a financial year then ended.

In preparing the financial statements, the Directors have:

- selected and applied appropriate accounting policies;
- made judgements and estimates that are reasonable and prudent; and
- ensured that financial statements comply with applicable approved accounting standards in Malaysia and relevant statutory and regulatory requirements.

The Directors are also responsible for ensuring proper accounting and other records are maintained by the Company and its subsidiaries, which disclose with reasonable accuracy the financial position of the Group and of the Company, and enable Directors to ensure that the financial statements are properly prepared in accordance with the applicable laws, regulations and accounting standards.

The Directors are further responsible for taking reasonable steps to safeguard the assets of the Group and the Company and to prevent and detect fraud and other irregularities.

PRINCIPLE C – INTEGRITY IN CORPORATE REPORTING AND MEANINGFUL RELATIONSHIP WITH STAKEHOLDERS

I. Corporate Disclosure and Stakeholders Communication

The Board recognises that timely, accurate and balanced disclosures enable shareholders and other stakeholders to make informed assessments of the Group's business, performance, financial position and prospects. The Company maintains regular engagement with its stakeholders through various communication channels to keep them informed of Group's key developments and performance, as well as to understand and address their needs and concerns.

The Sustainability Report in this Annual Report outlines the Company's approach to identifying its material stakeholders and the various channels of engagement, including announcements to Bursa Securities, press releases, general meetings and analyst/investor engagements.

The Company's website further serves as an accessible communication platform, providing stakeholders and members of the public with timely information on the Group and the channels to communicate with the Company.

II. Conduct of General Meetings

The Company acknowledges the importance of maintaining effective communication with shareholders and providing them with opportunities to participate in general meetings and engage with the Board and Management.

The Company's general meetings serve as the principal forum for shareholders to engage and interact with the Board. Shareholders may attend the meetings in person or otherwise appoint proxy or corporate representative to attend and participate on their or its behalf respectively. The Directors are expected to attend the general meetings, unless prevented by good reason.

Shareholders are notified of the general meetings through the notice of meeting announced to Bursa Securities and published in a local newspaper and on the Company's website. The Company issues the notice within the period prescribed by the applicable requirements. Shareholders were also provided with timely access to relevant information and documents pertaining to the agenda, which are made available on the websites of the Company and Bursa Securities.

The Company held its 54th AGM on 14 January 2026. The notice was issued on 27 October 2025, more than 28 days before the meeting. The meeting was held in a wholly physical format, providing shareholders, proxies and corporate representatives a direct, two-way engagement with the Directors. All the Directors, the Company Secretary, corporate management staff and the external auditors attended the meeting. Shareholders, proxies and corporate representatives had an opportunity to gain a better understanding of the Group's annual financial results, operational activities and business outlook from the presentation made by the Chairman/CEO. They were able to engage directly with the Board, provided feedback and raised questions relating to the agenda during the question-and-answer session. A summary of the questions and answers was subsequently made available on the Company's website for the benefit of all shareholders. Electronic poll voting was conducted for all resolutions and an independent scrutineer was present to scrutinise the voting process and verify the poll results. The results of the votes cast for each resolution were displayed on-screen during the meeting and subsequently announced to Bursa Securities and also made available on the Company's website.

This Statement was approved by the Board of Directors on 22 September 2026.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

INTRODUCTION

The Board of Directors ("Board") is pleased to present its Statement on Risk Management and Internal Control ("Statement") made pursuant to Paragraph 15.26(b) and Practice Note 9 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad. In making this Statement, the Board is guided by Part II of Principle B, Intended Outcome 10.0, Practices 10.1 and 10.2 read together with Guidance 10.1 and 10.2 of the Malaysian Code on Corporate Governance and the guidelines on the "Statement on Risk Management and Internal Control (SORMIC): Guidelines for Directors of Listed Companies ("SORMIC Guide 2025")".

The Statement gives an outline of the nature and scope of risk management and internal control practices of the Group in respect of the financial year ended 31 July 2026 ("FY2026").

BOARD'S RESPONSIBILITY

The Board oversees the Group's risk management and internal control systems, while the business unit management identifies and assesses the material risks faced by the Group as well as the design, implementation and monitoring of suitable internal controls to manage and mitigate these risks. The systems include organisational structure, strategic planning, risk management, financial management, operational control, regulatory and compliance controls to safeguard shareholders' investments, customers' interests and the Group's assets.

The Board acknowledges its responsibility to maintain a sound risk management framework and internal control systems, which includes the establishment of an appropriate risk management and control framework as well as reviewing its effectiveness, adequacy and integrity. However, in view of the inherent limitations in any such system, the Board recognises that the system of risk management and internal control is designed to manage and mitigate risks rather than eliminate the risk of failure to achieve the Group's internal control objectives. Accordingly, it can only provide reasonable and not absolute assurance against material financial misstatement or loss.

The Board is supported in its risk management and internal control oversight responsibilities by:

- Business unit management – to identify, assess and implement suitable risk management and internal control systems;
- Executive Directors, assisted by corporate management, oversee and endorse risk management and internal control system implementation by business unit management; and
- Audit Committee – for oversight over internal control systems, financials and governance matters to provide reasonable assurance that adverse impact arising from a foreseeable future event or situation on the Group's objectives is mitigated and managed.

RISK MANAGEMENT FRAMEWORK

The Group has in place an Enterprise Risk Management ("ERM") framework (based on an internationally recognised risk management framework) which is designed to provide consistency in the management of risks across the Group. The ERM framework is embedded into the corporate culture, processes and structures of the Group.

The Board's responsibilities for the governance of risks and controls include:

- setting the tone and culture for effective risk management and internal control systems;
- ensuring risk management is embedded in all aspects of the Group's daily business and operational activities and processes;
- reviewing and endorsing acceptable risk appetite, and determining and monitoring the nature and extent of significant risks which the Group is willing to take in achieving its strategic objectives; and
- reviewing the risk management framework, processes and responsibilities to ensure it provides reasonable assurance that risk management has been effective to keep it within tolerable levels.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

The Group has in place a detailed risk management process, culminating in a Board review, which identifies the key risks facing each business unit. This information is reviewed by Executive Directors as part of the strategic review and periodical business performance review process. ERM framework consists of the following key processes:

- policies, guidelines, procedures and documentation on strategic, financial, operational, compliance, information technology, and environment, social and governance ("ESG") management;

- an established and structured process for identification, assessment, communication, treatment, monitoring as well as continual review of risks and effectiveness of risk mitigation strategies and controls within the business unit levels for their daily operating activities and processes, aided by self-assessment risk checklist and risk register compassing risk appetite and tolerance assessment;

- Executive Directors and corporate management meet on quarterly basis, with the business units, to review on the Group's key risks and Group's risk register (which sets out the priority and focus on risk mitigation strategies based on risk categories and ratings), and the execution and management of the risk mitigation strategies;

- continuing assessments by the Group's internal auditors on the quality of risk management and control, and the reports to the Executive Directors and corporate management, and the Audit Committee on the status of specific areas identified for improvement; and

- assessment on the effectiveness of the risk management process in the Group during the financial year by the Executive Directors and subsequently by the Board.

The Group's customer base is concentrated amongst the top-tier semiconductor suppliers. To mitigate such risks, we align our business strategies with these customers' strategic plans. Notwithstanding this, we continue to avail our core competencies and competitive advantages to the markets that we serve.

Through a phased approach, the Group has taken steps to incorporate sustainability risks, including ESG, alongside other emerging risks, as part of its ongoing risk assessment process.

INTERNAL CONTROL FRAMEWORK

The Board is committed to conducting its business in an ethical and honest manner, and will endeavour to ensure all its business relationship and dealings are conducted professionally and with high integrity. Accordingly, the Board establishes Code of Conduct and Ethics, Anti-Bribery and Anti-Corruption policy, and the Whistle-Blower policy to articulate the acceptable practices and to guide the behaviours of all directors, management and employees.

The Board acknowledges that internal control system inevitably is intertwined with the Group's operating activities. The Group's internal control framework is complementary to the ERM framework where internal control policies and procedures are designed to address key business risks, including corruption risks, prevention of asset and data loss. The key internal control structures the Group has in place are described below.

The Group's internal audit function is outsourced to a public accounting firm of international standing. The internal audit function facilitates the Board in its review and evaluation of the adequacy and integrity of the Group's internal control systems.

The internal auditors adopt a risk-based approach and prepare its audit strategy and plan based on the risk profiles of the business units of the Group. Audits are carried out according to the annual audit plan approved by the Audit Committee. The resulting reports from the annual audits undertaken are presented to the Audit Committee at its regular meetings. Board members are invited when the Audit Committee meets to review, discuss, and direct actions on matters pertaining to the reports, which among other matters, include findings relating to the adequacy and integrity of the internal control system of the Group. After the Audit Committee had deliberated on the reports, these are then forwarded to the business unit management for attention and necessary actions. The business unit management is responsible for ensuring recommended corrective actions on reported weaknesses were taken within the required time frame.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

The annual internal audits therefore provide the Board with an independent assessment on the adequacy, efficiency and effectiveness of the Group's internal control systems in anticipating potential risk exposures over key business systems and processes and in controlling the proper conduct of business within the Group.

Apart from internal audit, the Board has in place an organisation structure with formally defined lines of responsibility and delegation of authority. A process of hierarchical reporting has been established which provides for a documented and auditable trail of accountability.

The monitoring and management of the Group is delegated to the Executive Directors and senior operational management. The Executive Directors through their day-to-day involvement in the business operations and regular attendance at senior management level meetings, manage and monitor the Group's financial performance, key business indicators, operational effectiveness and efficiency, discuss and resolve significant business issues and ensure compliance with applicable laws, regulations, rules, directives and guidelines. These senior management meetings serve as a two-way platform for the Board, through the Executive Directors, to communicate and address significant matters in relation to the Group's business and financial affairs and provide update on significant changes in the business and the external environment which result in significant risks.

The Group's internal control procedures are set out in a series of standard operating practice manuals and business process manuals, to serve as guidance for proper measures to be undertaken and are subject to regular review, enhancement and improvement.

REVIEW OF THE STATEMENT BY EXTERNAL AUDITORS

As required by Paragraph 15.23 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad, the External Auditors have reviewed the Statement for inclusion in the Annual Report of the Group for the financial year. Their limited assurance review was performed in accordance with the *Malaysian Approved Standard on Assurance Engagements, ISAE 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information* and *AAPG 3, Guidance for Auditors on Engagements to Report on the Statement on Risk Management and Internal Control included in the Annual Report*.

The Statement to be included in the Annual Report is properly prepared, in all material respects, in accordance with the disclosures required by Section 7 of the SORMIC Guide 2025, nor is this Statement factually inaccurate.

Based on their review, nothing has come to their attention that causes them to believe that the Statement is inconsistent with their understanding of the processes adopted by the Board in reviewing the adequacy and effectiveness of the risk management and internal control system of the Group.

CONCLUSION

The Board has received assurance from Mr Samuel Lim Syn Soo, the Executive Chairman and Chief Executive Officer and Mr Kenneth Tan Teoh Khoon, the Executive Director that the Group's risk management and internal control system is operating adequately and effectively, in all material respects, based on the risk management model adopted by the Group.

The Board has reviewed the risk management and internal control framework and control procedures to ensure continual effectiveness and adequacy of the system of risk management and internal control of the Group.

The Board is of the opinion that the system of risk management and internal control that has been instituted throughout the Group was satisfactory and has not resulted in any material adverse impact that would require disclosure in the Group's Annual Report.

This Statement is made in accordance with the resolution of the Board of Directors dated 22 September 2026.

DIRECTORS' REPORT

The directors are pleased to present their report together with the audited financial statements of the Group and of the Company for the financial year ended 31 July 2026.

Principal activities

The principal activities of the Company are investment holding and provision of semiconductor burn-in and testing services.

The principal activities and other details of the subsidiaries are disclosed in Note 13 to the financial statements.

Results

	Group	Company
	RM'000	RM'000
Profit net of tax	9,453	383

There was no material transfer to or from reserves or provisions during the financial year other than as disclosed in the financial statements.

In the opinion of the directors, the results of the operations of the Group and of the Company during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature.

Dividends

	RM'000
In respect of the financial year ended 31 July 2025 as reported in the directors' report of that year:	
Interim tax exempt dividend of 6.0 sen per ordinary share, on 43,014,500 ordinary shares, approved on 18 September 2025 and paid on 28 October 2025	2,581
In respect of the financial year ended 31 July 2026:	
First interim tax exempt dividend of 6.0 sen per ordinary share, on 43,014,500 ordinary shares, approved on 16 July 2026 and paid on 20 August 2026	2,581
	5,162

On 22 September 2026, the directors approved a second interim tax exempt dividend in respect of the financial year ended 31 July 2026, of 4.5 sen on 43,014,500 ordinary shares, amounting to dividend payable of RM1,935,653. The financial statements for the current financial year do not reflect this interim dividend. Such dividend will be accounted for in equity as an appropriation of retained earnings in the financial year ending 31 July 2027.

The directors do not recommend a final dividend for the financial year ended 31 July 2026.

Directors

The directors of the Company in office since the beginning of the financial year to the date of this report are:

Samuel Lim Syn Soo*
Kenneth Tan Teoh Khoon*
Lim Mee Ing
Kua Choh Leang*
Dato' Dr. Suhazimah Binti Dzazali*

* These directors are also directors of some of the Company's subsidiaries.

Directors' interests

According to the register of directors' shareholdings, the interest of directors in office at the end of the financial year in shares in the Company were as follows:

	Number of ordinary shares			
	At 1.8.2025	Acquired	Sold	At 31.7.2026
Deemed interest				
Samuel Lim Syn Soo	20,825,000	–	–	20,825,000

By virtue of his interest in shares in the Company, Samuel Lim Syn Soo is also deemed interested in shares in all the Company's subsidiaries to the extent the Company has an interest.

Other than as disclosed above, none of the other directors in office at the end of the financial year had any interest in shares in the Company or its related corporations during the financial year.

Directors' benefits

Neither at the end of the financial year, nor at any time during that year, did there subsist any arrangement to which the Company was a party, whereby directors might acquire benefits by means of the acquisition of shares in the Company or any other body corporate.

Since the end of the previous financial year, no director has received or become entitled to receive a benefit (other than benefits included in the aggregate amount of remuneration received or due and receivable by the directors or the fixed salary of a full-time employee of the Company as shown below) by reason of a contract made by the Company or a related corporation with any director or with a firm of which the director is a member, or with a company in which the director has a substantial financial interest.

The directors' benefits are as follows:

	Group RM'000	Company RM'000
Directors of the Company		
Executive:		
Fees	167	147
Salaries and other emoluments	1,747	1,747
	1,914	1,894
Non-executive:		
Fees	183	163
Allowances	27	27
	210	190
Total directors' remuneration	2,124	2,084

Indemnity and insurance for the directors and officers

During the financial year, the total amount of indemnity coverage given to directors and officers of the Company pursuant to Director and Officer liability insurance is RM20,000,000.

Other statutory information

(a) Before the statements of profit or loss and other comprehensive income and statements of financial position of the Group and of the Company were made out, the directors took reasonable steps:

(i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of provision for doubtful debts and satisfied themselves that there were no known bad debts and that adequate provision had been made for doubtful debts; and

(ii) to ensure that any current assets which were unlikely to be realised their values as shown in the accounting records in the ordinary course of business had been written down to an amount which they might be expected so to realise.

(b) At the date of this report, the directors are not aware of any circumstances:

(i) which would render it necessary to write off any bad debts or the amount of the provision for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent;

(ii) which would render the values attributed to current assets in the financial statements of the Group and of the Company misleading;

(iii) which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate; and

(iv) not otherwise dealt with in this report or financial statements of the Group and of the Company which would render any amount stated in the financial statements misleading.

(c) At the date of this report, there does not exist:

(i) any charge on the assets of the Group or of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; or

(ii) any contingent liability in respect of the Group or of the Company which has arisen since the end of the financial year.

(d) In the opinion of the directors:

(i) no contingent liability or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which will or may affect the ability of the Group or of the Company to meet their obligations when they fall due; and

(ii) no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of the operations of the Group or of the Company for the financial year in which this report is made.

DIRECTORS' REPORT

Auditors

The auditors, Ernst & Young PLT, have expressed their willingness to continue in office.

The auditors' remuneration of the Group and of the Company during the year are RM537,000 and RM243,000 respectively.

To the extent permitted by law, the Company has agreed to indemnify its auditors, Ernst & Young PLT, as part of the terms of its audit engagement against claims by third parties arising from the audit for an unspecified amount. No payment has been made to indemnify Ernst & Young PLT during or since the end of the financial year.

Signed on behalf of the Board in accordance with a resolution of the directors dated 22 September 2026.

INDEPENDENT AUDITORS' REPORT

To the members of KESM Industries Berhad (Incorporated in Malaysia)

Report on the audit of the financial statements

Opinion

We have audited the financial statements of KESM Industries Berhad, which comprise the statements of financial position as at 31 July 2026 of the Group and of the Company, and statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 92 to 147.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 31 July 2026, and of their financial performance and their cash flows for the year then ended in accordance with MFRS Accounting Standards, IFRS Accounting Standards and the requirements of the Companies Act 2016 in Malaysia.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence and other ethical responsibilities

We are independent of the Group and of the Company in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), as applicable to audits of financial statements of public interest entities and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Company for the current year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditors' responsibilities for the audit of the financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis of our audit opinion on the accompanying financial statements.

Key audit matters (cont'd)

Key audit matters in respect of the financial statements of the Group

Impairment assessment of property, plant and equipment
Refer to Note 3.2(ii) and Note 11 to the financial statements.

As at 31 July 2026, the Group's property, plant and equipment including right-of-use assets amounted to RM161,508,000, representing 36% of its total assets.

The Group is required to perform impairment test of the cash generating units ("CGUs") whenever there is an indication that the CGU may be impaired by comparing the carrying amounts with its recoverable amounts.

The Group has then estimated the recoverable amounts of the CGUs based on the higher of the fair value less costs of disposal ("FVLCD") and its value in use ("VIU"). Determining the recoverable amounts using VIU method involves estimating the future cash inflows and outflows that will be derived from the CGUs, and discounting them at an appropriate rate. In determining the recoverable amounts using FVLCD method, management has engaged independent valuers to determine the fair value of certain property, plant and equipment at the reporting date.

We have identified this as an area of audit focus given the significance of property, plant and equipment to the Group and the Company and the estimates involved in the assessment of the recoverable amounts.

Our procedures included amongst others, the following:

a) We obtained an understanding of the methodology adopted by the management in estimating the VIU;

b) We assessed the reasonableness of management's budgets by comparing the actual results achieved against previous budgets;

c) We evaluated the reasonableness of key assumptions such as sales volume and prices, including and where relevant, comparing them against the historical data and by corroborating with plant's utilisation reports, industry outlook reports, and existing sales invoices on price forecasts;

d) We evaluated the key assumptions applied in respect of residual value of certain plant and equipment applied in estimating VIU with reference to recent comparable transactions of similar assets;

e) We assessed the reasonableness of the discount rate and the appropriateness of the methodology used in deriving the VIU calculations, with the support of our valuation experts; and

f) We performed sensitivity analysis on the key assumptions to understand the impact that alternative assumptions would have had on the overall recoverable amounts.

For the component audited by other component auditors, we have reviewed their results of the procedures performed, which are similar to those stated above.

In addition, we evaluated the adequacy of the disclosures in the notes to the financial statements.

Key audit matters (cont'd)

Key audit matters in respect of the financial statements of the Company

Impairment assessment of investment in subsidiaries
Refer to Note 3.2(iii) and Note 13 to the financial statements.

As at 31 July 2026, the Company's investment in subsidiaries amounted to RM79,250,000, representing 46% of its total assets. The Company is required to estimate the recoverable amounts of its investment in subsidiaries when there is an indication that such investments may be impaired. Management performed an impairment assessment and estimated the recoverable amounts of the investment in subsidiaries using VIU and FVLCD methods.

In determining the recoverable amounts using VIU method, management estimates the future cash inflows and outflows that will be derived from the investment and discounting them at an appropriate rate. As part of determination of the recoverable amounts using FVLCD method, management has engaged independent valuers to determine the fair value of certain property, plant and equipment at the reporting date.

We have identified this as an area of audit focus given the significance of investment in subsidiaries to the Company and the estimates involved in the assessment of the recoverable amounts.

Our procedures included amongst others, the following:

a) We obtained an understanding of the methodology adopted by the management in estimating the VIU;

b) We assessed the reasonableness of management's budgets by comparing the actual results achieved against previous budgets;

c) We evaluated the reasonableness of key assumptions such as sales volume and prices, including and where relevant, comparing them against the historical data and by corroborating with plant's utilisation reports, industry outlook reports, and existing sales invoices on price forecasts; and

d) We assessed the reasonableness of the discount rate and the appropriateness of the methodology used in deriving the VIU calculations, with the support of our valuation experts.

In addition, we evaluated the adequacy of the disclosures in the notes to the financial statements.

Information other than the financial statements and auditors' report thereon

The directors of the Company are responsible for the other information. The other information comprises the Directors' Report, but does not include the financial statements of the Group and of the Company and our auditors' report thereon, which we obtained prior to the date of this auditors' report, and the Annual Report, which is expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the directors of the Company and take appropriate action.

INDEPENDENT AUDITORS' REPORT

To the members of KESM Industries Berhad (Incorporated in Malaysia)

Responsibilities of the directors for the financial statements

The directors of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with MFRS Accounting Standards, IFRS Accounting Standards and the requirements of the Companies Act 2016 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.

- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the financial statements of the Group. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITORS' REPORT

To the members of KESM Industries Berhad (Incorporated in Malaysia)

Auditors' responsibilities for the audit of the financial statements (cont'd)

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

In accordance with the requirements of the Companies Act 2016 in Malaysia, we report that the subsidiary of which we have not acted as auditors, is disclosed in Note 13 to the financial statements.

Other matters

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

The accompanying accounting policies and explanatory notes form an integral part of the financial statements.

1. Corporate information

KESM Industries Berhad ("the Company") is a public limited liability company incorporated and domiciled in Malaysia, and is listed on the Main Market of Bursa Malaysia Securities Berhad. The registered office of the Company is located at 802, 8th Floor, Block C, Kelana Square, No. 17, Jalan SS7/26, 47301 Petaling Jaya, Selangor Darul Ehsan, Malaysia.

The principal activities of the Company are investment holding and provision of semiconductor burn-in and testing services. The principal activities and other details of the subsidiaries are disclosed in Note 13.

The principal place of business of the Company is located at Lot 4, Jalan SS 8/4, Sungei Way Free Industrial Zone, 47300 Petaling Jaya, Selangor Darul Ehsan, Malaysia.

In accordance with the requirement of MFRS 10: Consolidated Financial Statements and MFRS 127: Separate Financial Statements, the Company and its subsidiaries are considered to be *de facto* subsidiaries of Sunright Limited ("Sunright"). In this connection, the ultimate holding company of the Company is Sunright, which is incorporated in Singapore. Sunright is listed on the Mainboard of the Singapore Exchange Securities Trading Limited.

2. Material accounting policy information

2.1 Basis of preparation

The financial statements of the Group and of the Company have been prepared in accordance with MFRS Accounting Standards, IFRS Accounting Standards and the requirements of the Companies Act 2016 in Malaysia.

The financial statements have been prepared on the historical cost basis except as disclosed in the accounting policies as below.

The financial statements of the Group and of the Company are presented in Ringgit Malaysia ("RM") and all values are rounded to the nearest thousand ("RM'000") except when otherwise indicated.

2.2 Changes in accounting policies

The accounting policies adopted are consistent with those of the previous financial year except that on 1 August 2025, the Group and the Company adopted the following amendments to standards mandatory for annual financial periods beginning on or after 1 January 2025.

Description	Effective for annual periods beginning on or after
Amendments to MFRS 121: Lack of Exchangeability	1 January 2025

Adoption of the above amendments to standard did not have any material effect on the financial statements of the Group and of the Company.

2. Material accounting policy information (cont'd)

2.3 Standards issued but not yet effective

The amendments to standards and new standards that are issued but not yet effective up to the date of issuance of the Group's and the Company's financial statements are disclosed below.

Description	Effective for annual periods beginning on or after
Amendments to MFRS 9 and MFRS 7: Amendments to the Classification and Measurement of Financial Instruments	1 January 2026
Annual Improvements to MFRS Accounting Standards - Volume 11	1 January 2026
Amendments to MFRS 9 and MFRS 7: Contracts Referencing Nature-dependent Electricity	1 January 2026
MFRS 18 Presentation and Disclosure in Financial Statements	1 January 2027
MFRS 19 Subsidiaries without Public Accountability: Disclosures	1 January 2027
Amendments to MFRS 121: Translation to a Hyperinflationary Presentation Currency	1 January 2027
MFRS 20 Regulatory Assets and Regulatory Liabilities	1 January 2029
Amendments to MFRS 10 and MFRS 128: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Deferred

The directors expect that the adoption of the above standards and interpretations will have no material impact on the financial statements in the year of application, except for the following:

MFRS 18 Presentation and Disclosure in Financial Statements

MFRS 18 replaces MFRS 101 Presentation of Financial Statements. MFRS 18 introduces new requirements for presentation within the statement of profit or loss, including specified totals and subtotals. Furthermore, entities are required to classify all income and expenses within the statement of profit or loss into one of five categories: operating, investing, financing, income taxes and discontinued operations, whereof the first three are new.

It also requires disclosure of newly defined management-defined performance measures, subtotals of income and expenses, and includes new requirements for aggregation and disaggregation of financial information based on the identified 'roles' of the primary financial statements ("PFS") and the notes.

In addition, narrow-scope amendments have been made to MFRS 107 Statement of Cash Flows, which include changing the starting point for determining cash flows from operations under the indirect method, from 'profit or loss' to 'operating profit or loss' and removing the optionality around classification of cash flows from dividends and interest. In addition, there are consequential amendments to several other standards. MFRS 18, and the amendments to the other standards, is effective for reporting periods beginning on or after 1 January 2027, but earlier application is permitted.

The Group is currently working to identify all impacts the amendments will have on the PFS and notes to the financial statements.

2. Material accounting policy information (cont'd)

2.4 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at reporting date. The financial statements of the subsidiaries used in the preparation of the consolidated financial statements are prepared for the same reporting date as the Company. Consistent accounting policies are applied for like transactions and events in similar circumstances. A list of the Company's subsidiaries is shown in Note 13.

All intra-group balances, income and expenses and unrealised gains and losses resulting from intra-group transactions and dividends are eliminated in full.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

2.5 Functional and foreign currency

The consolidated financial statements are presented in RM, which is also the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

(i) Transactions and balances

Transactions in foreign currencies are measured in the respective functional currencies of the Company and its subsidiaries and are recorded on initial recognition in the functional currencies at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the reporting date are recognised in profit or loss.

(ii) Consolidated financial statements

For consolidation purposes, the assets and liabilities of foreign operations are translated into RM at the rate of exchange ruling at the reporting date and income and expenses are translated at the average exchange rates for the reporting year. The exchange differences arising on the translation are recognised in other comprehensive income. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is reclassified to profit or loss.

2.6 Property, plant and equipment

All items of property, plant and equipment are initially recorded at cost. Right-of-use assets are included within the same line item as that within corresponding underlying assets would be presented if they were owned and are accounted for in accordance with Note 2.12. Subsequent to recognition, all items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

2. Material accounting policy information (cont'd)

2.6 Property, plant and equipment (cont'd)

When significant parts of property, plant and equipment are required to be replaced in intervals, the Group and the Company recognise such parts as individual assets with specific useful lives and depreciation, respectively. All other repair and maintenance costs are recognised in profit or loss as incurred.

Depreciation, except for right-of-use assets which is depreciated in accordance with Note 2.12, is computed on a straight-line basis over the estimated useful lives of the assets as follows:

Buildings	10 - 20 years
Renovation	5 years
Plant, machinery and test equipment	5 - 7 years
Motor vehicles	5 years
Office equipment, furniture and fittings and computers	3 - 10 years

Freehold land has an unlimited useful life and therefore is not depreciated. Certain assets are stated at cost and are not depreciated as these assets are not available for use.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual value, useful life and depreciation method are reviewed at the reporting date, and adjusted prospectively, if appropriate.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on derecognition of the asset is included in profit or loss in the year the asset is derecognised.

2.7 Impairment of non-financial assets

The Group and the Company assess at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when an annual impairment testing for an asset is required, the Group and the Company make an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs of disposal and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

The Group and the Company base their impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Group's and of the Company's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of four years. For longer periods, a long-term growth rate is calculated and applied to projected future cash flows after the fourth year.

Impairment losses are recognised in profit or loss.

A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in profit or loss.

2. Material accounting policy information (cont'd)

2.8 Financial instruments

(i) Financial assets

Initial recognition and measurement

Financial assets are recognised when, and only when, the Group and the Company become a party to the contractual provisions of the instruments.

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Trade receivables are measured at the amount of consideration to which the Group expects to be entitled in exchange for transferring promised services to a customer, excluding amounts collected on behalf of third parties, if the trade receivables do not contain a significant financing component at initial recognition.

Subsequent measurement

Financial assets at amortised cost (debt instruments)

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the contractual cash flow characteristics of the asset. Financial assets that are held for the collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the assets are derecognised or impaired, and through amortisation process.

The Group's and the Company's financial assets at amortised cost include trade and other receivables, and cash and short-term deposits.

Financial assets at fair value through profit or loss ("FVPL")

Financial assets at FVPL include financial assets held for trading. The Group's and the Company's investment securities acquired principally for the purpose of selling or repurchasing them in the near term.

The Group also uses derivative financial instruments such as forward currency contracts to manage its risks associated with foreign currency fluctuations. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivative financial instruments are carried as assets when the fair value is positive and as liabilities when the fair value is negative. Any gain or losses arising from changes in fair value on derivative financial instruments that do not qualify for hedging accounting are taken to the profit or loss for the year. The fair value of forward currency contracts is calculated by reference to current forward exchange rates for contracts with similar maturity profiles.

Subsequent to initial recognition, financial assets at FVPL are measured at fair value. Gains or losses arising from changes in fair value of the financial assets are recognised in profit or loss. Net gains or net losses on financial assets at FVPL do not include exchange differences, interest and dividend income. Exchange differences, interest and dividend income on financial assets at FVPL are recognised separately in profit or loss as part of other expenses or other income.

2. Material accounting policy information (cont'd)

2.8 Financial instruments (cont'd)

(i) Financial assets (cont'd)

Derecognition

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that had been recognised in other comprehensive income for debt instruments is recognised in profit or loss.

(ii) Financial liabilities

Initial recognition and measurement

Financial liabilities are recognised when, and only when, the Group and the Company become a party to the contractual provisions of the financial instrument. The Group and the Company determine the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value and, in the case of financial liabilities not at FVPL, net of directly attributable transaction costs.

The Group's and the Company's financial liabilities include trade and other payables and loans and borrowings.

Subsequent measurement

After initial recognition, financial liabilities that are not carried at FVPL are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires. On derecognition, the difference between the carrying amounts and consideration paid is recognised in profit or loss.

(iii) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.9 Impairment of financial assets

The Group and the Company recognise an allowance for expected credit losses ("ECLs") for all debt instruments not held at FVPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group and the Company expect to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a '12-month ECL'). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is recognised for credit losses expected over the remaining life of the exposure, irrespective of timing of the default (a 'lifetime ECL').

2. Material accounting policy information (cont'd)

2.9 Impairment of financial assets (cont'd)

For trade receivables, the Group and the Company apply a simplified approach in calculating ECLs. Therefore, the Group and the Company do not track changes in credit risk, but instead recognise a loss allowance based on lifetime ECLs at each reporting date. The Group and the Company have established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Group and the Company may consider a financial asset to be in default when internal or external information indicates that the Group and the Company are unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group and the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

2.10 Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and on hand, and deposits with banks, that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value, with a maturity of three months or less.

For the purpose of the statements of cash flows, cash and cash equivalents are presented net of bank deposits with maturity more than three months.

2.11 Employee benefits

(i) Short-term benefits

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees of the Group and of the Company. Short-term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short-term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

(ii) Defined contribution plans

The Group participates in the national pension schemes as defined by the laws of the countries in which it has operations. In particular, companies in Malaysia make such contributions to the Employees Provident Fund ("EPF"). Contributions to defined contribution pension schemes are recognised as an expense in the period in which the related service is performed.

(iii) Defined benefit plan

The Group's obligations under the defined benefit plan are estimated and determined based on the amount of benefit that eligible employees have earned in return for their service in the current and prior years. That benefit is discounted using the projected unit credit method in order to determine its present value. The discount rate is the market yield at the reporting date on high quality corporate bonds or government bonds. The amount recognised in the statement of financial position represents the present value of the defined benefit obligations.

Net interest is calculated by applying the discount rate to the net defined benefit liability. The Group recognises the service costs in the net defined benefit obligations under 'Employee benefits expense', net interest under 'Finance costs' in profit or loss and remeasurements of the defined obligation under 'Other comprehensive income or loss'.

2. Material accounting policy information (cont'd)

2.12 Leases

The Group and the Company assess at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(i) As a lessee

The Group and the Company apply a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group and the Company recognise lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Group and the Company recognise right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. If ownership of the leased asset transfers to the Group and the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Depreciation of right-of-use assets is computed on a straight-line basis over the estimated useful lives or lease terms of assets as follows:

Buildings	3 - 5 years
Leasehold land	60 - 99 years
Plant, machinery and test equipment	5 - 7 years

The right-of-use assets are also subject to impairment. The accounting policy for impairment is disclosed in Note 2.7. The Group's and the Company's right-of-use assets are disclosed in Note 12.

Lease liabilities

At the commencement date of the lease, the Group and the Company recognise lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and the Company and payments of penalties for terminating the lease, if the lease term reflects the Group and the Company exercising the option to terminate.

In calculating the present value of lease payments, the Group and the Company use its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g. changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

2. Material accounting policy information (cont'd)

2.12 Leases (cont'd)

(i) As a lessee (cont'd)

Short-term leases and leases of low-value assets

The Group and the Company apply the short-term lease recognition exemption to its short-term leases of assets (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

(ii) As a lessor

Leases in which the Group and the Company do not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. The accounting policy for rental income is set out in Note 2.13.

2.13 Revenue

Revenue is measured based on the consideration to which the Group and the Company expect to be entitled in exchange for rendering promised services to a customer, excluding amounts collected on behalf of third parties.

Revenue is recognised when the Group and the Company satisfy a performance obligation by rendering a promised service to the customer, which is when the customer accepts the performance of service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

(i) Rendering of services

Revenue is recognised when the performance obligation is satisfied at a point in time, that is upon the performance of services to the customers, which coincides with their acceptance.

The amount of revenue recognised is based on the estimated transaction price. Based on the Group's and the Company's experience with similar types of contracts, variable consideration is typically constrained and is included in the transaction only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

The Group and the Company do not provide variable element in consideration and obligation for refunds.

(ii) Others

(a) Interest income

Interest income is recognised using the effective interest method.

(b) Dividend income

Dividend income is recognised when the Group's and the Company's right to receive payment is established.

(c) Rental income

Rental income is accounted for on a straight-line basis over the lease terms and is included in other income in the statements of profit or loss and other comprehensive income due to its operating nature.

2. Material accounting policy information (cont'd)

2.14 Taxes

(i) Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the countries where the Group and the Company operate and generate taxable income.

Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) Deferred tax

Deferred tax is provided using the liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction in other comprehensive income.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(iii) Sales and service tax ("SST")

Revenues, expenses and assets are recognised net of the amount of SST except:

(a) where the SST incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the SST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and

(b) receivables and payables that are stated with the amount of SST included.

The net amount of SST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statements of financial position.

2. Material accounting policy information (cont'd)

2.15 Government grant

Government grant is recognised when there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

2.16 Segment reporting

For management purposes, the Group is organised into operating segments based on their services (i.e. burn-in and testing services) which are independently managed by the respective plant managers responsible for the performance of the respective locations under their charge. The plant managers report directly to the key management who regularly review the location results in order to allocate resources to the locations and to assess the performance.

3. Significant accounting estimates and judgements

The preparation of the Group's and the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

3.1 Judgements made in applying accounting policies

There are no significant judgements made by management in the application of accounting policies of the Group and of the Company that have a significant effect on the financial statements.

3.2 Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date are discussed below. The Group and the Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group and of the Company. Such changes are reflected in the assumptions when they occur.

(i) Deferred tax assets

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available in the future to recover these deferred tax assets. Significant management estimates are required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits, including expectations for future market outlooks. The Group has recognised the deferred tax assets as it is probable that the Group will generate sufficient taxable profits in future which the deferred tax assets can be utilised. The carrying amounts of the Group's and the Company's deferred tax assets at reporting date were RM5,983,000 (2025: RM5,943,000) and RM3,969,000 (2025: RM3,969,000) respectively. Further details are disclosed in Note 20.

3. Significant accounting estimates and judgements (cont'd)

3.2 Key sources of estimation uncertainty (cont'd)

(ii) Impairment of property, plant and equipment

The Group is required to perform impairment test of the cash-generating units ("CGUs") whenever there is an indication that the CGU may be impaired by comparing the carrying amounts with its recoverable amounts.

When recoverable amounts are determined based on value in use calculations, the discounted cash flow model is used with certain key parameters such as sales volume and prices, discount rate and residual value of certain plant and equipment. Management believes that the aforesaid variables are unlikely to materially result in the carrying amount of property, plant and equipment exceeding their recoverable amounts. In determining the recoverable amounts using the fair value less costs of disposal method, management has engaged independent valuers to determine the fair value of certain property, plant and equipment at the reporting date. The carrying amount of the Group's property, plant and equipment at the reporting date is disclosed in Note 11.

(iii) Impairment of investment in subsidiaries

The Company is required to estimate the recoverable amounts of its investment in subsidiaries when there is an indication that such investments may be impaired. For investment in subsidiaries with indicators of impairment, management performed impairment assessment and estimated the recoverable amounts of the investment in subsidiaries using value in use or fair value less costs of disposal methods.

When recoverable amounts are determined based on value in use calculations, the discounted cash flow model is used with certain key parameters such as sales volume and prices. Management believes that the aforesaid variables are unlikely to materially result in the carrying amount of the subsidiaries exceeding its recoverable amounts.

In determining the recoverable amounts using the fair value less costs of disposal method, management has engaged independent valuers to determine the fair value of certain property, plant and equipment at the reporting date.

The carrying amount of the Company's investment in subsidiaries at the reporting date was RM79,250,000 (2025: RM79,250,000).

4. Revenue

- Origination and reversal of temporary differences	(2,181)	(1,933)	42	(5)
- Under/(over) provision in prior years	39	(7)	(42)	5
	(2,142)	(1,940)	–	–
Income tax expense recognised in profit or loss	3,420	717	181	33

9. Income tax expense (cont'd)

The reconciliation between tax expense and product of accounting profit/(loss) multiplied by the applicable corporate tax rate for the years ended 31 July 2026 and 2025 is as follows:

	Group	
	2026 RM'000	2025 RM'000
Profit/(loss) before tax	12,873	(7,468)
Tax at Malaysian statutory tax rate of 24% (2025: 24%)	3,090	(1,792)
Adjustments:		
Effect of different tax rate on foreign expense	6	(18)
Income not subject to tax	(968)	(94)
Non-deductible expenses	114	1,090
Deferred tax asset not recognised	989	1,699
Over provision of income tax in prior years	(31)	(161)
Under/(over) provision of deferred tax in prior years	39	(7)
Real property gains tax	181	–
Income tax expense recognised in profit or loss	3,420	717

	Company	
	2026 RM'000	2025 RM'000
Profit/(loss) before tax	564	(6,251)
Tax at Malaysian statutory tax rate of 24% (2025: 24%)	135	(1,500)
Adjustments:		
Income not subject to tax	(968)	(94)
Non-deductible expenses	124	874
Deferred tax asset not recognised	751	810
Over provision of income tax in prior years	–	(62)
(Over)/under provision of deferred tax in prior years	(42)	5
Real property gains tax	181	–
Income tax expense recognised in profit or loss	181	33

Domestic current income tax is calculated at the Malaysian statutory tax rate of 24% (2025: 24%) of the estimated assessable profit/(loss) for the year.

Taxation for other jurisdiction is calculated at the prevailing rate of the respective jurisdictions. The above reconciliation is prepared by aggregating separate reconciliation for each national jurisdiction.

10. Earnings per share

Basic earnings/(loss) per share amounts are calculated by dividing profit/(loss) net of tax, attributable to owners of the Company by the weighted average number of ordinary shares outstanding during the financial year.

The following tables reflect the profit/(loss) and share data used in the computation of basic earnings per share for the years ended 31 July:

	Group	
	2026	**2025**
	RM'000	**RM'000**
Profit/(loss) attributable to owners of the Company	9,453	(8,185)

	Number of shares	
	2026	**2025**
	'000	**'000**
Weighted average number of ordinary shares for basic earnings/(loss) per share calculation	43,015	43,015

	2026	**2025**
Basic earnings/(loss) per share	22.0 sen	(19.0 sen)

The Group has no potential ordinary shares in issue as at reporting date and therefore diluted earnings per share has not been presented.

There has been no other transaction involving ordinary shares or potential ordinary shares between the reporting date and the date of authorisation of these financial statements.

11. Property, plant and equipment (cont'd)

(i) Additions

Additions of property, plant and equipment during the financial year were made by the following means:

	Note	Group		Company	
		2026	2025	2026	2025
		RM'000	RM'000	RM'000	RM'000
Cash payments		38,200	7,363	3,601	1,945
Amount due to related companies		2,296	–	868	–
Lease liabilities	12	7,917	199	5,650	9
Other payables	21	27,902	10,315	121	123
		76,315	17,877	10,240	2,077

(ii) Right-of-use assets acquired under leasing arrangements are presented together with the owned assets of the same class. Details of such leased assets are disclosed in Note 12.

(iii) Assets held for sale

On 28 May 2025, the Group entered into a sale and purchase agreement for the disposal of leasehold land and building for a cash consideration of RM4,000,000.

The disposal was completed on 9 January 2026.

12. Leases

As a lessee

Buildings

The Group and the Company have lease contracts for offices and factories used in its operations, and accommodations for workers. These leases have contract terms of 3 to 5 years, and do not contain variable lease payments. The Group's and the Company's obligation under its leases are secured by the lessor's title to the leased assets.

Leasehold land

The Group and the Company have made upfront payments to secure the right-of-use of 60 to 99 years leasehold land, which are used for production purposes. There are no externally imposed covenants on these lease arrangements.

Plant, machinery and test equipment and motor vehicles

These leases have contract terms of 2 to 4 years, and do not contain variable lease payments. The lease arrangements prohibit the Group from subleasing to third parties.

Short-term leases and leases of low-value assets

The Group and the Company have certain leases of accommodations for workers with lease terms of 12 months or less, and leases of plant, machinery and test equipment, and office equipment with low value. The Group and the Company apply the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

12. Leases (cont'd)

As a lessee (cont'd)

(i) Right-of-use assets

Set out below are the carrying amounts of right-of-use assets (classified within 'Property, plant and equipment') and the movements during the year:

	8	2,052	439	120	194
Total amount recognised in profit or loss		5,523	3,446	2,224	1,876

The Group and the Company had total cash outflows for leases of RM5,505,000 and RM2,098,000 (2025: RM3,262,000 and RM1,814,000) respectively in the current financial year. The Group and the Company also had non-cash additions to right-of-use assets and lease liabilities of RM7,917,000 and RM5,650,000 (2025: RM199,000 and RM9,000) respectively in the current financial year.

12. Leases (cont'd)

As a lessor

(a) An immediate lessor

The Group and the Company lease out part of their owned buildings to third parties and one of its subsidiaries respectively, for monthly lease payments. These leases are classified as operating leases because the risk and rewards incidental to ownership of the assets are not substantially transferred.

The future minimum rental receivable under non-cancellable operating leases contracted for at the end of the reporting period are as follows:

	Group	
	2026	2025
	RM'000	RM'000
Within one year	490	158
Later than one year but not later than five years	665	–
	1,155	158

(b) An intermediate lessor

The Company acts as an intermediate lessor under arrangement in which it subleases out the factory and accommodations for workers to one of its subsidiaries for monthly lease payments. The sublease periods do not form a major part of the remaining lease terms under the head leases and accordingly, the sub-leases are classified as operating leases.

Income from subleasing the factory and accommodations for workers recognised during the financial year by the Company was RM727,000 (2025: RM704,000).

13. Investment in subsidiaries

	Company	
	2026	2025
	RM'000	RM'000
Unquoted shares, at cost	79,250	79,250

13. Investment in subsidiaries (cont'd)

Composition of the Group

The Company has the following investments in subsidiaries:

Name of company	Place of business/ country of incorporation	Principal activities	Proportion of ownership interest	
			2026	2025
			%	%
KESP Sdn. Bhd.*	Malaysia	Provision of semiconductor burn-in and testing services	100	100
KESM Test (M) Sdn. Bhd.*	Malaysia	Provision of semiconductor testing services	100	100
KESM Industries (Tianjin) Co., Ltd^	PRC	Provision of semiconductor burn-in and testing services	100	100

* Audited by Ernst & Young PLT, Malaysia.

^ Audited by Ernst & Young Hua Ming LLP, China, for the purpose of Group consolidation.

14. Inventories

	Group		Company	
	2026	2025	2026	2025
	RM'000	RM'000	RM'000	RM'000
At cost				
Consumables	2,167	1,985	31	25

There was no write-down of inventories by the Group and the Company during the financial year.

15. Trade and other receivables

	Note	Group		Company	
		2026	2025	2026	2025
		RM'000	RM'000	RM'000	RM'000

Total trade and other receivables		54,581	44,021	16,978	14,019
Add: Cash and short-term deposits	16	217,366	210,121	43,016	42,252
Total financial assets carried at amortised cost		271,947	254,142	59,994	56,271

(i) Trade receivables and sundry receivables

Trade receivables are non-interest bearing and are generally on 30 to 90 days (2025: 30 to 90 days) terms. They are recognised at their original invoice amounts which represent their fair values on initial recognition.

Sundry receivables are non-interest bearing and are to be repaid in cash.

15. Trade and other receivables (cont'd)

(ii) Receivables that are impaired

Trade receivables that are individually determined to be impaired at the end of the reporting period relate to debtors who have defaulted on payments. These receivables are not secured by any collateral or credit enhancements.

Expected credit losses

The movement in allowance for expected credit losses of trade receivables computed based on lifetime ECL are as follows:

		Group	
	Note	2026 RM'000	2025 RM'000
At beginning of the year		907	100
(Reverse from)/charge to profit or loss	8	(802)	831
Exchange differences		(16)	(24)
At end of the year		89	907

During the financial year, reversal of impairment of RM802,000 (2025: impairment of RM831,000) was recognised in the statement of profit or loss of the Group.

(iii) Related company receivables

Loans to a subsidiary bore interest rate between 4.63% and 5.06% (2025: between 4.91% and 5.06%) per annum, is unsecured and repayable within three years.

Amounts due from subsidiaries are non-trade in nature, unsecured, non-interest bearing and are repayable on demand.

Amounts due from related companies are non-trade in nature, unsecured, non-interest bearing and repayable on demand. Related companies refer to its ultimate holding company, Sunright Limited and its subsidiaries.

The carrying amounts of total trade and other receivables are denominated in the following currencies:

	Group		Company	
	2026 RM'000	2025 RM'000	2026 RM'000	2025 RM'000
United States Dollar	24,024	14,211	463	652
Ringgit Malaysia	17,660	18,528	16,515	13,367
Renminbi	12,897	11,282	–	–
	54,581	44,021	16,978	14,019

16. Cash and short-term deposits

	Group		Company	
	2026	2025	2026	2025
	RM'000	RM'000	RM'000	RM'000
Cash at banks and on hand	21,282	19,564	6,368	4,464
Deposits with licensed banks	196,084	190,557	36,648	37,788
Cash and short-term deposits	217,366	210,121	43,016	42,252
Less: Bank deposits with maturity more than three months	(133,600)	(137,500)	(8,000)	(14,000)
Cash and cash equivalents	83,766	72,621	35,016	28,252

Cash and short-term deposits are denominated in the following currencies:

	Group		Company	
	2026	2025	2026	2025
	RM'000	RM'000	RM'000	RM'000
United States Dollar	6,319	4,670	1,523	427
Ringgit Malaysia	200,646	194,382	41,493	41,825
Renminbi	10,401	11,069	–	–
	217,366	210,121	43,016	42,252

Cash at banks earns interest at floating rates based on daily bank deposit rates. Short-term deposits, other than those with maturity more than three months, are made for varying periods of between five days and three months (2025: between seven days and three months), depending on the immediate cash requirements of the Group and of the Company, and earn interests at the respective short-term deposit rates. The weighted average effective interest rates of short-term deposits as at 31 July 2026 for the Group and the Company were 3.1% (2025: 3.3%) and 2.9% (2025: 3.1%) per annum respectively.

Cash and short-term deposits of RM10,401,000 (2025: RM11,069,000) held in PRC are subject to local exchange control restrictions. These regulations place restriction on the amount of currency being exported other than through dividends and trade-related transactions.

17. Share capital

	Group and Company			
	Number of ordinary shares		Amount	
	2026	2025	2026	2025
	'000	'000	RM'000	RM'000
Issued and fully paid, at no par value:				
At beginning/end of the year	43,015	43,015	43,678	43,678

The holders of ordinary shares are entitled to receive dividends as and when declared by the Company. All ordinary shares carry one vote per share without restrictions and rank equally with regard to the Company's residual assets.

18. Reserves

	Note	Group		Company	
		2026	2025	2026	2025
		RM'000	RM'000	RM'000	RM'000
Distributable:					
Retained earnings		282,896	278,521	112,662	117,441
Non-distributable:					
Foreign currency translation reserve	(i)	10,676	10,101	–	–
Statutory reserve fund	(ii)	4,629	4,629	–	–
Merger relief reserve	(iii)	–	–	1,215	1,215
Capital reserve	(iv)	2,240	2,240	–	–
		300,441	295,491	113,877	118,656

(i) Foreign currency translation reserve

The foreign currency translation reserve represents exchange differences arising from the translation of the financial statements of foreign operation whose functional currency is different from that of the Group's presentation currency.

(ii) Statutory reserve fund

In accordance with the Foreign Enterprise Law applicable to the subsidiary in the PRC, the subsidiary is required to make an appropriation to a Statutory Reserve Fund ("SRF"). At least 10% of the statutory after tax profits as determined in accordance with the applicable PRC accounting standards and regulations must be allocated to the SRF until the cumulative total of SRF reaches 50% of the subsidiary's registered capital. Subject to approval from the relevant PRC authorities, the SRF may be used to offset any accumulated losses or increase the registered capital of the subsidiary. The SRF is not available for dividend distribution to shareholders.

(iii) Merger relief reserve

Merger relief reserve represents the excess of consideration paid over the share capital of the acquired subsidiary.

(iv) Capital reserve

Capital reserve represents the shares of subsidiaries received by the Company arising from bonus issue.

19. Loans and borrowings

		Group		Company

(i) Revolving credits

At the previous financial year end, the revolving credits of the Group bore interests of 4.2% per annum.

(ii) Term loans

At the reporting date, the term loans of the Group bore interests between 4.3% and 5.0% (2025: between 4.5% and 5.0%) per annum.

(iii) Lease liabilities

The lease liabilities of the Group and the Company bore interests between 5.0% and 7.8% (2025: between 4.7% and 7.1%), and between 5.1% and 6.8% (2025: between 4.7% and 5.1%) per annum respectively at the reporting date.

19. Loans and borrowings (cont'd)

A reconciliation of movement of liabilities to cash flows arising from financing activities is as follows:

			Non-cash items

Lease liabilities					
- Current	2,433	(2,515)	–	1,975	1,893
- Non-current	4,833	–	199	(2,270)	2,762
Total	73,260	(37,174)	199	(295)	35,990
Company					
Term loans					
- Current	25	(25)	–	–	–
Lease liabilities					
- Current	1,515	(1,514)	–	909	910
- Non-current	1,319	–	9	(909)	419
Total	2,859	(1,539)	9	–	1,329

The 'Others' column relates to the reclassification of non-current portion of loans and borrowings. The remaining amount relates to foreign exchange movement, if any.

19. Loans and borrowings (cont'd)

The carrying amounts of total loans and borrowings are denominated in the following currencies:

	Group		Company	
	2026	2025	2026	2025
	RM'000	RM'000	RM'000	RM'000
Renminbi	16,062	5,035	–	–
Ringgit Malaysia	24,946	30,955	5,203	1,329
	41,008	35,990	5,203	1,329

20. Deferred tax (assets)/liabilities

	Note	Group		Company	
		2026	2025	2026	2025
		RM'000	RM'000	RM'000	RM'000
At beginning of the year		(929)	872	(3,969)	(3,969)
Recognised in profit or loss	9	(2,142)	(1,940)	–	–
Exchange differences		(40)	139	–	–
At end of the year		(3,111)	(929)	(3,969)	(3,969)
Presented after appropriate offsetting as follows:					
Deferred tax assets		(5,983)	(5,943)	(3,969)	(3,969)
Deferred tax liabilities		2,872	5,014	–	–
		(3,111)	(929)	(3,969)	(3,969)

The components and movements of deferred tax assets and liabilities during the financial year prior to offsetting are as follows:

Deferred tax liabilities of the Group

	Property, plant and equipment	Others	Total
	RM'000	RM'000	RM'000
At 1 August 2024	8,707	–	8,707
Recognised in profit or loss	(1,932)	5	(1,927)
At 31 July 2025	6,775	5	6,780
Recognised in profit or loss	(1,977)	(4)	(1,981)
At 31 July 2026	4,798	1	4,799

20. Deferred tax (assets)/liabilities (cont'd)

Net	(3,969)

* Others comprise other deductible temporary differences relating to provisions.

20. Deferred tax (assets)/liabilities (cont'd)

Deferred tax assets have not been recognised in respect of the following items:

	Group		Company	
	2026 RM'000	2025 RM'000	2026 RM'000	2025 RM'000
Property, plant and equipment	24,232	22,878	3,763	2,242
Unabsorbed capital allowances	9,311	8,422	2,534	2,408
Unutilised business losses	26,643	25,110	782	–
Other deductible temporary differences	4,010	3,631	1,192	491
	64,196	60,041	8,271	5,141

The availability of the above deductible temporary differences for offsetting against future taxable profits of the subsidiaries is subject to the tax laws and legislation of the countries in which the subsidiaries operate. The unutilised business losses of entities in PRC and Malaysia are allowed to be carried forward for a maximum period of five and ten years respectively. Upon expiry of the relevant periods, the unutilised business losses will be disregarded.

Pursuant to relevant tax regulations, the unutilised business losses at the end of reporting period will expire as follows:

	Group		Company
	2026 RM'000	2025 RM'000	2026 RM'000
Expiring in 2027	1,671	2,223	–
Expiring in 2028	2,801	2,801	–
Expiring in 2029	1,912	1,912	–
Expiring in 2030	6,366	6,366	–

Balance due for acquisitions of property, plant and equipment	11	27,902	10,315	121	123
Amounts due to ultimate holding company		2,838	2,959	1,260	1,329
Amounts due to a subsidiary		–	–	–	443
Amounts due to related companies		2,303	–	875	–
Total current trade and other payables		55,179	28,721	11,027	7,177
Total trade and other payables		55,759	28,721	11,027	7,177
Add: Loans and borrowings (exclude lease liabilities)		31,421	31,335	–	–
Less: Deferred grant income		(804)	–	–	–
Total financial liabilities carried at amortised cost		86,376	60,056	11,027	7,177

(i) Trade payables and sundry payables

Trade payables and sundry payables, including balance for acquisitions of property, plant and equipment, are non-interest bearing. They are normally settled on 30 to 90 days (2025: 30 to 90 days) terms.

(ii) Related companies payables

Amounts due to ultimate holding company, subsidiary and related companies are non-trade in nature, unsecured, non-interest bearing and are repayable on demand.

(iii) Deferred grant income

Deferred grant income relates to government grants received for the purchase of certain property, plant and equipment. The deferred grant income is recognised in profit or loss on a systematic basis over the estimated useful lives of the related property, plant and equipment.

21. Trade and other payables (cont'd)

The carrying amounts of total trade and other payables are denominated in the following currencies:

	Group		Company	
	2026 RM'000	2025 RM'000	2026 RM'000	2025 RM'000
United States Dollar	21,985	6,108	985	573
Ringgit Malaysia	17,872	11,444	8,808	5,310
Renminbi	11,508	8,125	–	–
Others	4,394	3,044	1,234	1,294
	55,759	28,721	11,027	7,177

22. Defined benefit liabilities

The Group operates an unfunded defined benefit plan. The level of benefit provided depends on eligible employees' length of service and their salary in their final years leading up to retirement.

The amount included in the consolidated statement of financial position arising from the Group's liabilities in respect of its defined benefit plan is as follows:

	Group	
	2026 RM'000	2025 RM'000
Present value of defined benefit obligations, representing defined benefit liabilities		
- Non-current	6,600	6,197

Changes in present value of the defined benefit obligations are as follows:

	Group	
	2026 RM'000	2025 RM'000
Balance at beginning of the year	6,197	5,662
Current service costs	301	303
Interest costs	186	154
Remeasurement (gain)/loss arising from changes in financial assumptions	(84)	78
Balance at end of the year	6,600	6,197

22. Defined benefit liabilities (cont'd)

The components of amounts recognised in the consolidated statement of profit or loss and other comprehensive income in respect of the defined benefit plan are as follows:

Reported in profit or loss

	Note	Group 2026 RM'000	2025 RM'000
Current service costs	6	301	303
Interest costs	7	186	154
		487	457

Reported in other comprehensive income

	Group 2026 RM'000	2025 RM'000
Remeasurement (gain)/loss arising from changes in financial assumptions	(84)	78

The principal assumptions used in determining the liabilities for the defined benefit plan are shown below:

	Group 2026 %	2025 %
Discount rates	3.78 - 3.86	3.61- 3.65
Expected rate of future salary increases	4.2	4.3

The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the defined benefit liabilities at the reporting date. Assuming all other assumptions were held constant, the Group's defined benefit liabilities will be higher/(lower) by:

	Increase/ (decrease)	Group 2026 RM'000	2025 RM'000
Discount rates	0.25%	(71)	(82)
	(0.25%)	72	83
Expected rate of future salary increases	0.25%	72	82
	(0.25%)	(71)	(81)

The duration of the defined benefit liabilities at the reporting date is 3 to 6 years (2025: 4 to 7 years).

23. Related party transactions

(i) Sales and purchase of goods and services

In addition to the related party information disclosed elsewhere in the financial statements, the following significant transactions between the Group, Company and related parties took place at terms agreed between the parties during the financial year.

	Group		Company	
	2026 RM'000	2025 RM'000	2026 RM'000	2025 RM'000
Transactions with Sunright Limited, ultimate holding company of the Company, and its subsidiaries				
Management fees charged by Sunright Limited	9,960	10,345	3,946	4,520
Dividend paid/payable to Sunright Limited	2,499	1,562	2,499	1,562
Rental received/receivable from KES Systems, Inc.	12	–	–	–
Sale of equipment to:				
- KES Systems & Service (1993) Pte Ltd	–	21	–	21
Purchases from:				
- KES Systems & Service (1993) Pte Ltd	2,755	–	20	–
- KES Systems, Inc.	5,149	–	5,149	–
- KEST Systems and Service Ltd.	–	162	–	162

	Company	
	2026 RM'000	2025 RM'000
Transactions with subsidiaries		
Rental income from a subsidiary	1,828	1,764
Commission income from a subsidiary	415	426
Interest income on loans to a subsidiary	132	61
Purchase of equipment from a subsidiary	–	439
Loans to a subsidiary	3,620	2,600

Information regarding outstanding balances arising from related party transactions as at reporting date is disclosed in Notes 15(iii) and 21(ii).

The directors are of the opinion that the above transactions were in the normal course of business and at terms mutually agreed between the companies.

(ii) Compensation of key management personnel

The executive directors of the Group and of the Company are the key management personnel of the Group and the Company, whose remuneration are disclosed in Note 8.

24. Commitments

(i) Capital commitments

Capital expenditure as at the reporting date is as follows:

	Group		Company	
	2026 RM'000	2025 RM'000	2026 RM'000	2025 RM'000
Property, plant and equipment				
Authorised and contracted for	20,159	19,373	204	94

(ii) Financial instruments

Derivatives included in the statement of financial position at 31 July are as follows:

	Note	2026 Liabilities RM'000	2025 Liabilities RM'000
Group			
Forward currency contracts	25(ii)	(136)	(101)

The Group uses derivatives financial instruments such as forward currency contracts to manage its risks associated with foreign currency fluctuations of its trade receivables. During the financial year, the Group undertakes derivatives arrangements with financial institution for managing foreign currency risk. As at 31 July 2026, the Group held five (2025: nineteen) forward currency contracts, with total outstanding notional amounts of RM4,166,000 (2025: RM12,419,000). The outstanding forward contracts mature within 3 months (2025: 3 months).

The Group does not apply hedge accounting.

(iii) Guarantees

As at 31 July 2026, the Company has provided corporate guarantees to the financial institutions for one of its subsidiaries in connection with loans and borrowings amounting to RM13,808,000 (2025: RM1,847,000).

25. Fair value of assets and liabilities

(i) Fair value hierarchy

The Group and the Company categorise fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- Level 1 Quoted prices (unadjusted) in active market for identical assets or liabilities that the Group and the Company can access at the measurement date;
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 Unobservable inputs for the asset or liability.

25. Fair value of assets and liabilities (cont'd)

(i) Fair value hierarchy (cont'd)

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirely in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

There has been no transfer between levels of fair value measurements during the financial years ended 31 July 2026 and 31 July 2025.

(ii) Assets and liabilities measured at fair value

The following table shows an analysis of each class of assets and liabilities measured at fair value at the reporting date:

	Quoted prices in active markets for identical instruments (Level 1)	Significant observable inputs other than quoted price (Level 2)	Total
	RM'000	RM'000	RM'000
Group			
2026			
Financial assets/(liabilities) at fair value through profit or loss			
Investment securities (quoted)	4,760	–	4,760
Derivatives (Note 24(ii))	–	(136)	(136)
	4,760	(136)	4,624
2025			
Financial assets/(liabilities) at fair value through profit or loss			
Investment securities (quoted)	10,649	–	10,649
Derivatives (Note 24(ii))	–	(101)	(101)
	10,649	(101)	10,548
Company			
2026			
Financial assets at fair value through profit or loss			
Investment securities (quoted)	4,760	–	4,760
2025			
Financial assets at fair value through profit or loss			
Investment securities (quoted)	10,649	–	10,649

25. Fair value of assets and liabilities (cont'd)

(iii) Level 2 fair value measurements

The following is a description of the valuation techniques and inputs used in the fair value measurement for assets and liabilities that are categorised within Level 2 of the fair value hierarchy:

Derivatives

Forward currency contracts are valued using a valuation technique with market observable inputs. The most frequently applied valuation techniques include forward pricing model, using present value calculations. The model incorporates various inputs including foreign exchange spot and forward rates as well as forward rate curves.

(iv) Assets and liabilities not measured at fair value and whose carrying amounts are reasonable approximation of fair value

Trade and other receivables (Note 15), cash and short-term deposits (Note 16), loans and borrowings (Note 19) and trade and other payables (Note 21)

The carrying amounts of these financial assets and liabilities are reasonable approximation of fair values, either due to their short-term nature or that they are instruments that are priced to market interest rates on or near the reporting date.

26. Financial risk management objectives and policies

The Group's and the Company's overall risk management programme seeks to minimise potential adverse effects on financial performance of the Group and of the Company that these risks may expose.

The Group and the Company are exposed to financial risks arising from their operations and the use of financial instruments. The key financial risks include interest rate risk, foreign currency risk, liquidity risk, credit risk and market price risk. The Board of Directors reviews policies and procedures for the management of these risks. The Audit Committee provides independent oversight to the effectiveness of the risk management process. It is, and has been, throughout the current and previous financial year, the Group's and the Company's policy that no trading in derivatives for speculative purposes shall be undertaken.

The following sections provide details regarding the Group's and the Company's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

There has been no change to the Group's and Company's exposure to these financial risks or the manner in which they manage and measure the risks.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's and of the Company's financial instruments will fluctuate because of changes in market interest rates.

The Group's and the Company's exposure to interest rate risks arises primarily from their loans and borrowings. The Group and the Company obtain additional financing through bank borrowings and leasing arrangements.

The Group's and the Company's interest-bearing financial assets are mainly short-term in nature, where the surplus funds are placed with reputable licensed banks and financial institutions.

The Group's and the Company's policy is to obtain the most favourable interest rates available.

26. Financial risk management objectives and policies (cont'd)

(i) Interest rate risk (cont'd)

Sensitivity analysis for interest rate risk

At the reporting date, if interest rates had been 25 basis points lower/higher, with all other variables held constant, the Group's profit before tax (2025: loss before tax) would have been RM78,000 (2025: RM122,000) higher/lower (2025: lower/higher), arising mainly as a result of lower/higher interest expenses on floating rate loans.

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Group and the Company have transactional currency exposures arising from sales and purchases that are denominated in currencies other than the respective functional currencies of Group entities, primarily United States Dollar ("USD"). To manage its foreign currency risk, the Group has entered into forward contract arrangements with financial institutions as disclosed in Note 24(ii).

The Group and the Company also hold cash and short-term deposits denominated in foreign currencies (Note 16) for working capital purpose.

Sensitivity analysis for foreign currency risk

The following table demonstrates the increase/(decrease) in the Group's and the Company's profit before tax (2025: loss before tax) to a reasonably possible change in USD exchange rate against RM with all other variables held constant:

	Group		Company	
	2026	2025	2026	2025
	RM'000	RM'000	RM'000	RM'000
USD/RM				
- strengthened 1% (2025: 1%)	66	(128)	10	(5)
- weakened 1% (2025: 1%)	(66)	128	(10)	5

The Group is also exposed to currency translation risk arising from the Company's net investment in foreign operation, PRC. As at reporting date, it is estimated that Renminbi ("RMB") strengthened against RM by 1%, with all other variables held constant, would increase the Group's other comprehensive income by approximately RM286,000 (2025: RM274,000). A weakened RMB against RM by 1% would have had the equal but opposite effect on the aforesaid amount, on the basis that all other variables remain constant.

(iii) Liquidity risk

Liquidity risk is the risk that the Group or the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Group's and the Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Group's and the Company's cash and short-term deposits, operating cash flows, availability of banking facilities and debt maturity profile are actively managed to ensure adequate working capital requirements and that repayment and funding needs are met. The Group's and the Company's objective is to maintain a balance between continuity of funding and flexibility through the use of stand-by credit facilities.

26. Financial risk management objectives and policies (cont'd)

(iii) Liquidity risk (cont'd)

Analysis of financial instruments by remaining contractual maturities

The tables below summarise the maturity profile of the Group's and the Company's financial assets used for managing liquidity risk and financial liabilities at the reporting date based on contractual undiscounted repayment obligations.

	Note	On demand or within one year	One to five years	Total

As at the end of financial year, the contractual expiry of the Company's corporate guarantees matured within 4 year. This was based on the earliest period in which the corporate guarantee contracts could be called. The maximum amount of the corporate guarantee contracts are disclosed in Note 26(iv)(b).

26. Financial risk management objectives and policies (cont'd)

(iv) Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligations. The Group's and the Company's exposure to credit risk arises primarily from trade and other receivables. For other financial assets (including investment securities, cash and short-term deposits and derivatives), the Group and the Company minimise credit risk by dealing with high credit rating counterparties.

The Group's and the Company's objective is to seek continual revenue growth while minimising losses incurred due to increased credit risk exposure. The Group and the Company trade with recognised and creditworthy third parties. It is the Group's and the Company's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, trade receivable balances are monitored on an ongoing basis with the result that the Group's and the Company's exposure to bad debts is not significant.

The Group and the Company consider the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. The Group and the Company have determined the default event on a financial asset to be when the counterparty fails to make contractual payments.

To assess whether there is a significant increase in credit risk, the Group and the Company compare the risk of a default occurring on the asset as at reporting date with the risk of default as at the date of initial recognition. The Group and Company consider available reasonable and supportable forward-looking information which includes the following indicators:

- internal credit rating
- external credit rating as and when necessary
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the debtor's ability to meet its obligations

The Group and the Company determined that its financial assets are credit-impaired when:

- there is a significant difficulty of the debtors
- a breach of contract such as a default or past due event
- it is becoming probable that the debtor will enter bankruptcy or other financial reorganisation

The Group and the Company categorise a receivable for potential write-off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan. Where receivables have been written off, the Group and the Company continue to engage enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

Exposure to credit risk

At the reporting date, the Group's and the Company's maximum exposure to credit risk is represented by:

(a) the carrying amount of each class of financial assets recognised in the statements of financial position, including derivatives with positive fair values; and

(b) a nominal amount of RM13,808,000 (2025: RM1,847,000) relating to corporate guarantees provided by the Company to the financial institutions for one of its subsidiaries' loans and borrowings.

26. Financial risk management objectives and policies (cont'd)

(iv) Credit risk (cont'd)

Credit risk concentration profile

The Group and the Company determine concentrations of credit risk by monitoring the country and industry sector profile of its trade receivables on an ongoing basis. The credit risk concentration profile of the Group's and the Company's trade receivables at the reporting date is as follows:

	2026		2025	
	RM'000	% of total	RM'000	% of total
Group				
By country				
Malaysia	29,148	59	23,519	58
PRC	11,577	23	10,339	25
Others*	8,870	18	7,051	17
	49,595	100	40,909	100

* Others include countries such as United States of America, European countries and other Asian countries.

	2026		2025	
	RM'000	% of total	RM'000	% of total
By industry sectors				
Burn-in and testing	49,595	100	40,909	100

At the reporting date, approximately 71% (2025: 73%) of the Group's trade receivables were due from three (2025: three) major customers who are in the semiconductor industry.

Company

95% (2025: 93%) of the Company's trade receivables are located in Malaysia.

Trade receivables

For trade receivables, the Group and the Company apply a simplified approach in calculating ECLs. Therefore, the Group and the Company do not track changes in credit risk, but instead recognise a loss allowance based on lifetime ECLs at each reporting date. The Group and the Company determine expected credit losses of trade receivables by making debtor-specific assessment of expected impairment loss for long overdue trade receivables and using a provision matrix for remaining trade receivables that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. At every reporting date, historical default rates are updated and changes in the forward-looking estimates are analysed.

26. Financial risk management objectives and policies (cont'd)

(iv) Credit risk (cont'd)

Trade receivables (cont'd)

	Trade receivables past due			
	1 to 90 days	91 to 180 days	More than 180 days	Total
	RM'000	RM'000	RM'000	RM'000
2026				
Group				
Trade receivables	3,540	–	89	3,629
Allowance for impairment	–	–	(89)	(89)
Trade receivables - net	3,540	–	–	3,540
Company				
Trade receivables	208	–	–	208
2025				
Group				
Trade receivables	2,904	–	907	3,811
Allowance for impairment	–	–	(907)	(907)
Trade receivables - net	2,904	–	–	2,904
Company				
Trade receivables	524	–	–	524

(v) Market price risk

Market price risk is the risk that the fair value or future cash flows of the Group's and the Company's financial instruments will fluctuate because of changes in market prices (other than interest or exchange rates).

The Group and the Company are exposed to market price risk arising from its investments in quoted equity instruments. These instruments are quoted on the Bursa Malaysia Securities Berhad in Malaysia, and are classified as held for trading. The Group and the Company do not have exposure on commodity price risk.

The Group's and the Company's objective is to manage investment returns and market price risk by investing in companies operating mainly in Malaysia which are publicly traded.

Sensitivity for market price risk

At the reporting date, if the share price of the quoted equity instruments had been 5% (2025: 5%) higher/lower, with all other variables held constant, the Group's and the Company's profit before tax (2025: loss before tax) would have been RM238,000 (2025: RM532,000) higher/lower (2025: lower/higher), arising as a result of higher/lower fair value gain on investment securities.

27. Capital management

The primary objective of the Group's and the Company's capital management is to ensure that they maintain a strong credit rating and healthy capital ratios in order to support their businesses and maximise shareholders' value.

The Group and the Company manage their capital structure and make adjustments to it, in light of changes in economic conditions. To maintain or adjust capital structure, the Group and the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the financial years ended 31 July 2026 and 31 July 2025.

As disclosed in Note 18, a subsidiary of the Group is required by the Foreign Enterprise Law of the PRC to contribute to and maintain a non-distributable statutory reserve fund whose utilisation is subject to approval by the relevant PRC authorities. This externally imposed capital requirement has been complied with by the above-mentioned subsidiary for the financial years ended 31 July 2026 and 31 July 2025.

The Group and the Company will continue to be guided by prudent financial policies of which gearing is an important aspect. The Group and the Company include within net debt, loans and borrowings less cash and short-term deposits. Capital includes equity attributable to owners of the Company less statutory reserve fund.

		Group		Company	
	Note	2026	2025	2026	2025
		RM'000	RM'000	RM'000	RM'000
Cash and short-term deposits	16	217,366	210,121	43,016	42,252
Less: Loans and borrowings	19	(41,008)	(35,990)	(5,203)	(1,329)
Net cash		176,358	174,131	37,813	40,923
Equity attributable to owners of the Company		344,119	339,169	157,555	162,334
Less: Statutory reserve fund	18	(4,629)	(4,629)	–	–
		339,490	334,540	157,555	162,334

At the reporting date, the Group's and the Company's cash and short-term deposits exceeded its loans and borrowings. Therefore, gearing ratio is not meaningful to the Group and the Company.

28. Segment information

The Group has only one operating segment, burn-in and testing segment, which is evaluated regularly by key management in deciding how to allocate resources and in assessing performance of the Group.

Investment holding segment which comprises Group-level corporate services, treasury and investments functions, and consolidation adjustments which are not directly attributable to the burn-in and testing segment, is not significant to be separately reported and evaluated by management.

28. Segment information (cont'd)

Geographical information

Revenue and non-current assets information based on the geographical location of customers and assets respectively are as follows:

	Revenue		Non–currentassets	
	2026	2025	2026	2025
	RM'000	RM'000	RM'000	RM'000
Malaysia	140,984	137,438	132,868	118,282
PRC	36,072	38,405	28,640	15,485
Singapore	24,150	17,162	–	–
Others*	21,577	17,541	–	–
	222,783	210,546	161,508	133,767

Non-current assets information presented above consist of property, plant and equipment.

* Others include countries such as United States of America and European countries.

Information about major customers

The Group's customer base includes three (2025: three) customers from burn-in and testing segment, with whom transactions have exceeded 10% of the Group's revenue. Revenue generated from these customers amounted to approximately RM157,036,000 (2025: RM153,431,000).

29. Dividends

	Company	
	2026	2025
	RM'000	RM'000
Recognised during the financial year		
Interim tax exempt dividend for 2025 at 6.0 sen (2024: 7.5 sen) per ordinary share	2,581	3,226
First interim tax exempt dividend for 2026 at 6.0 sen per ordinary share	2,581	–
	5,162	3,226
Declared but not recognised as a liability as at 31 July		
Second interim tax exempt dividend for 2026 at 4.5 sen (2025: 6.0 sen) per ordinary share, to be paid on 29 October 2026	1,936	2,581

On 22 September 2026, the directors approved a second interim tax exempt dividend in respect of the financial year ended 31 July 2026, of 4.5 sen on 43,014,500 ordinary shares, amounting to dividend payable of RM1,935,653. The financial statements for the current financial year do not reflect this interim dividend. Such dividend will be accounted for in equity as an appropriation of retained earnings in the financial year ending 31 July 2027.

30. Authorisation of financial statements for issue

The financial statements for the financial year ended 31 July 2026 were authorised for issue in accordance with a resolution of the directors on 22 September 2026.

NOTICE OF ANNUAL GENERAL MEETING

NOTICE IS HEREBY GIVEN THAT the Fifty-Fifth Annual General Meeting ("55th AGM") of the Company will be held at Connexion Conference & Event Centre, Spectrum & Prism (Level 3A), Nexus, Bangsar South, No. 7, Jalan Kerinchi, 59200 Kuala Lumpur, Malaysia on Wednesday, 13 January 2027 at 10:00 a.m. for the following purposes: -

AGENDA

AS ORDINARY BUSINESS

1. To receive the audited financial statements for the financial year ended 31 July 2026 together with the reports of the Directors and of the Auditors thereon.

2. To approve payment of Directors' fees and allowances of RM337,000 in respect of the financial year ended 31 July 2026. **Resolution 1** *(Please see Explanatory Note)*

3. To re-elect the following Directors who are retiring pursuant to Article 100 of the Company's Constitution and being eligible, have offered themselves for re-election: -

   (a) Mr Samuel Lim Syn Soo **Resolution 2**
   (b) Mr Kenneth Tan Teoh Khoon **Resolution 3**
   (Please see Explanatory Note)

4. To re-appoint Ernst & Young PLT as the Company's Auditors and to authorise the Board of Directors to fix their remuneration. **Resolution 4**

AS SPECIAL BUSINESS

To consider and if thought fit, to pass the following resolution as Ordinary Resolution:

5. Proposed renewal of existing shareholders' mandate for recurrent related party transactions of a revenue or trading nature **Resolution 5** *(Please see Explanatory Note)*

   "THAT approval be and is hereby given, for the purposes of Chapter 10, Paragraph 10.09 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad, for the Company and/or its subsidiaries ("Group") to enter into transactions falling within the types of recurrent related party transactions of a revenue or trading nature which are necessary for the day-to-day operations of the Group ("RRPTs"), as set out in section 4.2 of the circular to shareholders of the Company dated 26 October 2026 ("Circular"), with any party who is described as a related party in the Circular, provided that such transactions are carried out in the normal course of business, on arm's length basis, at transaction prices and terms which are not more favourable to the related parties involved than those generally available to the public and which will not be to the detriment of the minority shareholders of the Company in accordance with the guidelines and procedures of the Company for the RRPTs as specified in section 4.4 of the Circular;

THAT such approval shall continue to be in force until:-

(a) the conclusion of the next annual general meeting ("AGM") of the Company, at which time it will lapse, unless by a resolution passed at the meeting, the authority is renewed; or

(b) the expiration of the period within which the next AGM is required to be held pursuant to Section 340 of the Companies Act 2016 ("Act") (but shall not extend to such extension as may be allowed pursuant to Section 340 of the Act); or

(c) revoked or varied by a resolution passed by the shareholders in a general meeting,

whichever is earlier;

THAT proper disclosure of the various RRPTs and the aggregate value of such transactions shall be disclosed in the annual report of the Company;

AND THAT the Directors be and are hereby authorised to complete and do all such acts and things as may be required by the relevant authorities (including executing such documents as may be required) to give effect to the transactions contemplated and/or authorised by this Ordinary Resolution."

6. To transact any other business which may be properly transacted at an Annual General Meeting, due notice of which shall have been previously given in accordance with the Companies Act 2016 and the Company's Constitution.

BY ORDER OF THE BOARD
LEONG OI WAH (MAICSA 7023802)
SSM PRACTISING CERTIFICATE NO. 201908000717
Company Secretary

Petaling Jaya
26 October 2026

Notes:

1. A member entitled to attend and vote at the 55th AGM is entitled to appoint proxy/proxies who may but need not be member/members of the Company to attend and vote in his/her stead.

2. When a member appoints two or more proxies the appointments shall be invalid unless he/she specifies the proportions of his/her holdings to be represented by each proxy.

3. The instrument appointing proxy/proxies shall be in writing under the hand of the appointor or his/her attorney duly authorised in writing or, if the appointor is a corporation, either under its common seal or under the hand of an officer or attorney duly authorised.

4. The instrument appointing proxy/proxies must be deposited at the Share Registrar's office at 11th Floor, Menara Symphony, No. 5, Jalan Prof. Khoo Kay Kim, Seksyen 13, 46200 Petaling Jaya, Selangor Darul Ehsan, Malaysia, not less than forty-eight (48) hours before the time appointed for holding the 55th AGM or any adjournment thereof. Alternatively, the instrument appointing proxy/proxies can be submitted via email by attaching a signed PDF copy of the Proxy Form to bsr.helpdesk@boardroomlimited.com before the cut-off time for the lodgement.

5. Depositors whose name appear in the Record of Depositors on 6 January 2027 shall be regarded as member of the Company entitled to attend the 55th AGM or appoint proxy/proxies to attend and vote on his/her/its behalf.

NOTICE OF ANNUAL GENERAL MEETING

Explanatory Notes To Ordinary Business:

Resolution 1

Payment of Directors' fees and allowances in respect of the financial year ended 31 July 2026 are as follows:

Description	Amount (RM)
Directors' fees	310,000
Allowances (Payable to Non-Executive Directors only)	27,000
Total	337,000

Resolutions 2 and 3

For the purpose of determining the eligibility of the Directors to stand for re-election at the 55th AGM, the Board through its Nominating Committee had assessed Mr Samuel Lim Syn Soo and Mr Kenneth Tan Teoh Khoon (collectively "the Retiring Directors"). Please refer to the Board of Directors section in the Annual Report 2026, for more details about them. The Retiring Directors were assessed on their performance, cumulative knowledge and understanding of the Group's businesses. Their active participation at the Board meetings showed that they came well prepared and were effective in the discharge of their responsibilities. They have always acted in the best interests of the Company as a whole.

Based on the above, the Board supports the re-election of the Retiring Directors.

Explanatory Note To Special Business:

Resolution 5

Please refer to the Circular to Shareholders dated 26 October 2026 for more information.

ADMINISTRATIVE NOTES FOR SHAREHOLDERS/ PROXIES/CORPORATE REPRESENTATIVES

Attending the Fifty-Fifth Annual General Meeting ("AGM")

REGISTRATION

1. The registration will commence at 8:30 a.m. and the registration counters will be closed when the meeting commences.

2. Please present your original identity card (for Malaysian) or passport (for non-Malaysian) at the registration counters for verification and registration. Photocopy of identity card or passport will not be accepted. Please make sure you collect your identity card or passport thereafter.

3. No person will be allowed to register on behalf of another person even with the original identity card or passport of that other person.

4. Upon verification and registration:

   (i) Please sign the Attendance List and you will be given a wristband.

   (ii) A special QR code will be generated for you to scan and access the electronic polling ("ePolling") system using your personal smartphone or tablet.

5. After registration, please vacate the registration area.

6. No person will be allowed to enter the meeting hall without the wristband and the wristband must be worn throughout the AGM. There will be no replacement in the event you lose or misplace the wristband.

7. The registration counters only handle verification of identity and registration. If you have any enquiries or in need of clarification, please proceed to the Help Desk.

REFRESHMENTS

1. Coffee and tea will be served at the refreshment area before the commencement of the meeting.

2. Bento lunch will be served at the refreshment area once the meeting ends at the time as directed by the Chairman.

SEATING ARRANGEMENTS FOR THE MEETINGS

1. Shareholders, proxies and Corporate Representatives are free to sit anywhere they please, except for those which have been marked "Reserved".

2. Shareholders, proxies and Corporate Representatives will only be allowed to enter the meeting hall upon registration.

3. All shareholders, proxies and Corporate Representatives are encouraged to be seated at least five minutes before the scheduled commencement of the meeting.

MOBILE DEVICES

Kindly switch off or turn to silent mode all mobile devices during the meeting to ensure smooth proceedings.

ADMINISTRATIVE NOTES FOR SHAREHOLDERS/ PROXIES/CORPORATE REPRESENTATIVES

Attending the Fifty-Fifth Annual General Meeting ("AGM")

PERSONAL BELONGINGS

Kindly take care of your personal belongings. The Company will not be held responsible for any loss of items.

PARKING COUPON

1. A standing signage will be prepared to direct shareholders, proxies and corporate representatives to the designated location for digital parking ticket redemption.

2. **The digital parking ticket redemption shall cease at 12:00 p.m.. Those who fail to redeem the digital parking ticket by 12:00 p.m. shall bear the parking charges themselves.**

VOTING PROCEDURES

1. The voting at the meeting will be conducted by way of ePolling. The Share Registrar, Boardroom Share Registrars Sdn. Bhd. is appointed as Poll Administrator to conduct the polling process and a scrutineer is appointed to verify and validate the poll results.

2. Voting via ePolling will be carried out separately for each individual resolution upon the conclusion of the deliberation.

3. All attendees of the meeting will be briefed and guided by the Poll Administrator before the commencement of the ePolling process.

ANNUAL REPORT 2026 AND CIRCULAR TO SHAREHOLDERS

The Annual Report 2026 and Circular to Shareholders dated 26 October 2026 are available on the Company's website at URL http://kesmi.com/investor-relations/general-meetings/ and Bursa Malaysia Securities Berhad's website at www.bursamalaysia.com. Limited printed copies are available for collection on a first come, first served basis from the table near the entrance of the meeting hall.
